VOL. XXXVIII.—No. 51 ATLANTA, GA., SATURDAY MORNING, AUGUST 5, 1905.—TWELVE PAGES PRICE FIVE CENTS

NEW ORLEANS PUTS FIGHT IN HANDS OF UNCLE SAM

New Orleans Business Men Want Government Physicians to Have Control.

SITUATION NOT HOPELESS DESPITE CALL FOR HELP

New Orleans People Admit Seriousness of Scourge, but Claim That Government Aid Is Wished Chiefly To Restore Confidence.

New Orleans, August 4.
Fever report to 6 p m;
New cases, 43.
Total cases to date, 475.
Deaths, 5.
Total deatns to date, 89.
New sub-foci, 10.
Total sub-foci, 56.

New Orleans, August 4.—With no intention of admitting the fever situation to be beyond control but in the hope of reviving confidence here and the south the official and business interests today decided to send a request to President Roosevelt to have the United States government assume charge of the struggle now progressing to wipe out yellow fever from New Orleans and Louisiana.

Public sentiment approves the action taken. The expectation is that within the next two days Eurgeon General Wyman, with all the resources of the government will be enlisted in the campaign. The action taken was the result of a meeting held late today at the cotton exchange. President A. Britten, presided.

There were present, Mayor Behrman, Chairman Angier, of the citizens' committee; President Souchon, of the state board of health; President Kohnke, of the city board of health; representatives of each of the exchanges and commercial bodies; Surgeon White, of the marine hospital service, and a number of representative citizens. In conference, which preceded the meeting. Presidents Souchon and Kohnke had given to Mayor Behrman their cordial assent to the proposed action.

Situation Not Hopeless.

All of those present participated in the discussion. It was the concensus of opinion that while the situation had grown serious, it was not hopeless. That view was concurred in by Dr. White. At the same time it was believed that if government control was resolved upon there would be an immediate restoration of confidence throughout Louisiana and and the other states in the south where there has been criticism of the local authorities for not sooner making public the existence of the fever.

It was also the belief of those present that General Wyman would be able to send a force of physicians to New Orleans thoroughly equipped for the handling of the yellow fever situation because of their experience in Cuba, Mexico and at different points in the United States, and that the government would have the facilities for enforcing a scientific campaign not possessed by the local authorities. When the local officials first took charge of the situation it was confidently hoped that the fever could be stamped out with reasonable delay, but the progress has not been as expected and so frightened have become the people in the south over the increase in the number of cases that New Orleans is threatened with a serious paralysis of her trade by reason of the radical quarantines that are now being instituted.

At the conclusion of the meeting it was announced that the following resolution, offered by Mr. Janvier, had been adopted, Mr. E. M. Farrar alone voting in the negative:

"Resolved, That this meeting endorse the proposition to ask the United States government to take control of the yellow fever situation in New Orleans, and Louisiana, and the governor of the state and the mayor of the city be requested to take immediate steps to carry this proposition into effect; and that the hearty cooperation of the state and city governments, state and city health boards, the Orleans medical society and of the people generally, be pledged in such action as may be taken by the government."

Prompt Action Urged.

Immediately after the meeting adjourned, a telegram signed by the mayor and the other interests represented at the meeting was addressed to Governor Blanchard, telling him of the action taken and furnishing him with a copy of the resolution. The governor was asked to forward a request to President Roosevelt directing the United States public health and marine hospital service to take charge at once. Prompt action was urged upon the governor.

The announcement of the action taken at first created some alarm in the city growing out of the fear that it meant that the situation had grown entirely beyond control, but the alarm was allayed when it became known that the authorities had acted simply from the belief that prompt action now in turning over the direction of affairs to the marine hospital service, in whom there is supreme confidence here, would almost certainly avert an epidemic. Dr. White and his staff, who have been working here in conjunction with the local authorities, were gratified over the action taken. The local authorities are glad to be relieved of the heavy responsibility which has been placed on them.

At a conference at the city hall today it was decided that Mayor Behrman should issue a proclamation requiring every business house in the city to close its doors on Wednesday, next, in

MISSISSIPPI GUARDS IN LOUISIANA JAIL

Naval Capture Effected by Governor Blanchard's Guard Ship Nunez.

PURSUING SHIP CAUGHT BY THE BOAT SHE PURSUED

Despite Fact That Crew of Governor Vardaman's Cruiser Is in Louisiana Jail, No Bloodshed Is Expected on the Frontier.

New Orleans, August 4.—Taking their cue from Governor Vardaman, or acting under instructions, the Mississippi patrol boats evidently thought the appearance of the Louisiana naval militia was purely for effect, and not to stop their further depredations in Louisiana waters.

They found out their mistake when the flagship of the partol squadron, the Grace, and another vessel, the Tipsey, which had been stationed in Lake Borgne canal, were seized, their flags hauled down and the officers and crews placed under arrest. The crew of the Tipsey will be taken to St. Bernard parish, while the crew of the Grace will be brought to this city, both to await the action of the grand juries of the respective parishes in which their offenses were committed.

Guardships Were Trapped.

The Tipsey, accompanied by a launch, was guarding the mouth of Lake Borgne canal, which connects Lake Borgne with the Mississippi river, 6 miles distant. At an early hour this morning Lieutenant Ivy, of the naval brigade, with fifteen men on board the schooner Nunez, sailed out of the canal and paid no attention to the blockaders. They followed and eventually overhauled the Nunez, and when they pulled up alongside, the Mississippians discovered that they had been trapped. They were all made prisoners, and their vessels seized. They were taken to the parish jail at St. Bernard.

The report wired to Jackson that Lieutenant Ivy and his crew had been captured by the Mississippi boat is evidently erroneous, for the Mississippi crew are now immured in the parish jail at St. Bernard. A dispatch to The Picayune from Jackson tonight says that the Louisiana boat was captured, which is wrong. This quotes Governor Vardaman as saying that the Mississippi soldiers have strict instruction not to molest any boats save those attempting to land on Mississippi shores, and that the governor still believes that there is no danger whatever of an armed clash between the troops of the two states which will involve bloodshed.

Governor Vardaman was advised from Gulfport tonight that two Mississippi soldiers acting as guards had been captured at Lake Borgne. He has asked for a full report.

Grace Taken and Released.

A staff special to The Picayune from the Rigolets, tells of the events of the day at headquarters today. It had been the intention to board the Mississippi boat, Grace, at daylight, and make the officers and crew prisoners, but the sheriff and district attorney who were to issue the orders, were not present, having gone back to New Orleans, so Captain Bostick, in command of the naval brigade armada, could not act. When he steamed up to the Grace he found her flying a yellow flag and Captain Blunt said he was acting on papers signed by Judge J. H. Neville, of Mississippi, though he was under verbal orders of Captain Chaytor, of the revenue cutter Winona. Captain Blunt claimed that all he had done was under orders, but he was confident that some one had made a serious blunder.

Captain Blunt was invited by Captain Chaytor to a conference with Captain Bostick, and he steamed off, but in the meantime the Wulverine II, which had been sent to Chef Menteur to notify the fishermen that the waters were open and that they would be protected in fishing, as long as they remained in Louisiana water, saw the Grace and captured her. She was brought over to Captain Bostick, but as she had in the meantime secured proper papers from Captain Chaytor, she was released.

Later in the afternoon Captains Chaytor and Bostick had a conference at which they understood each other, and while some of the Mississippi boats are still in the Louisiana waters, Louisiana boats are now coming and going at will.

TAFT ARRIVES AT MANILA.

Secretary's Party Sailed Into Philippine Capital This Morning.

Manila, August 5.—Secretary Taft and party arrived here on the steamer Manchuria at 10 o'clock this morning. Their arrival was made the occasion for a gorgeous water pageant. Governor General Wright, Major General Corbin and Rear Admiral Train, with their staffs and the official reception committee, met the party when the Manchuria anchored. The battle ship Ohio, forts and crafts in the harbor fired the regulation salute for the secretary of war. After the party left the steamship they proceeded to the governor general's residence, where the official welcome was made, and where the golden keys of the city were presented to Secretary Taft.

Thousands lined the streets, which were elaborately decorated.

TASK ACCEPTED BY ROOSEVELT

Wires Government Physicians to Take Charge.

Calls on Surgeon General Wyman To Make Full Investigation and Report as to Any Steps Necessary for Prompt Relief.

Washington, August 4.—President Roosevelt tonight forwarded to Surgeon General Wyman, of the public health and marine hospital service, a telegram from Governor Blanchard, of Louisiana, requesting that the United States government take control of the yellow fever situation in New Orleans. The president directed the surgeon general to take every step in his power to meet the situation in New Orleans and to notify him what further action is advisable and possible for the federal authorities to take.

The telegram in full is as follows:

"Have received following telegram from Governor Blanchard, of Louisiana: 'At a joint meeting of reprcsentatives of all commercial bodies of the city of New Orleans and other prominent persons, at which were present the mayor of the city the state health authorities and the president of the New Orleans Parish Medical association, the following resolution was adopted:

"'That this meeting endorse the proposition to ask the United States government to take control of the yellow fever situation in New Orleans, and that the governor of the state and the mayor of the city be requested to take immediate steps to carry this proposition into effect; further, that the hearty cooperation of the state and city governments and the state and city health boards and the parish medical societies and of the merchants and people generally be pledged in such action as may be taken by the government.

"'I am requested by the mayor of the city, the presidents of the state and city boadr of healths and by a committee of prominent citizens to transmit the above resolution and request you to take over on behalf of the federal government, through the proper channels, the yellow fever situation at New Orleans. This I now do, and urge and speedy action on your part.

"'N. C. BLANCHARD,
"'Governor of Louisiana.

"Please take every step in your power to meet the situation at New Orleans and comply with the request of the governor nad the other authorities and notify me what further action is advisable and possible for the federal authorities to take. Would like full report from you as to what should be done. Please confer with the surgeon generals of the army and navy, if, in your judgment this is wise.

"THEODORE ROOSEVELT."

Dr. Wyman acknowledged the president's telegram and will make a report to him tomorrow.

Wyman Ready To Act.

Dr. Wyman will confer tomorrow with Secretary Shaw, the surgeons in the marine hospital service and others as to the best course to pursue on Governor Blanchard's request, and on their conclusions Dr. Wyman's report to the president will be based.

There are several precedents of comparatively recent date which warrant the government in taking charge of the whole yellow fever situation, notably at Brunswick, Ga., and at the epidemic at the National Soldiers' Home at Hampton, Va. In both cases, the marine hospital service only took the charge of affairs until the disease had been stamped out.

The officials of the marine hospital service are anxious to cooperate in every way with the local authorities in fighting the disease, and a cordial acquiescene in the request made by Governor Blanchard and the citizens of New Orleans is anticipated. The government has at its disposal what is known as an epidemic fund, available, however, only in part for occasions like that at New Orleans and expenditures from that fund are usually supplemented by those from local quarters.

Dr. Wyman declined tonight to discuss what the probable nature of his report to the president would be.

ADAMS IS HELD FOR MURDER.

Bibb Sheriff Arrests Man Charged with Killing Jenkins.

Macon, Ga., August 4.—(Special.)—Sheriff George Robertson today succeeded in locating Epp Adams, the man wanted for the murder of James Jenkins last Sunday night 6 miles east of the city, and sent a deputy to Round Oak, where the man was captured, and brought back to Macon tonight under a warrant sworn out in a justice court.

The investigation of the sheriff has caused him to take this action, and Adams will be held until a hearing can be had. The officers have failed to fix the responsibility, but Adams is held to answer for the shooting of the farmer. Adams is in Bibb jail tonight. He has made no statement and will probably remain silent until he has a hearing.

Prefers Chair to Appeal.

Oswego, N. Y., August 4.—Henry W. Manser, who was today sentenced to death in the electric chair on September 10 for murder, accepted his sentence and requested his attorney not to take an appeal to the court of appeals.

WARM WELCOME FOR THE ENVOYS

All Arrangements Complete for Their Reception.

Details of Meeting Have Been So Nicely Arranged That No Questions of Precedence Will Arise To Mar the Conference.

Oyster Bay, N. Y., August 4.—Final arrangements were completed tonight for the reception by President Roosevelt of the Russian and Japanese peace envoys tomorrow. The president and the state and navy departments will unite in extending a cordial greeting to the plenipotentfaries and to facilitate in every possible way their mission of peace.

Every honor due to their rank will be paid to the envoys and the cordiality of the greeting by the president on behalf of the American people will leave nothing to be desired.

These ceremonies concluded, a luncheon will be served. In order to avoid any unusual questions of precedent, the luncheon will be a buffet collation. Thus will be avoided the seating of the guests at table with the president. The party in attendance at the luncheon will number about twenty-five.

Shortly after the luncheon President Roosevelt will take leave of the envoys and will return to shore in a launch.

Travel on Separate Boats.

From the Mayflower the Japanese envoys and their suite will be conveyed to the dispatch boat Dolphin, which will be anchored nearby, the Russian envoys and their suite remaining on the Mayflower. On these ships the two sets of envoys will be conveyed to Portsmouth, N. H., where the sessions of the peace conference are to be held. Soon after the departure of the guests, the Mayflower and Dolphin will weigh anchor and start on their journey convoyed by the cruiser Galveston.

Sergius Witte and Baron Rosen, the envoys of the Emperor of Russia to the Washington peace conference, were guests today of the President and Mrs. Rosevelt at Sagamore Hill.

They arrived in Oyster Bay via the Long Island railroad at 12:20 p. m. unaccompanied by any other Russian official. As the envoys alighted from their car they were met by confidential messengers from the president's official household and escorted to one of the president's carriages sent to the station to convey them to Sagamore Hill.

A considerable crowd of residents of the village had assembled at the station to see the distinguished visitors. Assurances were given here that the visit of the Russian envoys did not differ in any material respect from that of Baron Komura and Minister Takahira, of Japan, last week.

Mr. Witte and Baron Rosen reached the St. Regis hotel on their return from Oyster Bay at a quarter after 6.

Witte Likes Roosevelt.

Mr. Witte made the following statement about the impressions he had received of the president on this, the first, time he has seen him.

"I have the highest opinion of Mr Roosevelt. I was particularly struck by his energy and broad-mindedness. I feel it is good for the United States to have so distinguished a man at the head of its executive department, and I fully appreciate the reasons that led to the choice of him for so responsible and honorable a post. I do not say this with any desire to flatter the president of the American people. It is my sincere conviction."

Russians Fear Monday.

St. Petersburg, August 4.—The selection of Tuesday as the day for the opening of the Russo-Japanese peace conference has relieved the minds of many Russians, who feared that the conference might begin on Monday, which to the Muscovites is a day of evil omen. Definite information as to the nature of the Japanese terms is not expected before Thursday, as the exchange and verification of credentials and other formalities, it is expected, will consume two days.

The first instalments of a fund raised among the officers and soldiers in the field for the recruiting of the navy, subscriptions for which were voluntarily begun after the battle of the Sea of Japan, have been received here. General Mistchenko's corps contributed $130,000, and that of General Zerpitsky, the heroes of the Mukden retreat, $76,000.

TOMLINSON HEADS ENGINEERS.

The National Association Will Meet Next in Philadelphia.

Louisville, Ky., August 4.—The National Association of Stationary Engineers today elected the following officers: President, R. D. Tomlinson, Milwaukee; vice president, Theodore N. Kelsey, Lowell, Mass.; secretary, F. W. Raven, Chicago; treasurer, Hugh Rensford, Cincinnati. The next convention will be held in Philadelphia.

John Smith on Trial.

Fitzgerald, Ga., August 4.—(Special.)—Last fall the supreme court granted a new trial in the case of John Smith, who was convicted of the murder of Abe Henderson, at Sycamore, nearly a year ago. Smith is being tried this week in Irwin superior court. Attorneys McDonald, Quincey, Williams, Smith and Story are assisting the solicitor general in representing the state, while Attorneys Ryman, Roddenberry, Luke, Bass and Burns appear in behalf of the defendant. The examination of witnesses commenced Tuesday, and the case will extend into next week.

Mrs. M. J. Mitchell, Macon, Ga.

Macon, Ga., August 4.—(Special.)—Mrs. M. J. Mitchell, wife of L. C. Mitchell, a farmer living near Green's mill, a short distance from Macon, died at the family home at an early hour this morning. She leaves a husband and two grown daughters. She was highly respected in the community, and her death is generally mourned. The funeral occurred late this afternoon, at the residence, and the body was interred in the family burying ground.

SANFORD JURY STOPPED IN ITS DELIBERATIONS BY MESSAGE OF DEATH

V. T. SANFORD.

At Nightfall Juror Brandon Received News of Death of His Mother During the Afternoon.

JUDGE STOPS TRIAL TO ALLOW THE JUROR TO ATTEND FUNERAL

It Is Expected That Jury Will Resume Its Deliberations Today. Many Rumors, but Nothing Definite as to How the Jury Stands—Sensational Move Is Made by Mrs. Sanford.

Rome, Ga., August 4.—(Special.—Death interrupted the deliberations of the Sanford jury tonight.

A messenger hurried to the courthouse tonight and announced that the mother of Juryman W. A. Brandon died during the afternoon.

As soon as Judge Wright was informed he called counsel on both sides into conference and it was decided to permit Mr. Brandon to attend his mother's funeral tomorrow. After which the jury will again take up the case. Mr. Brandon left for his home tonight accompanied by Special Officer Baxter.

How Does the Jury Stand?

The fate of Vincent T. Sanford was placed in the hands of the jury at 10:15 this morning and from that hour until the news of the death of Juror Brandon's mother came the case was under consideration without a verdict being reached.

No word has come from the jury room as to how the jury is divided, though naturally there are all sorts of rumors. During the day there was constant gossip that there would be either mistrial or acquittal, but just before nightfall a rumor gained currency that the jury was hung on the question of rendering a first degree verdict with recommendation or one of voluntary manslaughter. Of course it is impossible to say what authority there is for such a rumor or how it gained currency, but it found many believers.

Judge Wright's Strong Charge.

Interest in the outcome of the case is still intense. There was a great crowd at the court house today to hear Colonel Copeland's closing argument for the

MRS. SANFORD RETAINS LAWYER OF HER HUSBAND

ROME, GA., August 4.—(Special.)—The following sighed statement has been furnished for publication by Mr. Jordan H. Sanford:

"Mrs. V. T. Sanford no longer retains Mr. Frank Copeland as her legal adviser.

"After serious meditation I feel that my adviser has done me an injustice, first, by allowing divorce pleadings to be published to the world, for no other purpose that I can see but to furnish gossip and sensational reading for the general public.

"Second, a portion of said divorce pleadings which were published by none other than Mr. Copeland were untrue and published without my knowledge or consent.

"I will admit that these pleadings were read to me before being made public through the press, and I directed such portions of same as were untrue and unfounded to be stricken, which was not done. But original copy was used and said corrections were not made.

"For these reasons I full well know that future relations with him as my advisor would work to no good end and would fully carry out his ideas which would continue to be sensational and work harm to me.

"It was not my intention or purpose to have my divorce proceedings published.

"It was my understanding they were to be filed yith the court only.

"MRS. ELIZABETH SANFORD."

The above statement was given out by Mr. Jordan Sanford, a brother of Vincent Sanford, and Hon. R. E. Davison, of Greene county, a former member of the legislature.

"This statement was given us by Mrs. Sanford for publication," they stated, "and she requests it," they said.

"Colonel Linton A. Dean, leading counsel in the defense of Vincent T. Sanford, will in future be the legal advisor of Mrs. Sanford," said Mr. Jordan H. Sanford. "She has requested my brother, James K. Sanford, to bring Colonel Dean to her for the purpose of retaining him."

"I wa spresent when this statement was made," said Hon. R. E. Davison, "and know it to be true."

P. A. Fluker, of Greene county, was present during the conference.

Colonel Copeland, when told of Mrs. Sanford's statement, declined to talk

CHADWICK FEES TOO HIGH, SAYS REFEREE REMINGTON

CLEVELAND, OHIO, August 4.—Referee in Bankruptcy Remington today took up the fee claims of Nathan Loeser for services as receiver for Mrs. Chadwick, and also the bills for compensation rendered by Messrs. Dawley, Kerrush and Thompson, the attorneys who defended her. Loeser's claim amounted to $2,500. Referee Remington declared the amount exorbitant, and several times larger than the law allowed. Mr. Loeser's claim was temporarily laid aside as were also the bills rendered by Grossman and Smith, counsel for the receiver, pending the presentation of the itemized accounts.

Mrs. Chadwicks' lawyers rendered a bill for $2,013, giving in detail the assistance said to have been rendered to the court and the receiver by them.

"I find a very few items in this list about which there is even a question," said the referee. "Most of them are wholly unallowable."

The matter will be decided later.

M'GEE'S REMAINS INTERRED.

No Cause Yet Found for Young Man's Suicide.

Columbus, Ga., August 4.—(Special.)—The remains of Blanchard F. McGee, who committed suicide yesterday morning at his home in this city by firing a pistol ball through his brain, were laid to rest at Chipley, Ga., his old home.

No cause whatever has been found for the act. The dead man's business affairs appear to be in good shape, and his associates in the Columbus Paper Company say that his financial relations with the company were businesslike and satisfactory, and do not know of any business reason that would have prompted the deed.

Besides his wife, formerly Miss Leila Hardy, of Chipley, and three small children, he is survived by his parents, Mr. and Mrs. W. F. McGee, of Chipley, and two sisters and a brother. He was 28 years of age.

Brown House Reported Sold.

Macon, Ga., August 4.—(Special.)—The Brown house was reported sold today. Bartow Stubbs, one of the proprietors, is mentioned as the purchaser. The price was not learned, as Mr. Stubbs was out of the city and other parties were not in position to state the facts.

Judge Alexander Proudfit and Morris Harris have been the owners of this property for a number of years. It was known several weeks ago that a deal was on and the trade is reported confirmed today. Messrs. Bartow Stubbs and Newton J. Ethridge are the present proprietors and the management will remain unchanged. The hotel is valued at more than $50,000.

GUS DUPREE METS HIS DEATH.

Knocked fgrom Freight Train by a Fast PaPssenger.

Rockmart, Ga., August 4.—(Special.)—Augustus Dupree, of Powder Springs, flagman on the fast freight coming south over the Southern railway from Chattanooga to Atlanta, was knocked off a car by the northbound passenger train, near this city, and died at Chattanooga as the result of the fall.

It is said he was struck by the mail catch.

No Aid for Tribal Schools.

Washington, August 4.—Acting Secretary of the Interior Ryan has decided that applications for the maintenance of Indian tribal schools in Indian Territory must cease March 4 next, when tribal government of the five civilized tribes ceases. The decision is announced in a letter to the commissioner of Indian affairs in response to a letter from that office asking to be advised as to the length of time for which contracts should be made with Choctaw boarding school superintendents.

Jews To See Witte.

New York, August 4.—Improving the opportunity offered by the presence in this city of Sergius Witte, the Russian peace envoy, a delegation of the most prominent Jews in the country met today to bring before Mr. Witte the question of the better treatment of Jews. The delegation is headed by Adolph Kraus, of Chicago, president of the committee of the Independent Order of B'nai B'rith, who came to this city with Baron Von Schlippenbach, the Russian consul at Chicago.

state, Judge Wright's charge and to await the verdict of the jury.

Judge Wright's charge as to the law of the case is regarded as a very able effort by lawyers, and it is thought that its lucidity had some effect in delaying the verdict of the jury.

Mrs. Sanford is bearing up well under the strain and still seems confident of the outcome of the case.

Sensational Move by Mrs. Sanford.

One of the sensations of the day was an announcement by Mrs. Sanford that Colonel Copeland, who prepared her petition for divorce, and is also aiding in prosecuting her husband, would no longer act as her counsel, but hereafter Colonel Dean, who is defending her husband, would act as her attorney. Mrs. Sanford's decision in the matter and her reason therefor were made public by Mr. Jordan H. Sanford, brother of her husband. Of course this action by Mrs. Sanford gave rise to a lot of rumors as to the future relations of herself and Mr Sanford, but it was impossible to verify any of the gossip.

At the hour of noon the court announced that the sheriff would take the jury under a strong escort of bailiffs to dinner, returning them as promptly as possible to the jury room.

"I am going to dinner," stated Judge Wright, "but if the jury should reach a conclusion before I return have me sent for. Mr. Sheriff, and I will come instantly and receive it. So notify counsel."

Colonel Copeland's Argument.

Court opened this morning at 8 o'clock in the Sanford murder case, with a large crowd in attendance.

Colonel Copeland, of the state, immediately began the delivery of his argument, which was the sixth and last to be made in the case.

Mr. Sanford and his counsel entered the court room promptly.

It was privately announced to Juror Brandon that his mother was much better.

As Colonel Copeland progressed the crowds became larger, and before 8:30 o'clock many persons were standing. The argument was eloquent and impressive, and a magnificent effort. Colonel Copeland spoke for two hours, concluding at 10 o'clock.

The gun with which Wright was killed, the clothes worn by the victim, photographs, map and other evidence admitted, including the indictment for murder, were tendered to the jury.

Sanford's Friends Present.

During the wait for the return of the jury many congregated around the defendant and warmly grasped his hands. Among those who were with him watching for the verdict was his life-long friend, Judge George C. Thoams, of Athens, who made a brilliant and eloquent speech last night for the defense.

Judge Thomas came voluntarily to Rome to defend his friend, declining any fee or expense account.

Hon. R. E. Davidson, of Greene county, former member of the legislature, was in the court room, as Mr. Sanford's friend and adviser.

Judge O. E. Fluker, of Greene; Mr. Plea Fluker, his brother; Mr. Frank Gillan, from Oglethorpe county; Howard Hurt and many others came from a distance.

During the wait Judge Wright remained on the bench and the crowd refused to leave the court room, fearing they might miss the reading of the verdict.

Surveying New Railroad.

Carrollton, Ga., August 4.—(Special.)—Work of surveying the Central of Georgia railroad from Carrollton towards Bowden and out through Cleburne and Randolph counties, Ala., was begun today under the supervision of the regular surveying corps, headed by Mr. Shipley. They hope to have this line completed by February, 1906. It will open up a good section of country untraversed by railways. The town of Bowdon, which has been so long secluded and deprived of a railroad, may soon be placed in connection with Carrollton.

Papers Served on Directors.

New York, August 4.—Forty-nine directors of the Equitable Life Assurance society were served with papers today notifying them of the suit brought by Attorney General Mayer on behalf of the state of New York to recover funds of the society which may have been diverted from their proper course. Among those served were Gage E. Tarbell, second vice president of the society; George T. Wilson, third vice president, and Henry Rogers Winthrop, financial manager. William Alexander, secretary of the society, accepted service for all concerned.

Chinese Win Half Million.

Victoria, B. C., August 4.—A cable from London says the privy council has sustained the Chinese government in its libel action for $450,000 against the Canadian Pacific railway for the loss of the Chinese warship Hiang Tai, which was sunk by the steamer Empress of India about two years ago off the Chinese coast

New Treaty Completed.

Paris, August 4.—The French and Russian governments have settled the terms of the new treaty of commerce by which France agrees not to increase the existing duties affecting Russian articles and also not to tax merchandise now entering free, while Russia modifies the duties on French wines, spirits, perfumes and numerous agricultural and commercial products.

Inspectors on Trains.

Florence, Ala., August 4.—At a special meeting of the city council today the local board of health was instructed to put inspectors on all trains entering Florence to prevent persons from yellow fever infected points from stopping here.

No Fever in Honduras.

Mobile, Ala., August 4.—The steamer Belize, which arrived here this afternoon from Belize, Honduras, announced that yellow fever has been stamped out there after a hard battle. The last patient to have the disease died there four weeks ago.

A Sign

of poor blood circulation is shortness of breath after walking, going up stairs, sweeping, singing, excitement, anger, fright, etc. Poor blood circulation means a sick heart, and a sick heart is a result of weak and impoverished nerves.

Every one knows the results of poor blood circulation, but everybody does not know that the quickest and safest treatment is Dr. Miles' New Heart Cure.

If you find these symptoms present, you should not neglect them, but at once procure a bottle of

Dr. Miles' New Heart Cure

It will cure, and at a very little expense compared with doctors' bills. We are so sure of it, that if first bottle does not benefit, your druggist will return your money. It will do for you what it has done for thousands in like condition.

SUNSTROKE AND HOT WEATHER [illegible]

CHARGE OF JUDGE WRIGHT IN THE CASE OF SANFORD

ROME, GA., August 4.—(Special.)—The charge of Judge Wright to the Sanford case is considered by lawyers to be one of the ablest ever delivered here. The charge in full follows:

"The grand jury at the July term, 1905, of this court, found and returned a true bill of indictment charging V. T. Sanford with the offense of murder, specifying that on the 19th day of July, 1905, he, with a certain shotgun, unlawfully, feloniously and wilfully and of his malice aforethinght, did shoot and kill one George Wright.

"The defendant enters his plea of not guilty to this charge, and upon the issue involved under this plea to the indictment you are to render a verdict in this case.

"The fact that the grand jury has returned this bill of indictment raises no presumption of guilt, the indictment is simply the means of putting the defendant on trial.

"The defendant enters the trial of this case presumed to be innocent of any crime and that presumption goes with him and remains with him and entitles him to an acquittal at your hands, unless the evidence has legally and satisfactorily established his guilt. The burden of establishing his guilt is upon the state.

The Question of Doubt.

"It is not incumbent that the state establish his guilt to an absolute certainty, but it is incumbent that the state establish his guilt to a moral and reasonable certainty and beyond a reasonable doubt. This does not mean all uncertainty, nor does it mean any vague, uncertain or conjectural doubt. It means a doubt which rationally arises out of the evidence. If you have such a doubt, it is your duty to acquit him, but if you are satisfied to the degree of certainty I have explained, you ought to convict the defendant of that offense of which you think he is guilty.

"If you have a doubt in this case, gentlemen of the jury, as to whether under the law that I shall give you in this charge, the defendant is guilty of the higher crime of murder or of the lesser crime of voluntary manslaughter, it will still be your duty to give him the benefit of that doubt and find him guilty of the lesser crime.

"The defendant, as he has a right to do, has made to you a statement, not under oath. It is to have just such force as you think right to give it. You may believe it in preference to the sworn testimony in the case. If you do not so believe it, you may reject it entirely, or believe in part or reject it in part. Give it just such weight as you think it ought to have in the trial of this case.

Either of Four Verdicts Possible.

"Now, gentlemen, in this case you will find one of four verdicts: Either find the defendant guilty of murder, or guilty of murder with recommendation that he be imprisoned in the penitentiary for life, or guilty of manslaughter, or not guilty.

"I will now give you the law as to these grades of homicide. Murder, says the law, is the unlawful killing of a human being in the peace of the state by a person of sound memory and discretion with malice aforethought, either express or implied. Express malice is that deliberate intention, unlawfully to take away the life of a fellow creature, which is manifested by external circumstances capable of proof. Implied malice is that which arises where no considerable provocation appears, but where all the circumstances of the killing show an abandoned and malignant heart. Malice, gntelemen, is simply the deliberate intention unlawfully to take human life, no matter what is springs from, whether anger or hatred or any other motive.

"When the intention to unlawfully take human life is formed and acted upon, then that is malice within the meaning of the law of murder. Now, without malice there can be no murder, but the offense may be that of voluntary manslaughter.

Voluntary Manslaughter.

"Voluntary manslaughter is the unlawful killing of a human being without malice, either express or implied, and without any mixture of deliberation whatever, upon a sudden heat of passion, but in all cases of voluntary manslaughter there must be some actual assault upon the person killing or an attempt by the person killed to commit a serious personal injury on the person killing, or other equivalent circumstances to justify the excitement of passion and to exclude all idea of deliberation or malice either express or implied.

"The killing to be voluntary manslaughter must be the result of that sudden, violent impulse of passion which is supposed to be irresistible, for if there should have been an interval between the assault or provocation given and the homicide sufficient for the voice of reason and humanity to be heard, of which the jury in every case shall be the judges, the killing shall be attributed to deliberate revenge and punished as for murder.

As to Circumstances.

"You will observe from this definition that to reduce the crime from murder to manslaughter, if there be no actual assault nor any attempt to commit a personal injury upon the person who did the killing by the person who was killed, you may still look and see whether there were other equivalent circumstances such as to justify the excitement of passion and to exclude all idea of deliberation or malice either express or implied. If such equivalent circumstances existed, and if they excited this passion which is supposed to be irresistible and the defendant acted under those passions and not in a spirit of revenge, he would not be guilty of murder, but he would be guilty of voluntary manslaughter.

"But, gentlemen, to reduce from murder to voluntary manslaughter, the killing must be the result of that sudden violent impulse of passion supposed to be irresistible, for if there should have been an interval between the provocation and the homicide sufficient for the voice of reason to be heard, of which the jury in every case shall be the judges, the killing shall be attributed to deliberate revenge and punished as murder.

Was He Swayed by Passion?

"Now, in applying the law of voluntary manslaughter to the facts of this case, if you do apply it, you may look to all the evidence to see what equivalent circumstances there were, if any, in this case, such as might or did generate this violent impulse of passion supposed to be irresistible to that end. You will look to any and all evidence, if there is such evidence, showing improper relations, or any act or acts of intercourse between the deceased Wright and the wife of Sanford, which facts were made known to the defendant, Sanford, prior to the time of the killing. You may then look and see whether such acts or conduct on the part of Wright to the wife of the defendant, Sanford, were such other equivalent circumstances, as I have just explained to you as would and did generate in the mind of Sanford that sudden violent impulse of passion supposed to be irresistible. See, then, whether he acted under such violent impulse of passion, and if you find that these things concur and that Sanford killed Wright under the influence of this passion, and not in a spirit of revenge, he would be guilty of voluntary manslaughter, and not of murder.

"Upon the contrary, gentlemen, if you believe that Sanford killed Wright because of past acts of undue intimacy with his wife, not in his presence, that he killed to avenge this past wrong, that he laid his plans to kill Wright, and premeditated the killing, he would not be guilty of voluntary manslaughter, but would be guilty of murder.

The Prosecution's Contention.

"It is contended by the prosecution in this case that if there was any intimacy between the defendant's wife and the deceased, that if there had been a seduction of the wife of the defendant by the deceased, that the same was not done in the presence of Sanford at the time of the killing, that the act was not just over with, nor about to begin, nor in progress at the time of the killing, but that it happened some time prior to the killing, if it happened at all, and that at the time ofthe killing the wife of defendant was some hundred miles away from the scene of the killing, and that for this reason the act could not have been done to prevent an act of intimacy then in progress nor on account of intimacy in the presence of the defendant, of the defendant's wife and the deceased. If you find these contentions, gentlemen, to be true, Sanford could not be justified in killing Wright.

When the Husband May Kill.

"The husband may kill to prevent intimacy with his wife, but this act of intimacy for which he may kill must be one actually in progress or just about to begin or just over with, and in the presence of the defendant at the time of the killing.

"One can never be justified for taking the life of another on account of past intimacy with his wife, however grievous the wrong done may be. Neither can he kill to prevent a repetition of past intimacy at some time in the future, unless, as I stated to you, intimacy is them in progress or just over with or about to begin in presence of the defendant.

"If at the time of the killing the deceased and the wife of the defendant were at such distance one from the other that it was impossible for an act of intimacy to have been in progress at the time of the killing, the defendant would not be justifiable in taking the life of the deceased, but would be guilty either of voluntary manslaughter or of murder, under the law which I have just explained to you.

"And this would be true, gentlemen, even though the wife of the defendant prior to her relations with Wright was a virtuous woman and faithful wife.

Apply Law to Facts.

"Now, gentlemen of the jury, I have given you the law of this case. You are the judges in every criminal case of the law and of the facts in this way: You get the law of which you judge from the court, and the facts from the witnesses on the stand. Apply the one to the other, and make up your verdict. What the facts in this case are, I intimate to you no opinion; but, gentlemen, the law of this case I am responsible for. It is my duty to instruct the jury properly as to the legal principles applicable to this case, and you are bound to take the law of this case from me, just as I am bound to absolutely refrain from suggesting or intimating any opinion at all about the evidence. The one is your domain and the other is mine.

"You have nothing to do with the question of the custom of the law which the court gives you nor of the results of its application. It is your duty simply to apply the law as the court gives it to you in charge and then fearlessly, honestly and impartially render a verdict which will speak the truth of this issue."

The judge then directed the jury as to the manner of their verdict and the jury retired at 10:15 o'clock.

DEATH OF MRS. CARLISLE.

Wife of Former Secretary of Treasury Dies on Long Island.

Babylon, L. I., August 4.—Mrs. Mary J Carlisle, wife of former Secretary of the Treasury John G. Carlisle, died today at her country home in West Islip, after an illness of three weeks. She came here two months ago to spend the summer. She was not in the best of health then, and about three weeks ago peritonitis developed. With her when she died were her husband, her daughter in law, Mrs. William Carlisle, and her friend, Miss Hammond.

The funeral will be held on Sunday, and the body will be placed in a vault in the Babylon cemetery until fall, when it will be removed to Covington, Ky., for burial. Mrs. Carlisle, who was 70 years old, was a daughter of Major John A. Goodson, of Covington.

Edwin F. Daniels, Chicago.

Chicago, Augus t4.—Edwin F. Daniels, president of the coal company bearing hi sname, died suddenly at his residence last night as the result of an accident. Mr. Daniels was a member of the Employers' association during the teamsters' strike. He was 57 years old.

Mrs. M. M. McCory, Ellaville, Ga.

Columbus, Ga., August 4.—(Special.)—Mrs. M. M. McCrory, mother of Judge William H McCrory, of Columbus, died lact night at Ellaville, Ga. She was 79 years of age. Besides Judge McCrory, two other sons, Judge J. Lee McCrory, of DeLand, Fla., and C. R. McCrory, of Ellaville, survive her.

T. T. Killman, Birmingham, Ala.

Birmingham, Ala., August 4.—T. T. Hillman, probably the wealthiest man in Birmingham and one of the most prominent pioneers in the Birmingham district, died today at Atlantic City, N. J., at the age of 64. Mr. Hillman had been in poor health for several months.

Gardner Bested Rufe Turner.

Colma, Cal., August 4.—The scheduled 25-round contest between Jimmy Gardner and Rufe Turner was won by Gardner tonight in the first 3 seconds of the eleventh round when he knocked Turner out with a terrific right to the body. There was much roughing all through the ten rounds.

Grand Jury Takes Recess.

Washington, August 4.—The grand jury engaged in investigating the statistical bureau of the department of agriculture today took a recess until August 15, when the inquiry will be resumed.

order that all employees might take a hand in the general cleaning movement that has been inaugurated. Merchants are to be asked to furnish their carts and floats to assist in carrying away refuse. A thousand carts will be required in the work. A special appeal is to be addressed to householders to cooperate in the sanitary campaign by the thorough cleaning of their back yards. The mayor decided to borrow an additional $10,000 from the financial agents to assist in the work.

Hunt for Hidden Cases.

The marine hospital officers and the medical inspectors continued their search for concealed cases in the infected area and elsewhere today, and turned up a number of them. Today the board of health instituted a new rule, requiring its inspectors to make prompt report of cases. To that order was due the fact that twenty cases had been announced early in the afternoon as occurring during the day. Yesterday the 3 o'clock report was of 7 cases and two deaths. The announcement at 6 o'clock that there were 54 cases and 5 deaths, due to the fact that the inspectors reported their cases in bunches late in the evening, had a most disquieting effect on the public, which had been led to believe that the situation was improving.

Hundreds of people are temporarily moving out of New Orleans into St. Tammany parish and all the hotels in Abita and Covington and the farm and boarding houses for miles around are filling up with summer boarders. St. Tammany is practically the only nearby haven to which local people can go. The parish has refused to put on a quarantine and has opened the doors to all refugees. That is due to the fact that yellow fever has never developed there even in the most serious epidemics here. Cases have been taken to that parish, but whether the patient died or recovered, there has never been any extension of the infection. The reason for the immunity of St. Tammany was never known until now. It is that the stegomyia has never existed there. The report yesterday that there was a suspicious case at Abita caused the health authorities to send Dr. Brady to that point. Dr. Brady returned today saying there was no illness at all at Abita or Covington.

Dr. Farrar Richardson with a force of men today went into the red light district and made a thorough inspection of it. It was thought that the district might be infected and cases be concealed. Not a suspicious case of fever was discovered. Because of the rigidity of the quarantines instituted by Texas and some of the parishes in Louisiana the Southern Pacific has been badly crippled in handling business out of New Orleans. It has had to suspend passenger traffic and it has also been forced to refuse considerable of the freight offered to it. Traffic Manager Fay, however, issued an announcement today that beginning on Saturday the road would again receive freight for Texas points.

Dr. Warner continues to receive tenders of services for nurses in various parts of the country. Rev. Russell J. Wilbur, an Episcopal minister of Chicago, was among those who volunteered today. Dr. Warner is keeping a record of all such offers. No need now exists for outside help, there being an adequate supply of physicians and nurses and ample funds, but of course only providence knows whether such a need will exist in the future.

Local business houses are feeling the effect of the quarantines. There has been a reduction in business and trade is quiet. Numbers of the houses are taking advantage of the opportunity to give vacations to their employees.

Refugees Crowd Nashville.

Nashville, July 4.—Travel from the south is unusually heavy for this season of the year, caused by the presence of yellow fever in that section. The hotels in this city are fast filling with refugees, and the summer resorts throughout Tennessee in some instances are compelled, for lack of accommodations, to turn away people who have fled from the yellow scourge.

All Trains Still Running.

Memphis, August 4.—The local Illinois Central officials here report that, although the quarantine regulations are extremely strict, there has as yet been no curtailment in its train service on this account, all trains running as far south as Haralson, a point this side of New Orleans, passengers and crews changing cars in both directions. Up to the present time there has been no clash with the quarantine authorities.

Quarantine Is Enforced.

Columbus, Ga., August 4.—(Special.)—Columbus' quarantine against the state of Louisiana went into full effect today. Officers took affidavits from the passengers of all incoming trains as to where they had spent the previous thirty days. So far, it has not been found necessary to send a single passenger on through, as all persons on today's trains made the necessary affidavits and supported them in many instances with health certificates.

Stopped Quarantine Officer.

Selma, Ala., August 4.—Quarantine Officer C. M. Philen, on the Louisville and Nashville, between that city and Pensacola, was not allowed to go any further on that train than Snow Hill, just on the county line. The conductors acted on instructions from the trainmaster. Philen telegraphed the county health officer, Gay, and the latter wired a sharp message of inquiry to the trainmaster, to which no reply has yet been received.

Charleston Tightens Lines.

Charleston, S. C., August 4.—Mayor Rhett has proclaimed a quarantine against yellow fever points to take effect Sunday, August 6. No passengers will be permitted to enter the city unless they can establish beyond question that they have been cut of the infected district for ten days. Inspectors have been detailed at all junction points to examine trains.

Macon Will Not Quarantine.

Macon, Ga., August 4.—(Special.)—Mayor Smith and Dr. R. B. Baron, chairman of the board of health here, state today that it would hardly be necessary for Macon to take any precaution against yellow fever, and the health officers will have no extra duties other than giving health certificates to those who travel from here. The health report for the month just closed shows Macon in an excellent state of health.

Padgett Bound Over.

Macon, Ga., August 4.—(Special.)—J. T. Padgett, a white man, was bound over to the city court by Recorder Nottingham this morning under bond of $150 on two charges, one of shooting on a train and another for carrying concealed weapons. He was a member of a party of excursionists who came to Macon yesterday and was locked up by the police. He will have a hearing before Judge Hodges in the city court.

COTTON ATTACKED BY NEW INSECT

Pest Resembles Doodle and and Is New Specimen.

In Parts of Carroll County Great Swarms of Small, White Insects Are Seen Flying Over the Fields—They Are Unknown Variety.

Carrollton, Ga., August 4.—(Special.)—Reports brought in from the district of Plowshare, a very prosperous farming district, today, are to the effect that a small insect, much resembling the "doodle," has attacked the cotton and whole fields are being ravaged.

The insect bores into the young boll near the stem, and the boll drops off. There are a number of fields that promised a bale to the acre before this insect began its destructive work that at present show no prospect of a yield. The insect is spreading from one field to another at a rapid rate and the cotton of this whole section may be ruined. This insect has never been seen before by anybdoy in the community.

Great swarms of small white insects may be seen flying over the fields, such as have never been seen before, and it is porbable that these cotton boring insects are larvae from this insect. The people of this community are much alarmed over the outlook for the cotton at present.

What is called in this section the "root bug" is making its appearance in some localities and doing much damage. The cotton crops of this section have never been known to suffer from any form of pest before.

WANT TELEPHONES IN ALL DISTRICTS

New Measure Will Greatly Extend 'Phone Operations.

Callahan Seeks To Have Law Passed Allowing the Telephone Companies To Condemn Right of Way as the Telegraph Companies Now Do.

Bainbridge, Ga., August 4.—(Special.)—Proprietor J. W. Callahan, of the local telephone exchange, has just returned to the city from Atlanta where he went for the purpose of having a bill introduced in the legislature which will be of value to telephone line owners throughout the state.

Mr. Callahan seeks to have the law concerning telegraph companies amended so as to give telephone companies the same right to condemn rights of ways and to cross property that the telegraph companies have.

If the bill passes it is the purpose of Mr. Callahan, who is a man of means, to establish a telephone station in every militia district in this and other adjacent counties. As the law now stands, telephone companies have no right to erect poles, or establish rights of way through any property whose owners object to same. Mr. Callahan believes that the measure he advocates will become a law, receiving assurances to that effect when in the capital city

Bainbridge Has Quarantine.

Bainbridge, Ga., August 4.—(Special.)—Bainbridge now has an effective quarantine working against all cities in the yellow fever belt. The mayor and council have also notified all property owners that their premises must be put in thorough sanitary condition by the 5th of the month, or the owners will be subject to a $50 fine. All weeds are being cut, low places filled, and all scattering tin cans or other utensils which might catch and hold stagnant water are being collected and hauled of by the city carts. Bainbridge had an epidemic of yellow fever in 1873 which practically depopulated the town and resulted in over a score of deaths. The city will run no risk of a recurrence of this dread epidemic.

Wilmington Quarantines.

Wilmington, N. C., August 4.—By direction of the board of health the mayor issued a proclamation today declaring a rigid quarantine against New Orleans, and all other places in the state of Louisiana or any other state where yellow fever now prevails or may hereafter prevail or be suspected of prevailing. Officers have been sent to Florence, S. C., Goldsboro, Fayetteville and Hamlet, N. C., to enforce the quarantine. No persons or baggage from the infected districts will be permitted to enter the city until after detention of fifteen days or less as circumstances may dictate.

Names of cities furnished the officers against which special precautions are to be taken are New Orleans, Shreveport, Mobile and Atlanta.

Predicts Fever's Extinction.

Tampa, Fla., August 4.—Dr. John Guiteras, head of the Cuban sanitary department, who arrived here last night, looked over the situation here today and expressed great satisfaction at the decidedly favorable conditions existing with regard to the yellow fever. He states that the case of Victor Vitcloo has been admirably handled, and that every precaution has been taken to prevent the spread of the disease beyond this one patient.

Dr. Guiteras is a firm believer in the mosquito theory of yellow fever infection, which, he says, has been proved in Cuba. Dr. Guiteras states that the people have only to be educated up to the fact that the mosquito is the only means of he spread of the disease, when it can be eradicated. He predicts that in five years, yellow fever will cease to exist in the southern states or elsewhere to any extent.

Man Rode on Top of Safes to Tenth Floor.

(From The St. Louis Republic.)

A crowd stood on Seventh street near Olive, their gaze directed toward the upper stories of the Holland building. Soon the street was blockaded with people who were looking up toward the tenth floor. At the focus of their vision a man was riding a large safe, which was being hoisted to one of the offices.

As the safe disappeared into a window the audience below went on about their business.

Three times Monday this gathering of the curious took place, as three safes were hoisted nearly to the top of the building and taken in through a window. Few knew what was in the safes and fewer knew who was on top, but they stood on each other's toes and craned their necks to see it all.

Saturday these safes were taken out of a window on the seventh floor of the Commercial building and were left standing in the Holland building alley until Monday morning. Seventy-two thousand dollars' worth of bonds reposed in one of the safes, but that did not arouse much interest.

Louis Vollmar was the pilot, and his duty was to keep the safes from getting against the window ledges. Wheneyer he would have unusual trouble getting past a ledge he said he would look at the crowd in the street below and wonder who was having the harder time, he or they.

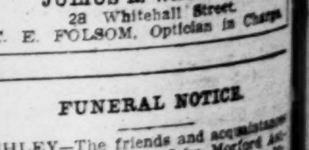

It required an hour each to get the safes from the ground up to the tenth floor window and then into the office.

RUSS GARRISON HAS SURRENDERED

Japs Now in Complete Charge of Shakalin.

Over Three Thousand Men with All Arms and Other Property of Russian Government Were Turned Over to Invaders.

Tokio, August 4.—Noon.—A report giving details of the final pursuit and surrender of the majority of the Russian garrison on Sakhalin island has been received, as follows:

"An independent cavalry column on the afternoon of July 28 attacked the enemy south of Palco and routed him, driving him southward, capturing two field guns, besides a number of rifles and a quantity of ammunition.

"On July 29 the cavalry, being reinforced, vigorously pursued the enemy south of Taylan, which lies 25 miles south of Rykoff. The enemy halted at Onoi, 25 miles south of Taylan, and at 6 o'clock on the morning of July 30 sent a letter under a flag of truce to the Japanese commanding officer from General Liapnoff, the Russian governor, saying that the lack of bandage material and medicines and the consequent inability to succor the wounded compelled him, from a sense of fhumanity, to terminate hostilities.

"The commander of the Japanese forces replied, demanding the delivery of all war supplies and property of the Russian government, the uninjured and the delivery of all maps, records and papers relating to the Russian civil and military administration, and requiring their delivery in reply at 11 o'clock the morning of July 31, otherwise an attacking movement would immediately be started.

"Colonel Tolivitch, on behalf of Governor Liapnoff, met Colonel Kolzumi, Japanese chief of staff, on the morning of July 31 and accepted the proposed terms.

"Governor Liapnoff, seventy officers and 3,200 men of the Russian garrison then surrendered.

"The spoils consisted of clothing, papers and military supplies and are now under investigation."

WILSON REMAINS TO FIGHT GRAFT

Secretary Gives Up His Annual Vacation.

Declares He Is Now in the Investigating Business, and That Those Who Have Charges To Make Should Prefer Them at Once.

Washington, August 4.—Secretary Wilson has determined not to take his annual vacation during the progress of the investigation he is conducting in the department of agriculture. He had intended to leave Washington on August 1 to accompany Chief Forester Gifford Pinchot on a tour of the western forest reserves. This work will now be left to Mr. Pinchot.

"If any person has any reason to suspect the integrity of any of my employees now is the time for him to speak," said the secretary today. "I am in the inspecting business now and want to get at the bottom of any rumors or facts that may be brought to the department. I am making inquiries on my own hook, but at the same time I will bring the searchlight to bear on any employees whose actions may be the subject of the suspicions of outsiders. Let them bring in their hints of wrongdoing and we will find out whether there is foundation for them."

Mrs. John Hyde, wife of the former chief of the bureau of statistics, who is now in Europe, visited the department today in an effort to collect the salary that is due to her husband. She was told that the bureau was under investigation by the department of justice and the amount due her husband would have to be withheld until this investigation had been concluded. No word has been received from Mr. Hyde since his cablegram to Secretary Wilson saying he would return from Europe as "soon as possible." Mrs. Hyde has learned that her husband is suffering with new carbuncles.

He had trouble of this character when he left the United States.

Tried To Dynamite Ship.

San Francisco, August 4.—An attempt to blow up a ship in mid-ocean has been reported by Captain C. Tousee, of the French ship Asnieres, which has arrived here from Swansea, England, loaded with coal. He left that port in January last and six weeks later, when far out at sea, a dozen capped fuses, such as are used by miners to explode charges of dynamite, were discovered in the hold of the ship among the coal. Had one of the fuses become ignited by a shock in a part of the hold where coal gas had accumulated, the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas and consequently no damage was done. The presence of the fuses among the coal was discovered only by accident, when during some dough weather men were sent down into the hold to level the coal and found them. The Asnieres belonged to the Societe Anonynome des Longs Corriers Aracas, of Paris.

TO VALUE LAND OF EQUITABLE

Two Real Estate Experts Named by Paul Morton.

New York, August 4.—Two experts have been appointed by President Paul Morton to value every piece of real estate in which the Equitable Life Assurance Society has an interest. He is stated to have taken this action yesterday when he received the reports of expert accountants. These reports, it is said, indicate the possibility of extensive overvaluation. The society owns in this country and abroad real estate valued at approximately $36,000,000. According to The Tribune, it is thought possible that this amount will have to be reduced, while the valuation on parcels on which loans are outstanding may have to be reduced by at least 10 per cent. The last report to the state insurance department gave the value of real estate owned by the society at $36,895,647. Of this sum buildings occupied by the society in New York, Boston, St. Louis, Des Moines, Denver, Memphis and in Paris, France, Madrid, Spain, Vienna, Austria, Berlin, Prussia, Santiago, Chile, City of Mexico; Sydney N. S. W., and Melbourne, Australia, are stated to be worth $31,573,150, while buildings in New York city, Jersey City, Milford, N. Y.; West Orange, Piscatawa, Bayonne and Bergen Point, N. J., are valued at over $5,500,000.

MANY PRIZES ARE AWARDED.

Auburn's Agricultural Contest Proves a Great Success.

Auburn, Ala., August 4.—(Special.)—In order to promote the interest in the raising of agriculturral products and in cultivation of accurate knowledge and scientific appreciation of judging stock, chickens, corn, etc., the college offered a number of valuable prizes at the recent meeting of the farmers' summer school. These prizes were competed for by gentlemen from all over the state, and the interest was marked. There were fifteen competitors for the best ten ears of corn and the splendid specimens of this staple product showed the fine possibilities of the state along this line. The following were the awards of prizes:

For the best ten ears of corn, first prize, J. H. Cooper, Opelika, Ala.; second prize, G. N. Dennis, Clanton, Ala.; third prize, T. J. Little and son, Auburn, Ala.; for the best average in scoring chickens, first prize, Leon Hoffman, Waverly, Ala.; second prize, H. F. McElderry, Talladega, Ala.; third prize, N. C. Rew, Talladega, Ala.; for judging dairy and beef cattle, first prize, R. B. Dixon, Livingston, Ala.; second prize, P. W. Hudson, Auburn, Ala.; third prize, J. N. Dennis, Clanton, Ala.

State Examiner Judge W. T. Wilkinson has finished his examination of the college books and it is understood that everything was correct and the books and accounts in excellent shape.

The college is just in receipt of a grand prize from the jury of awards of the St. Louis exposition for its specimens of cotton illustrating breeding experiments.

GRANDSON OF LORD MAYOR.

Exton Thrown Into Jail for Striking a Woman.

New York, August 4.—Brudenew Exton, who asserts that his grandfather was lord mayor of London, is a prisoner in the Tenderloin police station under a charge of disorderly conduct.

Exton, who also claims to be an insurance broker, is said by witnesses to have knocked down a woman in front of a Broadway hotel conversing with an acquaintance. Exton stumbled against the woman by accident, but she screamed loudly for help, and half a dozen jumped upon the unfortunate broker at once.

He was beaten to the sidewalk, and in a moment half a hundred loungers were attempting to strike him. A policeman beat his way through the crowd and rescued Exton from serious injury. He was hustled away, and during the excitement the woman disappeared with her little daughter, by whom she was accompanied.

HEIR TO THRONE FALLS IN DEATH

Son of Late Princess of the Asturias Dead.

San Sebastian, August 4.—The Infante Marie Alfonso, son of the late princess of the Asturias, sister of King Alfonso, and heir presumptive to the throne, died this morning of meningitis. He was born February 28, 1903. The infant's father, Prince Charles of Bourbon, will be married in November to Princess Mariate Teresa, his deceased wife's sister.

BARRETT PROBES BOYCOTT.

New Minister To Colombia Making Investigations in Frisco.

San Francisco, August 4.—John Barrett, the newly appointed minister to Colombia, is here in connection with the commercial relations existing between the United States and China, particularly as regards the boycott inaugurated in the Chinese guilds against American products.

He insists, however, that his mission is not of any official character, but simply to acquaint himself with the feeling of the coast as to the boycott and interview some of the merchants who engaged in the trade.

Minister Barrett, while conceding that the Chinese guilds are all powerful in the country, is of the opinion that the present alarm shown by the people of this country over the action of the Chinese is unnecessarily exaggerated. He firmly believes that whatever grievances the Chinese guilds have will soon be dispelled when they are made to realize that our government is disposed to act fairly with them in the matter of immigration.

He is also of the opinion that our future policy as regards the Orient will depend much upon the results of the peace conference than the reports of the Japanese and Russia, and predicts that the next two years will witness a great change in the policy of the United States. Such a change will be attended with a noticeable improvement of our commercial relations in the Far East.

ALLEGED SWINDLER HELD.

Claimed That Roberts Was Expert Money Order Raiser.

Chicago, August 4.—Charged with swindling mberchants in twenty-one cities out of thousands of dollars, Norman E. Roberts, alleged money order raiser and forger, was arrested last night at a substation. Roberts said he was a sales man until a few months ago. He is 27 years old and comes from New York, but has a wife living in Baltimore.

Roberts' method has not differed from that of several other swindlers, including one woman, who have been sent to the penitentiary from Chicago within the last three years. The forger buys a money order at a substation, usuany for 25 cents, and payable to some other person. Then all the writing is erased with chemicals and the blanks are filled out for any amount under $100. In Chicago the signature of Postmaster Coyne was forged.

The raised order then is offered by the swindler to some business house in exchange for a small purchase, and the remainder which the forger receives representes the amount of his dishonest gain.

Roberts' itinerary included New York, Boston, Providence, Pawtucket, Woonsocket, R. I.; New London, Conn.; Baltimore, Philadelphia, Harrisburg, Pa.; York Po.; Norfolk and Richmond, Va.; Cincinnati and Dayton, Ohio; Indianapolis, Chicago and Milwaukee.

Whitelaw Reid Entertains.

London, August 4.—Whitelaw Reid, the American ambassador, entertained at luncheon today a number of his American friends who are visiting London. The guests included Congressman Charles E. Littlefield, of Maine; Congressman James B. Perkins, of Rochester, N. Y.; Justice Gildersleeve, of the New York court; Postmaster William B. Wilcox, of New York, and Mrs. Wilcox; Charles H. Boynton, of New York; Mr. and Mrs. Jordan, of San Francisco; Robert J. Wynne, the American consul general; Professor Wilcox, Professor Hurlbut and Professor Hull, of Cornell university; Mr. and Mrs. Haldeman, of Louisville, and Sir Casper Purdon Clarke, director of the Metropolitan museum of New York, and Lady Clarke.

Priest Hammered Magnate.

Pittsburg, August 4.—The charge of assault and battery preferred by Barney Dreyfuss, president of the Pittsburg baseball club, against Thomas J. Ward, said to be a student for the priesthood, from Minneapolis, Minn., who assaulted Dreyfuss in his private box during the game yesterday at Exposition park, was withdrawn today by Mr. Dreyfuss. Previous to the hearing the defendant, who was introduced to President Dreyfuss as Father Walsh, apologized for his conduct, and the suit was then withdrawn.

JELKS TO REMAIN AT POST OF DUTY

Alabama's Governor Will Not Leave Capital City.

Declares He Will Stay in Montgomery and Look After the Situation as Long as There Is a Fever Case There or in the Vicinity.

Montgomery, Ala., August 4.—Governor William D. Jelks, who has arrived from Blount Springs, was in his office all day and had a number of callers from all parts of the state. Though there is a quarantine on by some of the south Alabama places there were men in the city today from several of them. When seen the governor expressed the greastest confidence that Montgomery will not have another case of the very troublesome yellow jack.

"I will be here as long as there is a case of fever in the city or near it," said the governor. "I am interested and will be watchful of the whole state and the people may feel assured that I will let them know as soon as conditions come up that may menace their health or other interests. It has been my intention from the first to come back to my office if a case of fever should develop here, and I did, reaching here as quickly as I could after hearing of it at Blount Springs."

"I am very sorry that Birmingham has put the ban of quarantine upon us and hope it will be raised before many days, which I think will be the case," continued the governor. "Birmingham can bring about a great deal of inconvenience by shutting its doors against us. I am, on the other hand, pleased to note that Mobile and Selma have not seen fit to inaugurate the inhibition."

War on Mosquitoes

Governor Jelks has been engaged in a war on the mosquito tribe for some time and was today taking much stock in the condition of the capitol grounds. He took a trip over the premises and had a negro put a lot of kerosene upon the low places and has had the whole place, house and grounds, put in the best of sanitary condition.

A rather amusing thing occurred two or three days ago along this line. One of the city health officers came up to the capitol and asked what was needed, if anything, to put the place in good condition. "I would suggest," he said, in an apologetic sort of way, like a man who has said a thing so often he is tired of hearing it conveyed on his own voice, "that you put some kerosene on the low places." Private Secretary Jackson surprised him by saying that the governor had had that very thing done four weeks ago and that every hole and low place on the hill had been Rockefellered to a queen's taste.

The fight has been renewed, however, and the grounds will be raked and sprinkled again so that not one of the long bills may be able to find where to lay his head or audience to hear his sympathetic lay.

Sore on Birmingham.

Montgomery took the quarantine of Birmingham more to heart than anything that has come of the finding of one mild case of yellow boy in the city. Magic City has been so insistent in its expressions of confidence that there is no need to fear the fever going there that no one for a moment thought that there would be a shut out for the Capital City, so close to the iron and steel metropolis and so much in love with its clever people. "Well, Birmingham will not quarantine us," was the remark of a leading business man yesterday. "Those people are not afraid of the fever." When he got the real news from Birmingham last afternoon he almost fainted.

As a matter of fact Birmingham's action created widespread surprise among those who know the conditions and there were many who would not believe the reports until forced to do so by the preponderance of evidence. Several gentlemen wired and wrote friends in the Magic City today telling them that there is absolutely no danger and that the case reported is the only one that shows even the suspicion of yellow fever.

Patient Nearly Well.

Minnihett, the man who has the fever, is practically well. His temperature was normal yesterday and he has passed the stage when any case can be secured from him. He sat up part of the day and will be given some solid food within a day or two. His commissary supplies have been limited to light water and little of that since last Saturday and he is, as a consequence, rather thin and possessed of a hankering for more substantial anatomical fuel. He has been a very satisfactory patient, however, and has given the doctors no trouble. He has spoken of his case a number of times and seemed to feel that he was in danger and must help all he could to ward off the dread monster of the white steed. Once or twice he has remarked: "I am a pretty sound and strong fellow, doctor, and think I will be abel to pull through." He will be dismissed in a few days and allowed to go his way.

There is no relaxation of the fight on the mosquitoes and the demon of dirt because of the mild case presented, and the city is freer of sickness than for many years at the same time. It was reported last night that in all the bounds of the city there are only 34 people ill of any disease.

Flag Is Returned.

Montgomery, Ala., August 4.—(Special) Now has come the end of a little squabble that happily never went beyond the point of good nature and cordial fellowship. The flag of the Perote Guards, captured by a regiment of Wisconsin soldiers of the union army during the war of 1860-61 at Island No. 10 in the Mississippi river, has been returned. The Perote Guards were members of the First Alabama infantry, a historical regiment in the confederate service.

The flag is returned by order of the Wisconsi nlegislature, which passed a joint resolution to that effect. There was some objection on the part of certain members of the Grand Army of the Republic at first, but this passed away as soon as the matter was properly explained. The return is noted in a letter to the governor from George E. Bryant, keeper of public property, who saws shipment was made by express August 1.

This flag was discovered in the archives of Wisconsin by Dr. Thomas M. Owen, director of the department of archives and history, some time ago and he brought the matter to the attention of the acting governor, Dr. R. M. Cunningham, who at once wrote and made request for its return. This was one of the unfinished matters left by the acting executive for the governor when he returned to duty in the spring.

After More Flags.

This flag is a hobby with Dr. Owens. He has several lists of old banners that were wont to wave over the heads of brave men and true who wore the gray. He has searched all over the country and is just now on a still hunt for a number which will be sought as soon as they can be definitely located as to ownership. However, several have been discovered, one of which is that of the Eighteenth Alabama at the military museum on Governor's island, and which it is hoped will be secured without trouble. It is one of the famous "rags" of the confederate service and is loved by many a poor fellow who will be happy to hear that it is coming home. The same thing may be said of the flag of the Twenty-eighth Alabama, which is in the National museum in Washington, and which will one of these days soon come back to its own.

There are others that are not accounted for in lists held by the director of the department and he will be very happy to have any information that will lead him to locate them.

Alabama Corporations.

Montgomery, Ala., August 4.—(Special) The following new corporations have been reported to the secretary of state:

Pioneer Lumber Company, Carrollton; capital stock $10,000. Incorporators N. S. Curtis and others.

Atlanta and Birmingham Air Line railway, to build a branch line from Parsons, Ala., to the coal property of the Tennessee Coal and Iron and Railroad Company, in St. Clair county, 3½ miles of road.

These appointments have been made by the governor:

C. E. McRight, constable, Pleasant Site, constable; T. W. Bethea, Talladega, notary public.

Ancient Piece of Statuary.

New York, August 4.—The Metropolitan Museum of Arts has purchased in Paris, according to an announcement made yesterday, a piece of staturary believed to be more than 1600 years old. The work is a bronze image of Caius Vibius, Trebonianus Gallus, one of the emperors of Rome, and was dug up by San Giovanna Laterano, about fifty years ago, by Prince Demodoff, the Russian archaeologist, who was then making excavation with the permission of Pope Pius IX. The bronze when found was in an excellent state of preservation.

Negro Kills Convict Guard.

Hattiesburg, Miss., August 4.—James G. Smith, an aged white man, in charge of the city convict force, was shot and killed this morning by Will Horne, one of the negroes in his gang. The negro snatched his revolver out of its scabbard and sent a bullet through the guard's stomach. The murderer escaped to adjacent woods, and a hundred citizens are now in pursuit.

ENGINEER DROWNED IN CAB AFTER SAVING PASSENGERS

NEW YORK, August 4.—Engineer Money rolled with his engine down a steep embankment at Bayonne, N. J., today into Newark bay and was drowned. The engine plunged out of sight into deep water.

A crowded excursion train on the Central railroad of New Jersey was left marooned and with passengers panic-stricken on trestle above the bay, saved from the same fatal dive only by a breaking coupler and the bravery of the lost engineer, who went to his death while in the act of setting the emergency brakes. The train was running from Atlantic City and had just passed over a bridge at moderate speed when the engine ran into an open switch and was derailed along with the tender and two baggage cars. At this point the rails are laid on a steep embankment which forms the bridge approach and the engine and tender toppled over the embankment. The couplers in between the tender and the first car parted, leaving the coaches, which stopped still on the embankment. The fireman saved himself by jumping. No passengers were injured.

Policeman Kills Henry Easley.

Richmond, Va., August 4.—At South Boston, Halifax county, last night, Policeman Joseph Carter shot and fatally wounded Henry Easley, jr., son of Colonel Henry Easley, of the governor's staff. The shooting followed an altercation. The bullet penetrated the breast, and Easley died in a few hours.

10 WHITEHALL.

JOINT SESSION INSISTED UPON

Senate Members Turn Up at Meeting of House Committee.

Committees on New Counties Indulge in Lively Debate on Question of Sessions — Chairman Hall Alone in His Contention.

There was a lively and intensely interesting meeting of the new county committees yesterday.

The question whether or not there should be a continuance of the informal joint session of the house and senate committees for the consideration of evidence which has been presented before the committees by the representatives of the twenty-four applicants for new counties was the subject for a red hot debate.

From the very outset it seemed apparent that there was not a member of either the house or senate committee which favored a discontinuance of the informal joint sessions of the two committees, notwithstanding the opposition of Chairman Hall of the house committee, to the continuance of these informal joint sessions.

Chairman Hall called a meeting of his committee at 4 o'clock yesterday afternoon. When the committee met Chairman Wheatley and several members of the senate committee on new counties, were present, and acting upon the sentiment of the house committee, Chairman Hall asked Senator Wheatley to preside over the meeting.

Chairman Hall's Views.

After Secretary Barnes had read several of the condensed reports on new counties, Mr. Hall stated that the joint session of the two committees was at an end, at least so far as he was concerned.

Mr. Anderson, of Chatham, immediately reminded Mr. Hall of the tacit agreement reached at the meeting of the two committees last Wednesday afternoon, to the effect that the two commitees were to continue in informal joint session till some understanding should be had as to the ideas of members of both committees.

Mr. Hall stated that so far as he was concerned he would never agree to bring in a report to the house identical with the report of the senate committee. He stated that the meeting of the committee in joint session was unconstitutional and not according to the laws of Georgia.

Some member of the committee wanted to know of Mr. Hall if the former meetings of both committees, when evidence was heard, were unconstitutional.

A discussion in which nearly every member present took part, immediately followed. No answer was given to this query.

Senator Wheatley, chairman of the senate committee, favored a continuance of the informal joint sessions, as he contended that such procedure was conducive to unanimity, and a crystallization of opinion among members of both committees. Senator Wheatley also contended that such action would be conducive to an expedition of business.

Senator Bunn favored the stand taken by Senator Wheatley, that a continuance of the informal joint sessions of both committees would expedite business, and would be in conformity with the expressed will of the people that some action be taken at the present session of the present general assembly.

Disagree with Hall.

Every member of the house committee who expressed himself opposed Mr. Hall in his contention that the sessions from this on should be separate.

Representatives Moore, of Cherokee; Jackson, of Muscogee; Hayes, Almand, Steed and Boykin, all opposed the proposition of Mr. Hall to hold separate sessions.

It was stated by several who favored informal joint sessions of the committees that the object was not to formulate a report, but merely to get some idea of what was wanted by the various members of both committees, so that as nearly as possible there should be a unanimity of reports.

Mr. Hall stated that when a report on any one county was submitted by the house committee and killed by the senate this ended the matter so far as that particular county was concerned. Several members disagreed with Mr. Hall in this position.

Senator Hogan stated that he favored informal joint sessions so that if there was any possible chance for the two committees to agree on any one or any number of proposed new counties such action could be taken.

After the session of the committee Senator Bunn stated that in view of the fact there had been a decided expression of opinion by the people of the state in favor of new counties, where needed, he believed that it was the duty of the members of the general assembly to give relief to certain sections in need of new counties at the present session of the general assembly.

Mr. Hall has called a meeting of the house committee on new counties for next Monday afternoon, at 3 o'clock. It is believed that the senate committee will meet at the same time and in the same room; and in all probability at this meeting it will be definitely decided whether or not there will be informal joint sessions of the two committees so that there may be some uniformity in action and an expedition of business in the matter of new counties at the present session of the general assembly.

Second Jury Disagrees.

Portland, Ore., August 4.—For the second time, after deliberating over forty hours, a jury in the United States district court today reported to Judge de Haven that they were unable to reach an agreement in the case of the United States against Congressman J. N. Williamson, Dr. Van Gessaner and former United States Commissioner Marion O. Biggs, charged with conspiracy to suborn perjury in connection with the securing illegally a part of the public domain, and were discharged. The case will be tried for the third time on August 28.

ENEMY OF SOUTH IS YELLOW JACK

Dr. Brunner Warmly Roasts New Orleans on Situation.

Health Officer Says To Get at Facts Number of Cases Must Be Doubled and 10 Per Cent Must Be Added to the Deaths.

Savannah, Ga., August 4.—(Special)—"With the proper conduct of the situation as it is now in New Orleans, which means national control and martial law, the spread of the disease can be stopped," says Dr. W. F. Brunner, Savannah's health officer, who has just returned from a personal investigation of conditions in the fever-stricken city.

"The situation requires an iron hand, and I don't see that iron hand in either the state or municipal boards. Unless the government takes control I think the disease will spread. To get at the actual conditions there, you want to multiply the number of cases by 2 and add 10 per cent to the death list."

So impressed is Dr. Brunner with the necessity of the national government taking charge of the quarantines that he will issue an open letter to the people of the south within the next few days, based on the history of epidemics in the south, showing the enormous loss to this section in every way because the government has no control of all the quarantines.

Yellow fever he terms the enemy of teh south, killing both people and trade. He also proposes to show that the south cannot hope to secure the desirable class of immigration to which the section is entitled until the federal government has the quarantines in charge. He says he will make no statements he is not able to substantiate.

SENATORS TALK OF MONEY BILL

Appropriations Committee of Senate Proposes Changes.

During the session of the appropriations committee of the senate, presided over by Chairman Hand yesterday, several important amendments were offered by members of the senate committee.

Among these was an amendment by Senator Hand, suggested by Chairman Harris, of the Technological school board of trustees, providing that the number of students from each county in the state by limited to fifteen instead of eight, as provided in the bill as it came over from the house.

Senator Candler expressed to the committee his opinion that the Technological should continue to take in students from Georgia as long as there was room at the school for them. He was not in favor of students from other states crowding out students from Georgia.

Upon motion of Senator Bunn the section appropriating money for the maintenance of the deaf and dumb institute was amended so that the amount should be $33,000 instead of $30,000 as passed by the house.

Military Appropriation.

The military appropriation was taken up and it was found that there was some opposition to the section as it stood, but not to the amount of the appropriations. The section was finally adopted as it was passed by the house, appropriating $48,000 for organizing, equipping, clothing, drilling and training the Georgia state troops.

Senator Carithers offered two amendments increasing the amounts for the benefit of two departments of the University of Georgia.

His amendment appropriating $5,000 for the furnishing of the new library building was unanimously adopted. Another of Senator Carithers' amendments added $2,500 to the amount appropriated for the benefit of the Normal school at Athens. This makes the total for that school $27,500 instead of $25,000 as appropriated by the house.

The senate committee will meet again Monday afternoon for a further consideration of the general appropriations bill.

RAILROAD BILL IS UNOPPOSED

Domestication Measure Is Reported Favorably.

Hon. Joseph Hill Hall's bill providing for the domestication of the railroads of Georgia was considered by the general judiciary committee of the house yesterday, and after some discussion was reported favorably.

There was practically no opposition to the bill. Mr. Anderson, of Bullock, wished to know if the bill required that small train roads and private roads in the lumber regions of the state be chartered.

Mr. Hall stated that the bill expressly provided that these roads should be exempted from the operations of the act.

When a vote was taken on the bill it was decided to unanimously report it favorably.

Three Shots at Governor.

Atkarsk, Russia, August 4.—An attempt was made today to assassinate M. Stolypine, governor of Saratoff, while he was driving. Three shots were fired at him but without effect.

TROUBLE BREWS BETWEEN STATES

Mayor of Folkston, Ga., Arrests Florida Health Officer.

State Health Officer Porter, of Florida, Then Removes Detention Camp from Folkston Across Line Into His State—Little Danger from Fever.

Tampla, Fla., August 4.—On account of the arrest of Dr. Diggett, agent of the Florida state board of health, by the mayor of Folkston, Ga., State Health Officer Porter today instructed Dr. Diggett to move the detention camp from Folkston to Camp Perry, inside the Florida line.

The action of the Folkston mayor in arresting Dr. Diggett may cause a controversy between the Florida and Georgia authorities. So far as Dr. Porter has been informed, Diggett was arrested for stopping passengers.

Speaking of the local situation, Dr. Porter said tonight: "Only a very remote possibility of further spread of the fever exists here. We will continue to exercise some surveillance over West Tampa territory for a week longer."

Berrien Superior Court.

Tifton, Ga., August 4.—(Special.)—Judge Martin is holding an adjourned term of superior court in Irwinville for the purpose of disposing of criminal business.

Wednesday, the case against Jehu Smith, for murder, was called. All of Wednesday and a portion of Thursday was consumed in securing a jury, and the state began submitting evidence yesterday.

Smith killed Abe Henderson, at Sycamore, early last year, and at the fall term of superior court was convicted of manslaughter, and sentenced to twenty years in the penitentiary. The case was appealed to the supreme court, and a new trial granted. There was some difficulty in securing witnesses to try the case at this term, but the court sent a bailiff with a writ for each absentee, and in two days they were all on hand.

Both Smith and Henderson belonged to the most prominent families of Irwin.

Decatur Leads the List.

Bainbridge, Ga., August 4.—(Special.)—Tax Receiver A. S. McBride, of Decatur county, has just completed the compilation of the tax digest for the year 1905 and the increase in valuation of Decatur county property is an unprecedented one. The tax books show an increase of 1,167,234.

This record surpasses any yet made in this state and will doubtless excel that of any county in the state which does not contain one of the larger cities.

Rudisill Accepts New Position.

Tifton, Ga., August 4.—(Special.)—W. F. Rudisill, for many years the agent for the Georgia Southern and Florida railway in Tifton, has accepted the position of cashier of the Citizens bank of Fitzgerald, a new bank organized there last Tuesday. Besides being cashier, he is one of the incorporators and largest stockholders.

Lumber Mill Burns.

Tifton, Ga., August 4.—(Special.)—The saw and shingle mill belonging to Hammond Bros., at Ehlgma, twelve miles east of Tifton, was destroyed by fire yesterday afternoon.

The plant cost about $3,000 to erect, and a good deal of lumber in the yard was also destroyed.

No More Cases Expected.

Montgomery, Ala., August 4.—The health board tonight issued a statement carrying practically the same information as the one given out twenty-four hours previously, viz: There are no new cases of yellow fever in Montgomery and not even a suspicious case of sickness has been reported to the authorities today.

The smaller towns of the state are gradually raising the quarantines declared against Montgomery when the first and only case was announced.

E. S. Mertenbaker, of the United States marine hospital service, reached the city today and tonight he stated that he had wired Surgeon General Wyman there was no danger of further infection here.

Car Service Men Meet.

Boston, August 4.—A party of prominent railroad officials composing the committee on car service of the American Railroad Association, arrived here for a conference on the question of increasing the daily charge for freight cars in use between different companies.

Burned City Building.

Havana, August 4.—Lieutenant Mayor Fernandez, of Vueltas, province of Santa Clara, has been indicted in connection with the burning of the municipal building in that city, July 22. He was placed in jail today without bail. Fernandez had already been charged by the mayor of Vueltas with resisting the government's investigation of municipality affairs.

May Return Fruit Vessels.

Mobile, Ala., August 4.—Telegrams have been received here intimating that the fruit vessels transferred to this city from New Orleans will again be returned to the Crescent city on account of quarantine restrictions at this point being too severe. No definite action has yet been taken.

FEVER EPIDEMIC TO BE DISCUSSED

By League of Georgia Municipalities at Convention.

Mayor Bridges Smith, of Macon, Announces That the Griffin Gathering of Georgia Officers Will Exhaustively Discuss Subject.

Constitution Bureau, 467 Second Street, Macon, Ga., August 4.—(Special)—The prevalence of yellow fever in New Orleans has caused the league of Georgia Municipalities to arrange for a discussion of this epidemic in all its phases at the coming convention of mayors at Griffin. Mayor Bridges Smith, who is secretary of the body, announced a number of leading speakers upon this subject this morning. They will prepare strong addresses for the occasion.

Prominent physicians mentioned are as follows: Dr. W. F. Westmoreland, chairman of the state board of health, of Atlanta; Dr. F. Benson, chairman of the Atlanta board of health; Dr. W. F. Brunner, health officer of Savannah; Dr. J. B. Morgan, chairman of the board of health, of Augusta; Dr. William L. Bullard, chairman of the board of health, of Columbus, and Dr. R. B. Barron, chairman of the board of health, of Macon.

Savannah Rooters Coming.

Macon, Ga., August 4.—(Special)—Savannah will send up a large party of excursionists tomorrow to witness the double header between the home team and the Savannah team, of the South Atlantic league, at Central City park. The series of games now on are exciting unusual interest among the fans of the Central city and the Forest city.

Negro Dies in Buggy.

Macon, Ga., August 4.—(Special)—Glascon Gooding, a negro living near Swift Creek church, east of the city, died in his buggy this morning after starting to town to see a physician. He had started to Bond's store and met a physician in the road. He was examined and ordered to return home and go to bed. When he reached the farm of Postmaster Harry Edwards he expired suddenly and was found dead in his buggy. No one thought the negro was seriously ill. He was a steady employee of the Altmayer & Flateau Company for a number of years.

Colonel Hughes' Health Better.

Macon, Ga., August 4.—(Special.)—Colonel Dan G. Hughes, who has been spending the summer at Whittle Springs, in east Tennessee, is reported much improved in health. He is one of Macon's most highly esteemed citizens, and for nearly a year his friends here have been anxious on account of failing health. He will spend several weeks on the trip away.

True Is Arrested.

Macon, Ga., August 4.—(Special.)—H. R. True, a collector for John W. Gunn & Son, liverymen, doing business on Poplar street, in this city, was arrested this morning and placed in the city prison under charges of forgery and obtaining money under false pretense. The arrest was made under instructions from the liverymen, who charge True with forging orders and collecting money for which no returns were made to the office.

True has been with John W. Gunn & Son for about two years and is more than fifty years of age. He was generally considered a reliable business man up to this morning, when the charges were made, and the arrest came as a surprise. True is held for a commitment trial before the recorder tomorrow morning. The liverymen claim to have papers with their name forged upon which True secured considerable sums of cash.

Confident of New Trial.

Macon, Ga., August 4.—(Special.)—Attorney John R. Cooper, who appeared as counsel for the defense in the now famous Rawlings cases at Valdosta last week stated here today that he was confident of a new trial at the hearing on this petition in Thomasville on September 9. He was strong in his belief that the younger Rawlins would never hang and seriously doubted their guilt. He stated that fully 100 citizens of the community in which the crime was committed had expressed their willingness to sign a petition to commute their sentences to life imprisonment should all efforts in their behalf in the courts fail to get relief.

Attorney Cooper will make strong attempts to secure another trial at least for the boys who have been sentenced and says that while there was strong sentiment against all the prisoners at the extra session of the court, he will be in position to show the public that the people of Lowndes county do not want the boys to hang. In speaking of the trial he said today that Chief Justice Simmons, of the supreme court, had gone on record as against calling extra sessions of any court when a community was so enraged against prisoners as to be prejudiced, and in a state of excitement that might not ensure justice to the accused.

He declared that everything was against the prisoners on account of the undue excitement produced by the great crime committed, and is confident that when all this has passed away another jury would not be so clearly against the three boys involved. He believes that another trial will change conditions, and is inclined to the belief that the McDonalds, who were implicated by the Carters, will find it hard to explain their relations in the terrible affair when the charges against them are pushed.

To Resist Mill Strike.

Manchester, Eng., August 4.—At a meeting today of the executive board of Cotton Masters' Federation, it was decided to urge the members to resist the demands of the operatives for a five per cent increase in wages. The executive board of the Bolton employers' independent organization also met today and resolved to give one month's notice of a five per cent reduction in wages. The situation is considered critical.

Havana Elects Mayor.

Havana, August 4.—Lieutenant Mayor Bonachea, who was appointed mayor of Havana ad interim after the removal of John O'Farrill, was defeated for that office today in an election held by the city council, by a majority of one. The new mayor is Orencio Nodarse.

Quarantine Against Ports.

Mobile, Ala., August 4.—A cablegram received here this afternoon from Ceiba, Spanish Honduras, says that that port has quarantined against Mobile and New Orleans, vessels being required to undergo six days detention.

PROOF CONCLUSIVE

In December, 1904, an advertising campaign was inaugurated by The Eagle and Phenix Mills, of Columbus, Ga., the largest cotton and woolen mills in the South.

The object was to push the sale of "Kimono Outing," one of the mill's specialties.

The entire South was to be covered.

The Company selected for this purpose The Sunday Constitution, The Weekly Constitution and The Sunny South.

After Three Months' Advertising

On February 22, 1905, after about three months' use of these publications, Mr. J. D. Massey, treasurer of The Eagle and Phenix Mills, wrote The Constitution:

"It may interest you to know that during the first ten days of the current season we sold more Kimono Outings than for the entire year of 1904. We attribute much of the above result to the fact that your three papers above named, have carried our advertising each week into over two hundred and fifty thousand homes right in the Southern States, where our goods have the largest sale, and where our Mills are widely known."

After Six Months' Advertising

Under date of May 5, 1905, Mr. Massey wrote The Constitution:

"We have decided to change from Kimono Outings to other products that we manufacture, for the reason that we have already sold all the Kimono Outings that we can possibly produce this year."

They are now pushing in the same mediums the sale of Eagle and Phenix Perfect Ball Sewing Thread.

What we have done for Eagle and Phenix we can do for you.

Each paper is a salesman. We are 250,000 strong; and each week scatter over the entire South.

We go right into the homes and mingle with the family. They consult us while they show travelling agents the door. We have their confidence. Let us make your argument for you. We will make it again and again, and in the end we will sell your goods.

Let us talk it over with you.

SHORT ITEMS OF INTEREST

MAMIE, THE BRIGHT LITTLE 1-year old daughter of Mr. and Mrs. J. E. Gay, died at the residence of its parents on Park avenue at 1:30 o'clock this morning. Death was due to whooping cough following typhoid fever. The body will be carried to Newbern Sunday morning for interment in the family burying ground.

AFTER AN ILLNESS OF ONE week Mrs. J. Morford Ashley died yesterday morning at a private sanitarium in this city. Death was due to an operation. After the performance of the operation Mrs. Ashley rested well until about 12 o'clock Thursday night, when she became worse. She sunk gradually, and many hours before she passed away, her physicians knew there was no hope for her. J. M. Ashley, husband of the deceased, is superintendent of the motive power department of the Seaboard Air Line railway. Besides her husband, Mrs. Ashley is survived by her mother, Mrs. Joan Easterlin, of Montezuma, Ga., and several brothers and sisters who live in Montezuma. The funeral arrangements will not be announced until after the arrival of relatives from distant cities. Savannah papers please copy.

REMARKABLY LARGE AUDIences continue to hear Dr. N. W. Tracy at his tent, at the corner of Pryor and Richardson streets. A large part of the time during the past week it has been impossible to seat the people, though the tent holds at least 1,500. The moving picture exhibition connected with the lecture is the best that has ever come to Atlanta, and those of a descriptive character illustrating his lectures are superb. Sunday afternoon at 3:30 o'clock Dr. Tracy is to hold a meeting for men only. At 8 o'clock his lecture will be entitled "Footsteps of the Prodigal," and this lecture will be the best probably of the present series.

AFTER A SHORT ILLNESS MISS Fannie Dickey died yesterday morning at a private sanitarium, in the thirty-third year of her age. Several brothers and sisters survive her, and their many friends will learn of their great bereavement with sorrow. Funeral services over the body will be held this morning at 11 o'clock at Forest, Ga., and will be conducted by Rev. Dr. William L. Bell. The burial will take place in the churchyard.

THE FUNERAL OF MRS. A. S. Smith, who died Tuesday at her home in Battle Hill, was held yesterday afterday afternoon at 3:30 o'clock at her late residence. The interment took place in Westview cemetery.

FUNERAL SERVICES OVER THE body of Mrs. Hattie Seavers, who passed away Wednesday evening, were held yesterday afternoon at 4 o'clock at her late home, 123 Greenwich avenue. The burial took place in Westview cemetery.

ALONSO S. McCOWN, INDIVILUALly and as next friend to Minnie McCown and Ethel McCown, children of his deceased brother, James Robert McCown, came before Judge Roan yesterday asking that J. A. McCown, executor of the estate of James Robert McCown, be removed from further handling of the property left for the minor children mentioned. The papers show that the parents of the children purchased a home for something over $4,000, and that about $2,200 has been paid on it. The executor, according to the papers filed, has not managed the estate satisfactorily. Judge Roan issued an order restraining the executor from in any way transacting any business connected with the estate and ordering all parties interested to appear before him at 9 o'clock on September 9th.

C. S. CROSSLEY YESTERDAY FILED suit against Allie Crossley for a total divorce. The petitioner avers that on December 19, 1896 he was united in marriage to Allie Harriford. The relations between husband and wife, so the declaration avers, has been extremely unpleasant, especially within the past few years.

ABRAHAM HILL, OF ATLANTA, yesterday filed suit against the Georgia Railway and Electric Company for $5,000. In his request for damages Hill says he was compelled to use a crowded car on which there was hardly standing room on the 4th of September last and that he was hit by a passing wagon and was severely and permanently injured.

THE UNKNOWN MAN WHO WAS run down by a street car Tuesday morning, died yesterday morning at the Grady hospital. The cause of death was fracture of the brain. A. Mrs. Berron, of Columbia, S. C., said yesterday that she thought the deceased was William Evans, a contractor of Columbia, but a message to that city brought no response.

DR. S. M. SAMUELS, A PHYSICIAN of 125 Edgewood avenue, and Milton Tuteur, a collector, engaged in a lively fisticuff in the parlors of Hilburn & Poole, undertakers, 49 East Hunter street, yesterday morning, but the participants were separated before either was badly hurt. A case of disorderly conduct was made against Dr. Samuels, but he apologized to Mr. Tuteur and it was dismissed.

S. S. ACTON, A YOUNG MAN WHOSE home is in Gadsden, Ala., was knocked down by an outgoing Seaboard passenger train at the Simpson street crossing yesterday about noon, but was not seriously hurt. He was taken to the Grady hospital for treatment, and will probably be dismissed today.

A NEGRO GIRL, AGED ABOUT 18 years, giving her name as Ida, and her address as 42 Butler street, knocked at the door of a house at 40 London Lane about 10 o'clock Thursday night, and upon entering told the negro living there she wanted to leave a package to be called for in the morning. She gave the man 25 cents for his services, and then ran away. The man suspected something wrong, and upon opening the package found a dead negro baby therein. Officers Lindsay and Hulsey were notified, and they are investigating the case.

MRS. MILLARD McDANIEL, 35 years old, died last night at her residence, 24 Howell street. She is survived by one son. The body will be taken to Chamblee, Ga., this afternoon for funeral services and interment.

Decision Against French.

Caracas, Venezuela, August 4.—The federal court of cassation today gave final judgment in the matter of the proceedings instituted against the Campagnie Francais des Cables Telegraphiques, or the French Cable Company, confirming the dissolution of the contract of the government with this company.

Captain Very Named.

Washington, August 4.—Captain S. W. Very has been ordered by the navy department to duty as commandant of the naval stations at Port Royal and Charleston, S. C., also as commandant of the Sixth naval district. The order is effective September 1, when he will relieve Rear Admiral E. S. Prime, who recently was placed on the retired list.

Missing Mayor Not Found.

Patterson, N. J., August 4.—Despite the efforts of his former friends and business associates, the whereabouts of the missing mayor, William H. Belcher, of this city, has not been discovered. Today an investigation was begun to discover what disposition had been made of the estate of James H. Stewart, late congressman, of which Mayor Belcher was sole executor. It was valued at $10,000.

New Line to Boston.

Chester, Pa., August 4.—The contract for two large passenger steamships for a new service between New York and Boston has been awarded to the Roach Ship Building Company, of this city, by the Metropolitan Steamship Company, of New York. The new vessels will be of turbine type and will be about 400 feet in length. The cost of the vessels will be over $750,000 each.

ATLANTA TO RECEIVE THOROUGH CLEANING

City, Which Is Already Clean, Will Be Made Still Cleaner.

THREE CITY DEPARTMENTS WILL TAKE CHARGE OF WORK

Housekeepers Must Clean Their Premises at Once, Ponds Are To Be Drained and Every Possible Precaution Will Be Taken.

Atlanta is to be given a thorough cleaning. Notices will be given by three city departments to housekeepers, all ponds of stagnant water are to be drained and crude petroleum is to be used in many places.

These things were decided upon yesterday at two meetings, the first held in the office of Mayor Woodward at 10 o'clock in the morning and the second during the meeting of the board of health at 5 o'clock in the afternoon.

Atlanta is given a little extra cleaning every year about this time, but this year the cleaning is to be much more thorough than during former years, and it is certain that the results will be better.

One of the main objects of the cleaning is to rid the city of mosquitoes, which would otherwise commence swarming during the latter part of August. The dangerous mosquito, the stagomyiafasciata, is very rare in Atlanta, but the ordinary high altitude mosquito is here, and although not dangerous, he is objectionable.

For the purpose of lessening the number of mosquitoes in Atlanta the several small ponds inside the city limits will be drained. Their owners will be instructed to drain them and if the order is not complied with at once the city officers will undertake to do the work. In additional all sewer eyes and catch basins will be thoroughly drenched with crude petroleum for the purposeof smothering the mosquito larvae. It is believed that these precautions will greatly lessen the number of mosquitoes in Atlanta this fall.

Departments at Work.

The cleaning of the city will be attended to by three departments. Sanitary Chief John Jentzen, Police Chief Henry Jennings and Fire Chief W. R. Joyner met yesterday morning in the office of Mayor Woodward for the purpose of discussing the situation. It was agreed that Chief Jentzen will be in charge of the work of cleaning. All policemen, however, will be specially instructed to give notice to the housekeepers and others on their respective beats to thoroughly clean their premises and Fire Inspector Sharp and his assistants will give the same directions. Both policemen and firemen will be on the alert to see that the instructions to clean up are observed. The firemen will report failures to comply with the orders and the police and sanitary men will make arrests.

The time limit for cleaning premises inside the city limits is 24 hours. After that time arrests will be made.

These things were decided upon during the conference in the office of Mayor Woodward yesterday morning, and the heads of the three departments announced to the mayor that they would rigidly enforce his orders.

Health Board Is Active.

During the meeting of the board of health, of which Dr. Benson is president, yesterday afternoon, it was decided to give the streets a thorough cleaning. Chief Jentzen was instructed to employ as many additional men for the purpose of keeping the streets clean as he thought necessary, and he was also directed to hire as many teams as he thought would be required to cart away the additional garbage that will result from the thorough cleaning of private premises.

Dr. J. P. Kennedy was given authority to employ as many men as are necessary to board all incoming trains for the purpose of ascertaining the names, destinations and home cities of those on board, in order that a complete record may be had of all visitors in the city. These things were decided upon by the board of health upon motion of Mayor Woodward.

It is not the intention of the city officials to alarm anyone, nor is it the intention to prevent anyone from coming to Atlanta from any place, but it was believed to be advisable to thoroughly clean the city, which is at all times kept as clean as any city in the United States, and give assurance to visitors that in coming to Atlanta they are coming to a city that is as free from dirt as is possible.

ENGLISH LUTHERANS OPEN HANDSOME CHURCH SUNDAY

THE opening service of the English Luthern Church of the Redeemer will take place tomorrow morning at 11 o'clock. The church building, which is just completed, is a handsome structure, and is located at the corner of Trinity avenue and Capitol place.

Perhaps no church in Atlanta has a more interesting and striking history. Although work had been done among the Lutherans of Atlanta many years by the secretary of the mission board, the congregation was organized two years ago.

The energy and success which have attended their work has attracted the attention of all denominations.

The stone church, which will be opened Sunday, is one of the most beautiful churches in the city. It is of English gothic style of architecture, built of Georgia granite. The interior woodwork and pews are golden oak. The congregation has also bought the house and lot adjoining the church for a parsonage.

The pastor, Rev. E. C. Cronk, says the outlook for the congregation is exceptionally good. He knows of hundreds of Lutherans in the city who will likely identify themselves with the work now that the denomination has a church, and the permanency of the work is assured.

Rev. R. C. Holland, D. D., of Charlotte, N. C., president of the board of home and foreign missions of the Lutheran church in the south, will preach at the morning and evening services. The first hymn to be sung in the new church will be Luther's great battle hymn. Many Lutherans from all parts of the south will be present for the Sunday services.

UNLUCKY RUN FOR TRAIN; THREE KILLED ON TRACK

HUNTINGTON, W. VA., August 4.—The Guyandotte Valley passenger train from Logan to this city had an unlucky run today, killing three men and injuring another. Frank Adkins wa sstruck by the train shortly after leaving Logan, while crossing the track and instantly killed. A companion was seriously injured. John Ashan, an aged garmer of Barboursville, was killed as the train reached that point. He stood on the track directly in front of the train thinking that it ran upon another track. While the engine was returning to the roundhouse after arriving in this city, George Zircle, who was walking on the track, was struck and instantly killed.

MONEY WANTED FOR HOSPITAL

Hospital Board Needs $2,000 to Equip Operating Room.

An appropriation of $2,000 will be asked for during the next session of council by the board of trustees of the Grady hospital. The request for the amount has been filed with City Clerk Campbell by Secretary Hugh M. Dorsey, of the hospital board.

The appropriation is wanted for the purpose of equipping the new operating room of the Grady hospital and to put fire escapes in the children's and white wards.

The request will go to the finance committee, of which Councilman Patterson is chairman.

Ordinances amendatory to the general tax ordinance will be presented during the next session of council by the tax committee, of which Alderman Hirsch is chairman. The amendatory ordinance will strike "banks, capital not exceeding $25,000, each $100," and "banks which do a general banking business and operate under a charter and which have a capital exceeding $25,000, each $50," and will substitute in lieu of these two sections the following: "Banks, no license to issue for less than the full price of one year, $100."

The other ordinance fixes the annual license of professional baseball clubs at $200 per annum.

Council's street committee, of which Alderman Holland is chairman, held a brief session yesterday afternoon and attended to routine matters.

ASSETS WASTED SAYS RECEIVER

Branch Enters Suit Agains Cotton Firms for $7,000.

Augusta, Ga., August 4.—(Special.)—Alleging that the company is insolvent because of the fact that its assets were diverted from the lawful and proper purposes to which they should have been devoted, and have been consumed and lost in gambling enterprises, Receiver Austin Branch, of the Planters' Cotton Factorage Company, of which P. B. Tobin was the general manager, yesterday entered suit against Ware & Leland and Miller & Co., brokerage companies, to recover nearly $7,000 paid to them for margins on transactions in futures The dates of the payments are specified with such credits as are shown by the books of the defunct company.

The companies being out-of-town concerns, the suits were followed by garnishment proceedings against Georgia Railroad bank, where they do business, and the local agents are also garnisheed. The amount claimed from Ware & Leland is $2,975, and from Miller & Co., $3,900. The suits are brought on two counts: First, that the charter of the company did not warrant the manager, P. B. Tobin, to make such investments, and second, that in the eyes of the laws of Georgia such contracts are in the nature of gambling, and therefore illegal. The cases are set for the September term of the superior court.

COUNTRY HOMES DWARF WOMAN'S DEVELOPMENT

Mrs. Gerdine Delivers Strong Address on Home Progress Before Farmers.

WIVES ARE NOT TREATED AS HUSBANDS' EQUALS

Speaker Says Women in the Country Should Have Their Share of Farm's Proceeds and Then They Would Improve and Beautify Homes.

Commerce, Ga., August 4.—(Special.)—No such gathering of farmers has ever convened in this section as is here today attending the farmers' institute of the thirty-third senatorial district.

The attendance is variously estimated at from five to seven thousand.

In the forenoon Hon. R. J. Redding spoke to several hundred farmers on soil and fertilizers. At the same time Professor Hart, of the university, spoke to a large crowd on fruit culture. At another place Professor Johnson spoke to a large audience on seed selection.

Professor Spillman, of the department of agriculture of Washington, D. C., also spoke to a large audience.

Mrs. Gerdine, of Macon, made an excellent talk on the improvement of the country home. She is an excellent talker, and she captured her audience. No address delivered during the exercise of the institute has been the subject of so much favorable comment. A brief synopsis of her address is herewith presented:

Mrs. Gerdine's Address.

There has been less progress in the country homes of the south than any institution in America and there are obvious reasons for it. First, they are too scattered. In the next place men as a rule do not treat the women of the home as their equals or give them the freedom necessary to developement. They should have their part of the proceeds of the farm to use as they please, then they will begin to think and plan for improving and beautifying their homes. Another reason for slow progress is the quality of the average kitchen maid. She does not care for improved implements. They invoke more care and thought than she is willing to give. The housekeeper does not want to do the cooking because the kitchen is so unattractive, hence the negro is installed and the wheels of progress stop.

Women of Georgia should see to it that their sphere of acdivity keeps abreast of the times; their children have a rightful claim; their self respect demands it The nation looks largely to the country homes to recruit the depleted ranks of statesmen and rulers. Then let the homes be such as to lay the foundations for such characters.

The perils of country life have caused many men to determine to move to town as soon as they are able; hence the unsettled feeling has stopped all improvement. The government is interested in keeping the rural population contented. therefore it is granting every reasonable demand; free mail deliveries, good roads, schools.

Now ask for mounted police, equipped to strike terror to all evildoers, and you will have your homes safe from intrusion. When the country home is what it should be, the city people will prefer rural beauties and luxuries rather than at tiresome and expensive summer resorts.

At noon the institute adjourned for dinner. The procession was formed, headed by a band, followed by carriages containing the speakers and distinguished visitors, and marched to the city park, where a barbecue for the farmers had been prepared by the business men of the city. Something near $500 had been expended for carcasses. This had been prepared by imported expert cooks, and it was tempting and delicious. There was enough for all and to spare.

Harvie Jordan Speaks.

After the excellent dinner Hon. Harvie Jordan spoke to the thousanus of farmers standing on the pavillion in the park. Mr. Jordan spoke for an hour and a half on cotton, going into details of manufacturing, marketing, etc.

Arrington; second vice president, D. B. Dyer. The executive committee is composed of the officers and the following gentlemen: W. T. Fields, C. J. Crawford, D. P. Durban, Daniel Sullivan, I. H. Cohen and P. H. Rice.

Habeas Corpus for Tyrrell.

Norfolk, Va., August 4.—On motion of Mrs. Tyrrell, of Providence, R. I., Judge Waddill, of the United States circuit court, has signed a writ of habeas corpus by which the petitioner seeks to secure the discharge from the United States navy of her minor son, Wesley C. Tyrrell, who it is alleged, ran away from home and enlisted without the consent of his parents. Judge Waddill directed the naval authorities here to produce the boy before him in court at Richmond, September 1.

Young Tyrrell is now o nthe United States ship Franklin at the navy yard here.

BOOKS ARE BROUGHT TO COURT.

Disputed Evidence Admitted in Case of Senator Farris.

Jefferson City, Mo., August 4.—Upon the resumption today of the trial of Senator Frank H. Farris on the charge of bribery, the point in controversy at the conclusion of yesterday's session over the admission of the books of the Steelville bank as evidence to show deposits by Farris on March 21, 1901, was settled by Judge Davis, who ruled that the introduction of the books as evidence be allowed.

J. T. Coffey, cashier of the Bank of Steelville, who was on the stand when the point in controversy arose, today identified the books introduced.

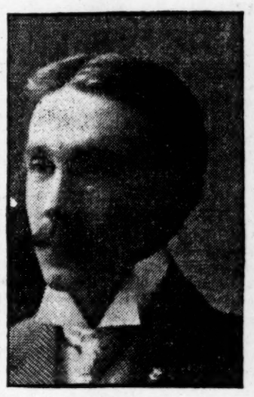

Thomas A. Gibson, who was cashier of the bank in 1901 and who kept the books of the bank, was placed on the stand to identify the handwriting as his own. Attorney General Hadley asked the witness to say of his own personal knowledge whether Farris had deposited a large sum of money in the bank on March 21, 1901. Witness did not remember. Judge Davis then decided to exclude the books from being used as evidence.

W. H. Hettel, paying teller of the American Exchange national bank, of St. Louis, identified a $7,000 draft as the one that was paid Lee through the bank. He also identified the signature of John A. Lee to a letter written to D. J. Kelley, of New York, stating that he (Lee) was going before the grand jury and would protect all parties. Lee had denied the authorship of the letter.

cashier of the Bank of Waynesboro, Ga., and has left for his new post.

Mr. Williams was a strong factor in this community and was highly esteemed by the people of this section.

In him Waynesboro will gain a valuable citizen and one who will become prominently identified with the development of the town.

MAY SETTLE LONG RATE WAR.

Trunk Lines About To Get Together After Fight.

New York, August 3.—An informal conference of members of the Trunk Line Association, following the formal meetings of the past week, was held today in this city for the purpose of settling, if possible, the passenger rate war in which the Erie, the Michigan Central and other parallel trunk lines have been involved for several months.

It is understood that there are signs of an agreement to restore rates, the expectation being that the Michigan Central will waive its claims for a differential in its favor, the Erie mantaining that its fast trains into the Grand Central station here should prevent the granting of any differential in its favor.

Columbus Wants Team.

Columbus, Ga., August 4.—(Special.)—Columbus is trying to get one of the Southern League baseball teams that are shut out from their home city by the existence of yellow fever cases there to complete the season in this city.

Yesterday Manager Reidhead, of the Columbus Railroad Company, wired President Kavanaugh, of the Southern League, making a bid for the Montgomery team, offering to furnish a first-class park without cost. Judge Kavanaugh replied: "Many thanks for offer. Matter rests entirely with Montgomery club."

The Montgomery club has not yet been heard from.

CROPS GOOD, BUT NEED RAIN.

Conditions in Northeast Georgia Indicate Very Fine Yield.

Gainesville, Ga., August 4.—(Special.)—Corn and cotton crops in this section of northeast Georgia are very fine now, though rain is beginning to be needed. Upland corn is better than it has been for years, while bottom corn is also very good. Though the acreage in cotton is not as large as it was last year, most of it is very fine, and prospects are good at this time for a splendid crop. Along the Chattahoochee and Chestatee rivers an abundance of corn will be raised if nothing unfortunate happens, such as great freshets, etc. Upland corn is beginning to feel the effects of the drouth now, and rain would do a great amount of good. Unless a good season falls soon, crops will be considerably cut off.

The Elberta peach crop of this section has been marketed, the last shipments having been made several days ago. A few late peaches are now being sold on the local market, but this trade is very limited, because of the short crop. The Elberta shippers received a fair yield this year, but the season, as a whole, was a poor one for the growers of this section. A number of new orchards were set out this year in Hall county, and in the course of a few more years the shipment of Elbertas from this section will be almost as large as those from the large orchards of other portions of the state.

USING CONVICTS ON ROADS.

All Highways Leading from Gainesville Are Being Improved.

Gainesville, Ga., August 4.—(Special.)—All public roads leading out from Gainesville are being put in fine shape by the county commissioners. Recently ten mules were purchased and road machines secured for this purpose. W. T. Sell, an experienced road man, was employed as overseer, and he was given a competent force of hands. Towards the Chattahoochee river in each direction from Gainesville are numerous hills, and the first work of the commissioners was to put the roads on a grade around these hills and to fill in a number of places with dirt taken from high points in the roads. Each road was also widened, and ditches were cut to drain the water away. The people of the county who have traveled over these improved roads are greatly pleased at the work done. It is the purpose of the commissioners to continue this work until every road in the county is put in good shape. To this end, a convict camp will be organized by the commissioners by the first of January next, and the county will, therefore, utilize all her convicts upon her own roads. The grand jury at the term of court just adjourned recommended that the alternative road law, which has been in force for three years, be continued for another term of equal length.

Opposition to New Court.

Stillmore, Ga., August 4.—(Special.)—Considerable interest is manifested here over the bill to establish a city court, and it is said that there is opposition to the measure on the part of some, the opponents of the measure claiming that the necessity for the court has not been generally discussed.

INDIGESTION

THE PLAGUE OF AMERICANS.

Hurry and worry, irregular habits, rich diet, impure water and immoderate use of ice cold drinks, have made us a nation of dyspeptics and slaves of indigestion. Inflammation and acidity of the stomach, spitting of food, heart burn, insomnia, and loss of strength and flesh are some of the effects of bad digestion. Daniel Spring Mineral Water is one of the greatest promoters of digestion ever known. By drinking this water, you not only have the purest and most wholesome of all beverages, but at the same time derive untold benefits from its mineral properties. It is cooling and healing to the stomach and a tonic and appetizer that nature has provided. A case of 6 half-gallon bottles delivered at your office or home for 45 cents. Both Phones 2434.

THE Y. M. C. A. OF ATLANTA, GA.
April 18, 1905.
I have been using the Daniel Mineral Water for a short time and find it quite beneficial for indigestion. I have been troubled with it for a number of years and shall continue to use the water, especially during the spring and summer.
W. W. WILLIS,
Ass't Secretary.

Daniel Spring Mineral Water is put up in 1-2 gallon bottles with Green and White Labels.

Since we read how Senator Mitchell is alleged to have been going under an alias all these years, and how a veil was drawn over his early career in Pennsylvania, the sad skepticism smites us that mayhap the impressive autobiographical sketches in the Congressional Directory are not as reliable as an admiring and credulous constituency believe them to be.

Two Energizing Factors.

In an editorial a few days ago The Constitution characterized as short-sighted the complaint that the extension of the rural free delivery service is a "dead loss" to the post-office department. At that time we cited several instances showing that the enormous benefits accruing from this species of beneficent paternalism could not be measured by the ordinary ledger standards of profit and loss applicable to all private businesses and a percentage of the public business.

The following extract from a Macon dispatch, published a few days ago in The Constitution, furnishes interesting proof in substantiation of these claims:

Perhaps, that which causes the broadest smile on the face of the farmer and that which makes him more independent than anything else is the fact that the telephone and rural mail service HAVE INCREASED THE VALUES OF LANDS FROM $10 to $100 PER ACRE. There are Georgia homes with vast acres of farms lying in every direction that could not be purchased at all, whatever the cash consideration, all because these two advantages have been attained and the farmer of Bibb predicts that his brother elsewhere is soon to enjoy the same advantages.

There is no doubt that the estimate of our correspondent is correct and that wherever rural free delivery and the telephone have penetrated rural Georgia, land and other values have increased in appreciable proportion. Reports from other counties, even those more sparsely settled than Bibb, would demonstrate the truth of this assertion. Of course the ratio of increase elsewhere has not been as marked as in the instance quoted. A well recognized principle in real estate economics is that land contiguous to large towns or cities enhances in value more quickly than that situated in more isolated sections. This logic, however, alters only the degree and not the fact of the developing value of these two modern factors.

Georgia is already fairly well gridironed by rural free delivery routes and strung with the telephone wires of public and private concerns. Progress in the latter respect particularly has been phenomenal within the last five years. The rural telephone proposition was at first approached with a suggestion of timidity, as Georgians are above all conservative, requiring to be thoroughly convinced of the worth of innovations before according their support. Once shown the great convenience and time and money economy of the telephone, they became enthusiastic patrons; until now the number of small exchanges and private lines in the country districts would astonish one unacquainted with the growth of sentiment within recent years.

The improvement and simplifying of the telephone has, moreover, placed it within reach of many people who formerly viewed it as an expensive and impossible luxury. They have discovered that in addition to the conveniences it confers, it offers a very real protection to families living in thinly inhabited communities; an advantage obvious enough to those acquainted with conditions in such localities.

These two factors—rural free delivery and the telephone—make ideal yoke-fellows in the development and enrichment of a section. The instance above cited is valuable testimony to this effect and many similar ones might be cited.

The Italian Emigrant.

The immigration movement at the south is gathering such headway that everything of interest pertaining thereto is read with eagerness. The immigration that this section is receiving and is likely to receive is largely Italian, and for that reason southern people are interested in knowing more about the sons of sunny Italy, their capacity for the labor that awaits them here, their habits, morality, disposition, desirability as neighbors, and their adaptability for American citizenship.

Fortunately, the Italian has been tried so long and thoroughly in the south that Italian immigration can no longer be regarded as experimental. In sections of Louisiana, Mississippi, Arkansas and Texas, Italian colonies and Italians employed as laborers have for several years demonstrated the sterling qualities that lend hope to the plan to solve the south's vexed labor problem in this manner.

Some weeks ago The Constitution reviewed a comprehensive pamphlet on Italian immigration at the south, the author of which was Professor Walter L. Fleming, of West Virginia university. Among the many excellent things we could not find space to quote from this pamphlet was the following:

Side by side with negroes, the Italians have proved their superiority as farm laborers. Mr. Dougherty, a planter of Baton Rouge, who employs about forty Italian families, states that they are peaceable and more industrious than the negro; that they quickly learn to do unfamiliar work, treat stock better and cultivate their crops more intelligently; that they are more economical and do not rush into debt nor spend their earnings extravagantly. Other planters report that they are good farmers; that they have model farms and well-kept houses and premises; and that they raise everything at home. Near Greenville, Miss., is an Italian colony engaged in cotton farming. Each family on the twenty acres usually clears on each crop $200 to $300 above expenses.

He adds that many farmers in that section are substituting Italians for negroes as tenants. In further proof of what the Italian can do in the cotton field, Professor Fleming publishes a letter from A. H. Stone, a planter of Greenville, Miss., in which that gentleman says:

It is always difficult to get a negro to plant and properly cultivate the outer edges of his field—the extreme ends of his rows, his ditch banks, etc. The Italian is so jealous of the use of every foot for which he pays rent that he will cultivate with a hoe places too small to be worked with a plow, and derive a revenue from spots to which a negro would not give a moment's thought. I have seen them cultivate right down to the water's edge the banks of bayous that had never before been touched by the plow. I have seen them walk through their fields and search out every skipped place in every row and carefully put in seed, to secure a perfect stand. I have seen them make more cotton per acre than the negro on the adjoining cut, gather it from two to four weeks earlier, and then put in the extra time earning money by picking in the negro's field.

This is interesting testimony, and we have more of the same sort in a carefully prepared article on the same subject in the current South Atlantic Quarterly, from the pen of Emily Fogg Meade. Of Italian thrift this writer says:

Above all, the Italians are a very thrifty people. They can save money on the meager wages of unskilled labor. This characteristic is noticeable in contrast with the negro. The negro tenant farmer will borrow up to the limit, mortgaging his future. The Italian has only the barest necessities advanced to him. To be sure his standard of living is low, but is adapted to his means, and it permits the accumulation of property. While the first generation makes no change in its manner of living, the second and third adopt American ways and increase their expenditures, but this is made possible by the previous savings of their parents.

Some people entertain the mistaken notion that the Italian is like Chinaman, in that he will save and starve for years for the sole purpose of returning to the fatherland with a little fortune, but the experience of the north with the Italian emigrant does not bear out this notion. Some Italians carry their savings back to Italy, but by far the greater number of them live and die in their adopted country, becoming naturalized and rearing their children as true Americans. The children, grown to manhood and womanhood, are in every sense assimilated.

There is also a notion in some quarters that the Italian is quarrelsome, treacherous and criminally inclined. On this head this writer says:

While a few criminal Italians come to this country, they would never be induced to go to country districts. Violence among Italians is largely the result of overcrowding and the close competition of city life. Italians never harm Americans. They have a great respect for the law which in this country tends to modify their primitive methods of ending disputes. Hammonton is free from crime, and from the fear of crime. Italians never burglarize houses, even when known to be empty. Americans are never afraid to meet them alone, day or night.

The Italians who come to the south are not the Italians who cling to the slums of large cities, but the peasant farmers of Italy, used to nothing but honest outdoor industry. It does not take them long to become Americanized. "Italians become enthusiastic Americans," says the same authority. 'No nationality, when once it breaks its ties to the home land, is more anxious to adopt American ways. The children do not care to speak Italian. They demand the freedom of American children; they adopt their dress, their ideas and their ambitions.'

Let us learn more about the Italian before condemning him as undesirable as an immigrant.

Mason and Dixon's Line Restored.

The pharse "Mason and Dixon's line" played so prominent a part in the protracted controversy over slavery which culminated in the civil war, and lends itself so readily to discussions even at this belated date, that it has become one of the most historically significant in our national etymology. While it can hardly be asserted that the boundary, as originally marked out, constituted a literal line of demarcation as between the sentiments and sympathies of north and south, it supplied a convenient generalization and was probably as nearly accurate as the peculair conformation of geography and opinion then permitted.

A reminiscent flurry will follow the announcement that for the third time the old line has been surveyed, and that it now runs along the original parallels marked by the same stubby stone posts sent from England in 1763. This third and most recent survey was of the most peaceful disposition, being inspired by motives of patriotism and a sentiment we are glad to recognize in this day of universal preoccupation.

Year by year farmers and other citizens dwelling along the route have been thoughtlessly appropriating the historic markers to their own use. This unthinking vandalism continued and of the original monuments only a few remained at scattered intervals to indicate the one-time course of the first survey. Determined to recover these markers, if possible, and restore the ancient boundary for future generations, the legislatures of Pennsylvania and Maryland appointed joint commissions charged with the task. This was no easy one. The depredations had extended for a range of nearly a century and a half and the stones had become widely scattered and in some instances completely absented themselves from reliable records.

The commission was patient, however, and as the result of their endeavors the line stands as marked originally. At every fifth mile is a stone with the arms of the Baltimores on one side, and on the reverse those of the Penn family. The individual milestones are indented by an "M" on one face and on the opposite a "P." So painstaking and thorough was the search for all these monuments that substitutions are few and far between—of insufficient occurrence to affect the accuracy or the sentiment pertaining to the original boundary.

The line was originally surveyed to quiet disputes and actual clashes which had occurred between Pennsylvania and Maryland for almost a century. Work was begun in 1763 by Jeremiah Dixon and Charles Mason, two of the most distinguished surveyers of their day. Their work was greatly impeded and finally stopped by the obstacles of the wilderness and lastly hostile Indians. Other hands completed the task in later years.

The wonderful modernization of that particular portion of America since the original survey of the line emphasizes almost startlingly the position of the United States as an historical and international paradox. Since the first setting of the line and the present day, comparatively little time has elapsed—as time is measured by the birth and growth to full maturity of nations; yet within that relatively brief period one of the world's greatest powers has been carved out of the wilderness primeval which balked the cunning and persistence of the two British engineers. History holds no parallel, at least as regards majesty and magnificence of achievement.

The other notable and gratifying feature in connection with the recent announcement is the absence of bitterness or contention with which the nation now approaches the phrase—"Mason and Dixon's line." Once a red flag to incite fierce argument and fratricidal strife, it has come to possess a significance of the mutual inheritance of the entire nation. And the line itself has been restored to its original complexion through the joint labors of two states which, in all the chapters enacted with the famous strip as a background, have been silhoutted in dramatic and portentuous roles.

Granddaddy's Philosophy.

'Bout a mile from the town wus my granddaddy's farm—
To a lad of a boy it wus big as a world;
In the deep of the noon, when the weather wus warm,
An' the heat like a stove, an' the cotton was curled,
Did my granddaddy sit in his split-bottomed chair,
With a wheezenish pipe an' a cloud in the air;
Should the folks in the house, an' the neighbors begin
Fer to pry into all of the scandal an' sin:
Through the years come the words that my granddaddy spoke
(As his pipe gave a wheeze)—from a column of smoke—
"Pick the beam—Let the mote of the others alone,
Fer the world all the better an' better is grown' "
(An' a column of smoke an' a wheezin')
—an' he—
Thought the world jist as good as it "usen" ter be!

When the cotton wus low, an' the farmers wus blue
An' the craps in the grass an' the rain wudden stop,
Then my granddaddy waded the water, to view
All the stuff in the field—He was sure of a crop;
An' he'd whistle a "HIME" as he'd smilingly say,
"When the rains is the hardest the surer the hay."
When the craps wus a wiltin', a needin' the rain,
An' the times wus the bluest, he whistled again,
An' he cheered up the man with the sorrowful eye.
"When the yield is the lowest the cotton is high;
Better trust in the Lord fer the rain as of old,
Better wait till the harvest is gathered an' sold;
As I think of the craps of the past," reckoned he,
"Thar's a much better yield than thar usen ter be."

"Fer a man gittin' drunk an' abusin' his wife—
Fer a wife runnin' off with a lover—ahem!
Thar's a million a leadin' a peaceable life—
But the folks ain't a printin' an scandallin' them.
When a man starts to jedge of his neighbor an' sin,
Better look at the glass of his cabin again."
(An' a puff, an' the circles like phantasies spring)
"Better think of the rocks that the others kin fling
Better sweep at the front of his door"—
(An a wheeze—
Of the pipe)—"It's the people a-loafin' that sees
Whut the folks is about, an' the people that go
With an eye an' a nose fer a scandal, that know.
An' the house 'thout a corner fer raggedy clothes,
Is the house whar the folks never stay, I suppose!

Leave the closets of life ever closed, if you can—
There is good in the vilest, the sorriest man!
There is bad in the best, an' its needless to try
Fer to make a sin worse, at a skeleton pry;
Fer the throwin' of salt never bettered a man."
(Here a puff)—"Fer a slave is a much better plan
Better seek fer the good—fer a-huntin' the bad
Is the sorriest bisness a man ever had!
Fer the world that is sotted an' spotted with sin
Is the best sorter worl' that we ever wus in!"

"Old bridge, your work is noble,
Your pillars are strong and true;
Your piers reach under the river,
And your towers kiss the blue.
As long as men shall labor,
As long as women shall love,
The bridge will bear its burden

CHANCELLOR HILL SPEAKS TO THE GENERAL ASSEMBLY

At noon the house and senate met in joint session in the hall of the house, under a resolution by Mr. Calvin, of Richmond, to hear an address by Chancellor Walter B. Hill, of the University of Georgia, on education and on matters in general pertaining to the university.

President West, of the senate, presided over the joint session, and after the reading of the resolution, President West, in a few well chosen words, introduced Chancellor Hill to his audience. Governor Terrell and other statehouse officials were present.

Chancellor Hill began by calling attention to Georgia's priority in matters of education. Georgia has the oldest university of any state in the union; Georgia had the first college for the education of women, Wesleyan, at Macon; the first bequest ever made in the country for agricultural education was made by Dr. William Terrell, of Georgia, to the state university; Georgia was the first state to recognize in a material way the necessity for normal training of teachers.

Georgia could boast of many other priorities in matters of education, he said, but Georgia took a backward step in 1877, when, under the new constitution, college endowments became subject to taxation, whereas this had not been the case before. He said he knew he was going contrary to the views of some of his warmest friends, but he considered this tax a great mistake. He did not believe it had gone into the constitution surreptitiously as some one had said, but no general attention was called to it at the time and it was not even debated in the convention.

A tax upon college endowments, Chancellor Hill declared, is a tax upon the windows of the human soul. He stated that under this tax, Emory and Mercer colleges were compelled to pay to the state every year enough out of their income to pay the salary of a full professor.

Tax Is Inconsistent.

The colleges are created, Chaancellor Hill said, to carry out one of the purposes for which government was established. To put a tax upon them, therefore, was inconsistent. College endowments should no more be taxed than should churches or places of burial; they were used solely to carry out one of the important objects of government.

There was no real evil, he said, in the argument that the Roman Catholic or any other church would roll up a great endowment which it would protect from taxation; it was a phantom, a ghost.

The University of Georgia, he said, means more than the institution at Athens. The law makes the common school system a part of the university. There are many institutions over the state which are parts of the university. The unique feature of the university was that all these branch institutions are under the control of one board of trustees. This was the feature about the university which had most attracted his great friend, George Foster Peabody, of New York.

Chancellor Hill urged the importance of the $5.000 appropriation asked for the school of mines at Dahlonega, and the necessity for a new building at the Georgia Normal and Industrial College at Milledgeville, for which $25,000 had been asked. Chancellor Hill thought that some institution of higher learning should be located in South Georgia.

Agricultural Education.

Chancellor Hill next spoke of agricultural education. He commended the teaching of agriculture in the common schools which was instituted only two years ago. The child must get a foundation before he can take a high school or a college course. He told of the great work which Mr. Peabody had done in behalf of the university and of education in Georgia.

Chancellor Hill said forty-eight states in the union had agricultural colleges under the Morrill fund. Of these twenty-four are connected with state universities, seventeen are separate and equal, were in states having no universities, was a curious fact that in those states where the institutions were consolidated there had been agitation to get them apart, and where they are apart, efforts are being made to get them together. Statistics collected by Mr. Calvin, of Richmond, showed that seventy-three per cent of those attending institutions of higher learning in the state were sons of farmers. It could not be argued, therefore, that the farmers were not interested in higher education.

At the conclusion of his address, which was listened to most attentively, there was much applause. The joint session was then adjourned.

CAN BE PEACE JUSTICE AND LEGISLATOR, TOO

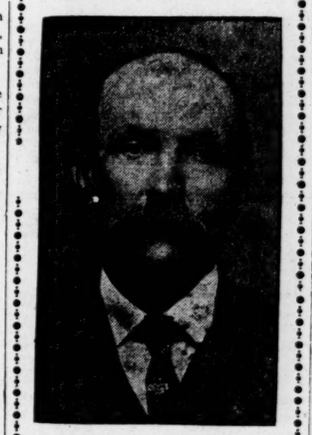

A short time ago, since he took the oath as a member of the house of representatives from Forsyth county, Hon. A. H. Woodliff, who is a notary public and ex-officio justice of the peace in the New Bridge district of Forsyth county, performed the marriage ceremony for a young couple living in his neighborhood—Mr. W. H. Mathis and Miss Roxie Scroggins. Somebody raised the question as to whether Mr. Woodliff could legally hold both the office of justice of the peace and representative at the same time, under the law prohibiting the holding of two offices, and when Mr. Woodliff returned to Atlanta he called on Attorney General Hart to satisfy himself on this point, though he was reasonably sure the man who raised the question was wrong.

Mr. Woodliff, of course, was right. The state constitution specifically provides that justices of the peace may be also members of the legislature. The question is definitely settled by paragraph 7, section 4, article 3, of the constitution, which says:

"No person holding a military commission or other appointment or office, having any emolument or compensation annexed thereto, under this state, or the United States, or either of them, except justice of the peace and officers of the militia, shall have a seat in either house."

This definitely determines the matter, and, as will be seen, Mr. Woodliff is well within the provisions of the law.

Mr. Woodliff at one time held the office of justice of the peace in the New Bridge district for twelve years successively, and then he declined reelection, but a little more than two years ago his district was divided, and he was again elected by the grand jury as ex-officio justice of the peace.

HON. A. H. WOODLIFF.
Flowery Branch, Ga., Representative from Forsyth County.

As a justice of the peace, Mr. Woodliff has rather a remarkable and interesting record. Since he has held his present commission Judge Woodliff has never collected a cent of costs. Doubtless there are few, if any, of the 3,000 odd justices of the peace in the state who can make a similar statement. Judge Woodliff's court records are as clean as the day when he took them out of the office of the ordinary. The reason for this is that Judge Woodliff makes a practice of getting litigants together and urging them to settle their disputes out of court, in this he has been pretty nearly always successful, as a result of which his popularity has grown and spread throughout the section in which he lives and wherever one knows him. Another result of this is that people seek Judge Woodliff for advice just as they would a lawyer. He says he simply applies common sense to legal questions when they are raised, and nine times out of ten he has found this to be the surest way of determining a disputed point.

As a forger of matrimonial bonds Judge Woodliff has also added widely to his reputation. It is commonly said in Forsyth that he has married more couples than any other justice of the peace or any minister of the gospel in the county.

"And the best thing about that feature of it," said Judge Woodliff when asked about his marriage record, "is that not one of the couples I have married has ever been divorced."

Mrs. V. T. Sanford's Relatives.

Editor Constitution: Will you give place in the columns of your paper to thus correct the impression sought to be made that Mrs. V. T. Sanford, as quoted in one issue of your paper in an interview with Mrs. Sanford, is alone and without relatives, which is not a fact.

She has a good Christian mother and an honorable step-father now living 7 miles east of Madison, Ga., owning their own home and out of debt, and all Mrs. Sanford would have to do would be to go to them for aid and it would be given to her.

I knew Mrs. Sanford from infancy until she married V. T. Sanford. Since this time I have never met her. I also know V. T. Sanford and he came from one of the noblest families of Georgia. I served in the confederate army with T. D. Sanford, uncle to V. T. Sanford, and a braver man in battle could no where be found. Pardon this intrusion. My purpose is simply to correct the impression sought to be made that Mrs. Sanford is without relatives.

Funeral of Democratic Nobleman Held in Brooklyn Last Night.

New York, August 4.—Funeral services were held last night in Brooklyn over the remains of Frederick Edmonde von Saldern, a third son of the noble house of Von Saldern of Germany, who came to America fifty years ago, made a slight change in his name and dropped all communication with his family. For many years he lived in Cincinnati, but some time ago established a fine home in Brooklyn, where he died.

Baron de Saldern was the son of General Charles Frederick von Saldern, and his great grandfather was chief aide to Frederick the Great. His family is one of the oldest in the empire. He was appointed a colonel in the army at the age of 14. Immediately afterwards the young man emigrated with his family as a result of his democratic tendencies, and, throwing up his commission, came to America.

On the death of his father Baron de Saldern inherited a fortune.

LIQUOR DEALERS' TAX WILL STIR UP DEBATE

Strong Efforts Will Be Made to Increase It to $1,000 or More.

CIGARETTE DEALERS' TAX RAISED FROM $10 to $25

Items in General Tax Bill Bring on a Lot of Talk in the House—The Most Interesting Sections Will Be Taken Up Next Week.

What tax ought the liquor dealers pay the state for the privilege of doing business will be the subject of the debate in the house of representatives on Monday.

Indications of a coming storm along this line were apparent at yesterday's session.

"I shall move to make the tax on both liquor dealers and dispensaries at least $1,000," Mr. Wright, of Floyd, gave notice.

"And I shall ask that it be made $2,000," said Dr. Flanders, of Johnson.

The preliminary discussion of the subject came up yesterday when Mr. Wright, of Floyd, offered an amendment to the general tax bill increasing the tax on social clubs which sell liquor to their members, from $200 to $500, and when Mr. Hall, of Bibb, wanted to know if he proposed to make clubs pay more than barrooms, Mr. Wright replied no; that he would ask that these be required to pay $1,000.

An interesting debate on this line will be forthcoming the first of next week. The result, as may be gathered, will no doubt give some idea of how the members of the house stand on the subject of prohibition, since such a tax would be, in a large degree, prohibitory.

The only important change made yesterday in the general tax bill was in the increase of the tax on cigarette dealers from $10 to $25 a year.

Liquor Tax Is Put Off.

The dispensary and liquor tax, at which point the house left off on Thursday, was first reached, but owing to the fact that it was about to precipitate a lengthy fight, it was passed over until next week.

Mr. Wright, of Floyd, gave notice that he would introduce an amendment to make the tax on dispensaries and liquor dealers $1,000, and Mr. Flanders, of Johnson, said he would propose to make it $2,000.

The question first came up on an amendment by Mr. Wright, of Floyd, to increase from $200 to $500 the tax on social clubs and on buffet cars which sell liquors. This brought on a brief debate. Mr. Hall, of Bibb, wanted to know where was the consistency in putting a $200 tax on barrooms and a $500 tax on social clubs.

"We propose to try to make the tax on liquor dealers and dispensaries $1,000," said Mr. Wright.

It was then decided to pass over all sections relating to taxes on liquors for the present, without action.

The taxes of $1,000 on dealers in futures, $25 on pistol dealers and $100 on dealers in and keepers of pool and billiardtables were adopted.

Stove Peddlers Must Pay.

Mr. Hall, of Bibb, moved to strike out the section putting a $200 tax on peddlersof stoves and clocks, on the ground that it was a prohibitory tax on labor. The general tax bill, he said, was no place for prohibitory legislation. Mr. Alexander, of DeKalb, also made an appeal in behalf of the stove and clock peddlers, but the house refused to accept their views and adopted the $200 tax as heretofore.

The house adopted the section putting a graduated tax upon packing houses and packing house agencies without debate. This section takes in all Georgia as well as foreign packing houses. The tax is $200 in cities with a population of 30,000 oromore; $100 in cities from of 30,000 or more; $100 in cities from 10,000 to 15,000; $25 in cities from 5,000 to 10,000 and $10 in all cities of less than 5,000. The bill forbids cities and counties from collecting any higher tax than is demanded by the state.

The house adopted the $25 tax on peddlers of patent churns and farm implements; the $10 tax on itinerant doctors, opticians and other specialists, and the tax of $300 on breweries.

Soda Fountain Sirups.

An effort was made to strike out the $400 tax on patent and proprietary soda fountain sirups and beverages, on the ground that this large tax was, in a measure, prohibitory and gave the manufacturers of coca-cola a practical monopoly.

"Will you put a tax of only $300 on business and $400 on these little manufacturers of soda fountain sirups?" asked Mr. Hall, of Bibb.

Mr. Wise, of Fayette, said some of the members of the ways and means committee thought these soda fountain sirups were more deleterious than beer.

The section was adopted with the $400 tax, just as it stood last year, and with comparatively little debate.

The $100 tax on pawnbrokers and the $50 tax on commercial and collecting agencies were adopted.

As to Slot Machines.

Mr. McMichael, of Marion, wanted to increase the tax on slot machines from $2.50 to $50 on the ground that many of them were gambling machines. This brought on quite a spirited debate, during which it was shown that it was against the state law to operate any gambling slot machine, this having been decided by the supreme court. The tax on slot machines was then adopted as it stood last year: $2.50 on slot machines that distribute merchandise and $5 on each machine that supplies music or presents pictures.

The $100 tax on detective agencies was adopted.

Cigarettes Increased.

After a little contest the house adopted by a vote of 62 to 49 an amendment increasing the tax on dealers in cigarettes and cigarette papers from $10 to $25. Mr. Alexander said it was purely a revenue measure as he believed all dealers would pay it. Mr. Wilcox, of Irwin, thought it would also decrease the consumption of cigarettes in the state.

The house adopted the $50 tax on baseball and bicycle parks. This tax is only $25 in cities of 10,000 inhabitants or less and $5 in cities and towns of less than 3,000.

Considerable objection was raised to the $200 tax on wholesale bottling works whichbottle soda fountain drinks, on the ground that this would run a large number of small concerns out of business. The section is a new one entirely and is said to have been aimed principally at the coca-cola bottling concerns. During the discussion of this section the general tax bill was withdrawn from consideration by the house and will be taken up again on Monday.

W. and A. Extension.

Mr. Alexander, of DeKalb, introduced a resolution making his bill providing for an extension of the Western and Atlantic railroad to the seacoast, the special order for next Tuesday, August 8. The bill was given practically a unanimously favorable report by the Western and Atlantic committee. The resolution was referred to the committee on rules.

Several Bills Passed.

The following bills were passed by the house:

By Mr. Maxwell, of Twiggs—To establish the city court of Jeffersonville; also a bill to abolish the county court of Twiggs county.

By Messrs. Duggan and Walker, of Washington—To repeal an amendment to the act creating the city court of Sandersville; also a bill to amend the city court act.

By Mr. Alford, of Worth—Two bills providing for the creation of a new city court of Sylvester.

By Mr. Swilling, of Franklin—To establish the city court of Carnesville; also a bill to repeal the former act establishing the city court of Carnesville.

By Mr. Rainey, of Terrell—To amend the charter of the city of Dawson.

New Bills in House.

The following bills were introduced:

By Mr. Green, of Cobb—To amend section 2259 of the code so as to segregate the races on street cars.

By Messrs. Hall, Davis and Felder, of Bibb—To establish a county convict farm in Bibb county; also a bill to amend the act creating the county commissioners of Bibb.

By Mr. Cureton, of Dade—To abolish the county court of Dade county.

By Mr. Moore, of Cherokee,—To exempt physicians and surgeons from witness only in certain cases.

By Mr. Moore, of Cherokee—To exempt household and kitchen furniture from taxation.

By Mr. Moore, of Cherokee—To amend the charter of Bail Ground.

By Mr. Cureton, of Dade—To amend the charter of Trenton.

By Mr. Moore, of Cherokee—To provide compensation for expert witnesses.

By Messrs. Holder et al., of Floyd—To give animal breeders right of recovery by attachment in certain cases.

By Mr. Jackson, of Jones—To incorporate the town of Haddock, in Jones county.

Afternoon Session.

An afternoon session of the house was held yesterday at 3 o'clock for the purpose of transacting certain routine business, such as reading senate bills the first and second time, and house bills a second time. No bills were passed, but the following new measures were introduced:

By Mr. Anderson of Chatham—To empower the mayor and aldermen of Tybee to sell certain property.

By Mr. Anderson of Chatham—To authorize the mayor and aldermen of Tybee to close Main street.

By Mr. Wise of Fayette—To amend the act creating the city court of Fayetteville.

By Mr. Nowell of Walton—To amend section 4045 of the code.

By Mr. Wilcox of Irwin—To amend the charter of Fitzgerald.

MISSIONARY ASSOCIATION.

Organization Was Formed Thursday Night To Forward Mission Work.

There was organized Thursday night, at a meeting held in the Young Men's Christian Association hall, at which some hundred persons of local prominence were present, a Young Peoples' Missionary Association, which is expected to accomplish much for the missionary spirit of the city.

Rev. Lynn R. Walker, the pastor of the West End Presbyterian church, was made chairman of the meeting and Dr. Marion Hull was elected chairman of the temporary executive committee. The organization is to be known as the Atlanta Co-Workers of the Young Peoples' Missionary Alliance.

A number of people interested in the missionary movement in this country came from other cities to attend the meeting Thursday night. It was a remarkable meeting in many respects. The utmost enthusiasm was displayed at all times throughout the meeting and the speakers were often interrupted by prolonged applause.

It is the present intention of the missionary organization to hold this fall—probably early in October—a missionary convention, at which it is hoped there will gather missionary workers of prominence from all over the south, at least.

ANOTHER JUDGE FOR ATLANTA

Senate Passes Bill Providing for an Extra Judge.

Is a General Measure, but at Present Applies Only to Atlanta—Preliminary Skirmish on the Child Labor Bill—Senate Routine.

Several important measures were passed by the senate yesterday before going into joint session with the house to hear Chancellor Walter B. Hill.

A bill by Senator Blalock, of the thirty-fifth, of considerable local interest, providing for the election of extra judges in certain judicial circuits, was passed.

This is a general measure, but at present will relate only to the Atlanta circuit. The bill provides for the election of an extra judge where the population and business of the circuit demands. There was some opposition to the bill, but when the vote was taken only four or five senators cast their ballots against it.

Senator Wheatley's military bill providing for a codification of the military laws of the state was passed.

The only material changes in this law from the old relate to the term of service in the militia, which is made two years instead of one. The bill also makes it a misdemeanor for others than members of the state militia to have military property. This feature is modeled after the United States military laws. The measures increases the power of regimental courts.

New Bills.

Indicative of the fight which is soon to come on the floor of the senate on the child labor bill was a little preliminary skirmish yesterday when the bill was read for the first time in the senate. A motion was made by Senator Miller to have the bill referred to the general judiciary committeen. Senator Hand immediately offered as a substitute that the bill be referred to the committee on immigration and labor, contending that this was the proper committee to consider the measure. Some discussion was attempted on the motion to refer, but President West sustained the pointed of order raised by Senator Steed that a motion to refer is not debateable. A vote on Senator Hand's substitute was taken and the motion carried.

The senate committee which will have charge of the bill is composed of Senator McHenry, chairman; Senators King, Bloodworth, Miller, Hand, Fitzgerald, Copelan, Foy, Bunn, Lumsden, Peyton and Carswell.

Favors Merchant Marine.

Senator Copelan's joint resolution calling upon congress to pass some measure to provide for the building up of the merchant marine of the country was passed bythe senate yesterday.

Senator Copelan contends that with the opening up of the Panama canal, which will be of the greatest importance to the southern states, that it is essential to the prosperity of the cotton producing sates that ships belonging to the people of the United States should carry the commerce of the country.

The resolution in full follows:

By Senator Copelan, of the nineteenth:

"Whereas, the carrying trade of the people of the United States has greatly decreased in the last forty years and the commerce of the world is mostly carried by foreign ships to the great disadvantage of the people of the United States; and,

"Whereas, the opening of the Panama canal will be of the greatest importance to the southern states; and,

"Whereas, it is essential to the prosperity of the cotton producing states that ships belonging to the people of the United States should carry our commerce to foreign countries in order that we may have the benefit of the trade with said countries;

"Therefore, be it resolved by the senate and house of representative of the state of Georgia, first, That we favor the passage by congress of some measure to build up our merchant marine and give us prestige on the high seas.

"2. That we recommend that the senators and members of congress from Georgia favor some just and equitable measure that will accomplish the above results.

"3. That the governor of this state furnish to each senator and representative in congress from Georgia a copy of the resolutions."

A bill was introduced in the senate yesterday by Senator Crum providing for an increase in the salary of the state entomologist from $1,500 to $2,000 a year.

Bills Passed.

The following bills passed the senate yesterday:

By Senator Strange—A bill to authorize the ordinaries of the state to have estates of idiots, lunatics or insane persons managed or sold and income applied to the maintenance of children.

By Senator Blalock—A bill to provide for the election of additional judges in certain judicial circuits.

By Senator Miller—A bill to provide for amending the law relating to affidavits.

By Senator Wheatly—A bill to codify the military laws of the state.

By Senator Copelan—A resolution requesting congress to pass the merchant marine bill.

House Bills Passed.

By Messrs. Holder, Porter and Wright of Floyd—A bill providing for amendments to the dispensary law of Rome.

By Mr. Walker of Monroe—A bill to amend an act providing for commissioners of roads and revenues of Monroe county.

By Messrs. Mayson and Alexander of DeKalb—A bill to authorize the town of Kirkwood to provide for a system of public schools.

By Mr. Williams of Laurens—A bill to incorporate the town of Rentz.

New Bills.

By Senator Crum—A bill to increase the salary of the state entomologist from $1,500 to $2,000.

By Senator Crum—A bill to provide for working the convicts on the public roads of Dooly county.

By Senator Peyton—A bill to provide for the removal of obstructions of all kinds other than booms or dams in runnings streams in Georgia.

By Senator Wilcox—A bill to create Northen county from the counties of Irwin and Wilcox.

ANTI-CIGARETTE MEASURE GIVEN HEARTY APPROVAL

It begins to look very much as if there might be some anti-cigarette legislation by the present general assembly. The house of representatives showed yesterday that it was not such a warm friend of the cigarette when it voted by a good majority to increase the tax on cigarette dealers from $10 to $25 a year. Mr. Alexander, of DeKalb, offered the amendment to the general tax bill under which this action was taken, and stated he offered it purely as a revenue measure because he believed practically all of the present dealers would pay it, and the result would be a larger revenue to the state. At $10 the cigarette tax brought into the state treasury last year $7,500. At $25 it is believed it would bring in at least $15,000 and perhaps more.

Following this increase in the tax the house committee on temperance made a favorable report on the bill by Mr. Porter, of Floyd, and Mr. Corn, of Towns, to prohibit under heavy penalty the manufacture, sale or giving away of any cigarettes, or cigarette papers in Georgia, and recommended that the bill with a few minor amendments, be passed. As will be remembered, Mr. Corn was the author of a bill making it a misdemeanor for anyone to be caught smoking a cigarette in Georgia. The temperance committee held a hearing on both the bills by Mr. Porter and Mr. Corn, and the result was a substitute bill embodying the ideas of both of them, and prohibiting the sale or giving away of any cigarette papers in the state. Both Mr. Corn and Mr. Porter take a most optimistic view of the chances of this legislation, and express the belief that it will go through the house without much opposition. They are hopeful of getting the measure up at the present session, and they are already doing some hard work in its behalf.

Immigration Bill.

The house committee on immigration yesterday submitted to the house a favorable report on the bill, by Mr. Lawrence, of Chatham, providing for the appointment of a state commissioner of commerce and immigration, and it is said the measure will meet with considerable favor when it comes up for consideration.

This bill provides for the appointment of a commissioner at a salary of $2,000 a year who shall have charge of the department of commerce and immigration, with offices in the capitol building. An idea of the duties of this official will readily be gathered from the title. Georgians have long desired to secure a desirable class of immigrants, particularly from the states of the west, and more recently attention has been turned to the matter of foreign immigration with a view to securing for this state some of the best of foreign immigrants. The matter has been freely discussed from time to time, and there was a bill providing for such a department before the last general assembly, which, on account of a lack of time, could not be acted upon. The present measure, it is expected, will come up for consideration at an early date.

Burglar Alarm Is Wanted.

A unanimously favorable report was made to the house yesterday by the committee on banks and banking, of which Mr. Ashley, of Lowndes, is chairman, on the bill by Mr. Barksdale, of Wilkes, providing for establishing in the state treasury department at the capitol, an automatic electric burglar alarm. With this system established in the treasury offices, it is said they would be absolutely safe from attack by the most expert gumshoe and jimmy men on the road.

The Vagrancy Bill

The bill passed by the senate relating to vagrancy will be read in the house the first time this morning.

The bill is in the form of a substitute bill for those of Senator Miller, of the Twenty-fourth, and Senator Adams, of the Twenty-eighth. It defines vagrancy, and sets forth the classes of vagrants, as is done under the existing Calvin law. It strikes out the bond clause from the Calvin law, and makes vagrancy punishable as any other misdemeanor. It provides for the payment of costs in vagrancy cases; and on prima facie evidence of guilt it sifts the proof to the contrary on the accused.

Speaking of the bill, Senator Adams said yesterday:

"The substitute bill, as it passed the senate, is not altogether satisfactory to me. It omits the provision of the Calvin law that the showing of bona fide defense. That provision, I think, ought to be retained. I am doubtful whether or not the provision shifting the burden of proof should be in the bill. My idea is that there is nothing the matter with the existing Calvin law except the bond clause, and the failure to provide for costs. My bill simply sought to amend the Calvin law by striking out the bond clause and making the penalty as for a misdemeanor, and by providing for the payment of the costs. With these amendments, in my judgment, the law would be operative, and vagrancy would cease to be the evil that it is in Georgia. The legislature owes it to the state to so amend the law at this session."

Big Increase Is Shown.

The one hundred and one counties whose tax digests have been received at the office of the comptroller general show aggregate net gains of $20,104,347, according to figures compiled yesterday by Captain W. H. Harrison, chief clerk of the office.

None of the counties in which the large cities of the state are located have as yet sent in their digests, and Captain Harrison now feels practically certain that his first estimate of a total net gain for all the counties will prove to have been too low. He estimated the aggregate gains for all the counties at $25,000,000.

The digests of five counties reached the comptroller generals office yesterday. The five counties and the gains shown in each were as follows: Muscogee, $344,435; Charlton, $168,155; Appling, $348,718; Twiggs, $26,904, and Butts, $216,292.

Puckett Extradition Case.

The question of whether or not Governor Terrell should issue his warrant permitting the extradition of W. A. Puckett to the state of Tennessee on a charge of car breaking and larceny, was yesterday presented to the governor by several attorneys at law.

Puckett is charged with having broken open a freight car in Chattanooga and stealing goods therefrom. He is now, however, in the Tower in Atlanta, held on a writ of lunacy. It is claimed that he is insane.

The requisition case was argued before the governor at 4 o'clock yesterday afternoon, Lamar Rucker, of Atlanta, representing the parties desiring the extradition of Puckett and John W. Cox, of Atlanta, representing the defendane. Governor Terrell held up his decision until this morning.

Madison Davis Pardoned.

Madison Davis, who was convicted in Fulton county in April on a charge of larceny and sentenced to eight months in the chaingang, was yesterday accorded executive clemency by Governor Terrell. Davis is young, has been an industrious and well-behaved prisoner, and has made restitution of the articles purloined. His sentence was commuted to present service.

Another Arbitration.

P. D. Daffin, of Savannah, has been appointed to represent the Sylvania Central railroad in its arbitration case, and Railroad Commissioner Joseph M. Brown has been named as the state's representative on the board. Commissioner Brown yesterday wrote to Mr. Daffin asking that they have a meeting one day next week.

The arbitration board considering the Seaboard case has not as yet reached a conclusion. The board which will consider the Atlanta and West Point case will convene at the capitol this morning.

To Hear Jack Bone Case.

The prison commission will take up the case of Jack Bone, who is under sentence to hang in Floyd county on August 25. The contention is made that Bone is insane, and if the commission should find him to be so, and should find that he had probably been mentally deranged at the time he committed the killing for which he is to hang, they will make some recommendation to the governor that will probably result in saving Bone's neck from the hangman's noose.

Ordinary of Bryan.

Hon. Julian H. Harvey was yesterday commissioned by Governor Terrell as ordinary of Bryan county to succeed the late Judge W. G. Gill, by whose death the office was recently made vacant. The commission was forwarded to the new official at once.

Bill Is Approved.

One more bill was yesterday approved by Governor Terrell, this being a local bill by Messrs. Martin and Adams, of Elbert, to amend the charter of the city of Elberton.

Military Affairs.

Chairman Foster, of the senate committee on military affairs, was very much gratified at the action of the senate yesterday in passing the military bill introduced by Senator Wheatley.

In speaking of the matter, Senator Foster said:

"There is no reason in the world way Georgia should be behind the other states of the union in her militia. The bill, as passed, brings the laws of the state into accord with the military laws of the United States. No material changes are made in the old law; the new law simply being more modern and up to date. The bill itself, of course, carries no appropriation, it merely means the placing of the militia on a firm basis. I believe the bill will pass the house, as I see no reason why it should be opposed."

CHANGES IN SCHEDULE.

Action of Savannah in Quarantining Against Florida Hurts South Atlantic League.

Augusta, Ga., August 4.—(Special.)—The fact that Savannah has quarantined against all Florida points, as a precaution against yellow fever, will complicate matters in the South Atlantic League for the remainder of the season, it is feared, and necessitate, as in the Southern League, changes in the scheduled games yet unplayed.

The Augusta baseball owners are now against a serious question as to whether or not the team should be aallowed to proceed to Jacksonville for the three games to be played there Monday, Tuesday and Wednesday. If they go there it is declared that they cannot go to Savannah the latter part of the week, the next stopping point. The owners are adverse to tieing up the team, and will probably wire President Boyer for advice.

As is well known, Jacksonville is drawing very poorly since the death of Sunday baseball, and if the local club goes there and then is forced to surrender the games at Savannah, it will be a serious financial handicap, as Savannah is one of the paying points on road trips around the circuit. It is not believed that the Augusta team will go there unless assured that they will be allowed to make Savannah the latter part of the week.

The discussion of what provision will be made for the Jacksonville games, if Savannah insists on holding a strict quarantine against the city, is now going on. There are those who favor transferring the games to the other cities of the league. Others believe the team should b placed elsewhere for the remainder of the season. Columbus has been suggested, but the idea discarded, as it is too near Montgomery. Wilmington, N. C., is suggested. Charlotte is barred by the fact that it has a team in the Virginia-Carolina league. The consensus of opinion in Augusta is that the games should be played in the other five cities of the league. The Savannah quarantine remaining on against Jacksonville, it is probable that this course will be adopted.

TWO BOYS MAKE ESCAPE.

Pink Gentle and Charley Bone Run Away from Fulton County Industrial Farm.

Pink Gentle and Charlie Bone made their escape yesterday afternoon about 1:30 o'clock from the Fulton County Industrial farm, going away from the farm in the direction of South river.

The two boys are about 16 years old and weigh in the neighborhood of 135 pounds each. Both have dark skin. Bone has a peculiar scar on his face. The two boys have their numbers on their clothing, Bone being No. 1 and Gentle No. 24.

COMMITTEE CALL FINDS RESPONSE

Merchants Quickly Interested in Advertising Plan.

A Large Number of Firms Have Subscribed $50 Each to the Movement, and the $2,500 That Is Needed Is Almost in Sight.

The merchants and manufacturers of Atlanta are responding readily to the call for funds, issued by the membership committee of the Atlanta Merchants' and Manufacturers' Association for the purpose of carrying on Atlanta's big "ad" campaign to be made this fall. New members are being put on the membership list every day.

It is the purpose of the association to spend $2,500 this fall for advertising the city of Atlanta, in five of the south's leading newspapers. Judging from the large subscriptions that have been sent in it will be but a short time before the association will have all the money needed to defray the expenses of the campaign.

The following firms have subscribed $50 each: Everett, Ridley & Co., Robinson & Co., Trultt, Silvey Hat Company, John Silvey Co., W. W. Stovall & Bro., Robinson Neckwear Co., Third national bank, Fourth national bank, Dobbs & Wey Co., McCord, Stewart Co., Kimball house, Piedmont hotel, J. K. Orr Shoe Co., Ernest L. Rhodes & Co., M. C. Kiser & Co., Atlanta Woodware Company, Gholstin, Cunningham, Spring Bed Company, and P. D. Baker.

Letters to Business Men.

Following is the letter being sent to the merchants and manufacturers of Atlanta by the committee of the association:

"Atlanta, Ga., August 4, 1905.—We were appointed as a committee at the meeting of the merchants and manufacturers of Atlanta held at the chamber of commerce Thursday afternoon to approach you for membership in the association formed for advertising Atlanta as the jobbing and manufacturing center of the south.

"Other cities, such as Lynchburg, Charleston, Richmond, Knoxville and the like, have organiaztions similar to this, and have made them pay very largely.

"We are planning to advertise in the principal dailies of the south with large full page advertisements regarding Atlanta's advantages and why merchants, as well as other people, should come hereto buy goodsand why they should trade with our people. Not only that, we also contemplate handling this through one office and of paying the railroad fare of merchants who meet the requirements entitling them to it.

"We intend to print thousands of circulars, little booklets, etc., regarding Atlanta's advantages, mentioning every company included in the list of members to this association, and send these folders to the customers of all other members of the association; also send out by the secretary of the association to all inquiries arising from the advertisements.

"The fund contemplated will cover seven full pages for advertising at different times through the year, and in the best daily papers through the south.

"The membership dues are $50 per year —$25 payable on demand and the other $25 about the 1st of January. You couldn't invest $50 better in any other way, nor could you, if you were giving it to any worthy cause, do better with it. It is a great move not only for the city of Atlanta, but for the individual interest of every business man in the city, and will pay for itself ten times over.

"Send your name to R. H. White, care Everett, Ridley & Co., who is chairman of this committee or telephone any member of the committee. Very truly yours,

"R. H. WHITE, Chairman,
"GORDON KISER,
"E. M. HUDSON,
"ALFRED TRUITT,

To Miss Phelan and Guests.

MISS McGOWAN PHELAN and her guests, Miss Lillian Stulb, of Augusta, and Miss Sallie Leonard, of Vienna, Ga., are a trio of lovely young girls, who are being entertained at a round of galeties.

They were complimented with a dance last evening at the Piedmont Driving Club by a number of young men. The ball room of the New York building was prettily decorated for the occasion and during the evening an elaborate supper was served.

About fifty guests were present and the event was one of exceptional enjoyment. Miss McGowan Phelan was unusually pretty in a gown of pale green mull. Miss Stulb was daintily gowned in white china silk and lace and Miss Leonard was attractive in a gown of pink crepe de chine.

Euchre Party.

MISS JULIA MEADOR will entertain at a pretty card party this morning at her home on Linden street in compliment to Miss McGowan Phelan and her guests, Miss Stulb and Miss Leonard.

A course luncheon will be served after the game and the guests will include Miss Phelan, Miss Stulb Miss Leonard, Miss Helen O'Brien, Misses Margaret and Leone Ladson, Miss Helen Murdock, of Texas; Miss Nina Gentry, Miss Rushie Ray, Miss Bessie Pope, Miss Virginia Park, Miss Claude Patterson, Miss Nannelle Crawford, Miss Margaret Hemphill, Miss Bell, Miss Marie Scipio, Miss Hattie Francis Gray, Miss Helen Bagley, Miss Aline Patterson, Miss Lottie Austin, Miss Gladys Levin, Miss Susie May Pope, Miss Sallie Cobb Johnson and Miss Elle Dargan

To Miss Mynahan.

MISS NELL NELSON MYNAHAN is being delightfully entertained as the guest of Miss Louise M. Boardman, of Jackson, Mich., recently of Atlanta. Among the many events given in her honor were trolley parties and moonlight excursions to the many lakes.

On Tuesday Miss Boardman entertained at a large euchre party in compliment to Miss Mynahan. Miss Boardman received her guests in a beautiful lingerie gown, looking very pretty and girlish. Miss Mynahan looked charming in a lacy pink and white silk chiffon. Bailey's orchestra played during the game, punch being served in the library by the Misses Lou Campbell and Josephine Boland. After the game, a delightful salad course was enjoyed, followed by ices, frozen in the shape of pink roses. The house was decorated in pink roses and palms.

Miss Boardman and her guest expect to spend several weeks visiting Detroit, Buffalo, Niagara Falls and New York.

Athletic Club Outing.

THE Atlanta Athletic Club swimming contest, which will be given at East Lake this afternoon, will have an enjoyable social side. The contests will take place on a course that will be in plain view of all the spectators in the pavilion and the finish line will be at the point of starting. The races will conclude about 6 o'clock.

A buffet luncheon will be served immediately after the conclusion of the sports, and later in the evening there will be dancing. A large crowd is expected, and full arrangements have been made for their entertainment.

The outings given by the athletic club are noted for the care and attention that characterize all the details of the entertainment, and the first swimming contest will be made particularly enjoyable by the other entertainments to be afforded the spectators.

Salamagundi Club.

Newnan, Ga., August 4.—(Special)—Miss Lucile Thompson entertained the Salamagundi club Wednesday morning in honor of her attractive guest, Miss Buchannan, of Opelika. Progressive dominoes was the game enjoyed, at the close of which a delightful salad course was served. The first prize was won by Miss Bessie Powell, consolation by Miss Freeman, and a box of candy was presented to the guest of honor.

Quite an enjoyable affair was the musical given Tuesday evening by Mrs. Z. Greene. Those who took part in the interesting program were Mrs. Peavy, pianist; Mrs. B. S. Drake, reader, and Mrs. Z. Greene, vocalist. Several visitors enjoyed Mrs. Greene's hospitality.

Baby Show at Marietta.

Marietta, Ga., August 4.—(Special.)—The Daughters of the Confederacy gave an entertainment in the city park Tuesday afternoon from 5 to 7 o'clock, the main feature being a "baby show."

There were 152 babies entered for the prizes. The array of the sweet little cherubs, the "dimpled darlings" of the various households in the city, was as pretty a sight as one need to want to see this side of paradise.

The number of beautiful children would have made President Roosevelt "delighted" if he had been present.

The judges who entered into deciding the prettiest baby had a hard task to perform, where there were so many beautiful children.

The judges were Professor T. L. Bryan, recently moved here from Dalton; Mrs. R. L. Branham, of Waycross, Ga., and Mrs. R. E. Whidden, of Arcadia, Fla.

The children were all tagged and numbered and no names registered, consequently when Professor Bryan read out the successful numbers there was such confusion that numbers 50 and 48 failed to respond.

Four prizes were offered, one to each for the finest looking child, including beauty, health, weight, color, etc., from one year of age and under, 1 year to 2½, from 2½ to 4 and from 4 to 6. Prizes were awarded in this group as follows: No. 48, Sarah Frances, daughter of Mr. and Mrs. George Northcutt; No. 50, not ascertained at the time; No. 111, Lillian, daughter of Mr. and Mrs. W. B. Seymour, of Hattiesburg, Miss., stopping at the Whitlock house; No. 61, Hattie, daughter of Mr. and Mrs. Joe J. Black.

There were two prizes offered for the "prettiest and daintiest," which were awarded to No. 48, Virginia, daughter of Mr. and Mrs. John H. Boston, Jr., and to No. 18, Lucile, daughter of Mr. and Mrs. Fred Hyde.

No. 50 is requested to report to Mrs. Leila Hall for prize.

The ice cream tables were liberally patronized and $53.00 was realized.

One of the prizes, a spoon, was given by Ed M. Cook; awarded to Virginia Boston, "prettiest and daintiest."

Table d'Hote Tonight.

THE regular table d'hote dinner given periodically at the Piedmont Driving Club, will be a pleasurable event this evening, as many as a hundred of the club members are to enjoy an al fresco repast on the club terrace. During dinner the orchestra will present the following programme:

March-two step, "Bright Eyes, Goodby," Van Alstyine and Schwartz.

"Mills' Merry Melodies No. 6," Kerry Mills.

Caprice, "Elfrida," Stix.

Selection from "La Perechole," Offenbach.

Valse intermezzo, "A Rose Leaf," Chambers.

"Nautical, "Fantasia," Tobani.

A selection by Andy, Kerry Mills.

Medley waltz, "Take a Car," Snyder.

Selection from "Little Johnny Jones," Cohan.

Two step, "Goodby, Sweet Marie," Kerry Mills.

Direction Mr. Charles T. Wurm.

After dinner there will be dancing in the New York building.

JAKE MENKO SERIOUSLY ILL.

Popular Atlanta Drummer in Critical Condition at Elkin-Cooper Sanitarium.

Jake Menko, one of the most popular drummers in the state, is seriously ill at the Elkin-Cooper sanitarium.

Mr. Menko had been suffering for some time before it was ascertained that he had yellow jaundice. All efforts to cure him of the malady were in vain, and finally it was decided to have an operation performed. Accordingly, he was taken to the sanitarium about ten days ago, and a few days later the operation was performed.

At first it was thought the operation had been successful, but there was a decided turn for the worse about three days ago, and now it is realized that he is in a critical condition.

Mr. Menko moved to Atlanta from Albany about a year ago. He is one of the best known men on the road, and a host of friends in all parts of the state will be grieved to learn of his serious illness, and hope for him a speedy and complete recovery.

THEATERS.

The Casino.

Matinee and night performances today will finish the engagements of the Lurline vaudeville aggregation that has cleverly entertained the largest gatherings of the season at the Casino.

There is no question but that the attraction has scored a hit almost eclipsing the famed Wells, Dunne, Harlan Company. The acts are of the highest class, and every one has scored an individual hit.

Lurline promises a surprise tonight, but just what it is to be the management is keeping secret.

Diana, the mirror dancer, the Pan American minstrels, and excellent vaudeville is the frame up for the Casino for the week that is to start on Monday, and the management is of the opinion that the new bill will be a most pleasing successor to the attraction that closes tonight. Seats are selling at the Grand box office.

SUES CENTRAL FOR 18 CENTS

Remarkable Case to Come Up Before Justice Ormond.

A suit for the recovery of eighteen cents, the price of a ticket from Atlanta to East Point, was filed in Justice Ormond's court yesterday morning against the Central Railway of Georgia. The suit is the outcome of an experience had by Attorney Paul Etheridge at the terminal station.

Friday morning, Mr. Etheridge accompanied a young ady, who had been visiting his family, to the terminal station, where she was to take the train for her home in Americus at 8 o'clock. It is against the rules of the station for anyone to pass into the train shed unless they have a ticket. Wishing to go with the young lady to her car, Mr. Etheridge purchased a ticket to East Point, for which he paid 18 cents. The ticket was stamped redeemable, and he intended to return it to the agent as soon as he had returned from his mission.

On returning from the train, to the agent's office, and demanding his money back, he was turned down by the agent. The latter declared that the ticket had been stamped by the gate keeper. Mr. Etheridge, after having a second request for his money turned down, went at once to the office of Judge Ormond, and brought suit against the Central of Georgia railroad. The trial of the case was set for the third Monday in this month.

The costs in the case will probably amount to over $40, but the attorney says he will gladly pay any amount in order that the question of principle involved in the case may be settled.

WAGON WHEELS CAUSE DEATH.

Fletcher Miller, of Barnesville, Run Over and Killed.

Barnesville, Ga., August 4.—(Special.) Fletcher Miller, the 17-year-old son of W. P. Miller, who lives near here, met sudden death this morning about 11 o'clock by being run over by a wagon loaded with wood.

He was driving the team across the Central railroad tracks at the crossing near the depot, when the mules became frightened and attempted to run. He slipped off the front of the wagon and became tangled with the traces. He finally fell under the wagon, and the wheel passed over his head, fracturing the skull at the base. He died in a few minutes.

GARBAGE SMOKE CAUSE OF KICK

Century Building Tenants Complain of Garbage Destroyer Smoke.

Complaint against the city incinerator and against City Market Inspector Wasser were two features of the meeting of the board of health yesterday afternoon.

The complaint against the incinerator was made by A. W. Martin, secretary of the Century Building Company, who stated that the odors from the plant were very disagreeable at times to tenants of the Century building.

F. L. Decarle, the inventor of the incinerator, reached the city yesterday for the purpose of investigating the reports published in newspapers to the effect that the plant was not destroying the garbage properly.

The incinerator, it will be remembered, was to have burned 200 tons of garbage a day. Officials of the sanitary department state that it will not do so during the summer months, as the garbage is mostly wet, consisting largely of melon rinds.

Mr. Decarle stated to the board of health that the incinerator is not being worked properly. He announced that he would inspect it. Incidentally he offered to sell the city another incinerator, and also to sell a catch basin cleaner, which will cost $3,000. The board members told him they would talk with him later.

The complaint against Inspector Wasser was made by J. A. Cherry, who submitted a bill of $20 for 500 watermelons, valued at 20 cents each. Accompanying the bill was a statement from W. P. Fain, who declared that Inspector Wasser had condemned the watermelons as unfit for use because he thought them too small. The board did not hear from Inspector Wasser, and deferred action until the next regular meeting.

Inspector Wasser, in his report, recommended that laws for the regulation of fish markets be adopted by the board, in order to make the market men keep their places clean, and to do away with the offensive odors that come from many of the markets. The board members thought such a measure would be excellent, and it is probable that an ordinance for presentation to council will be drawn within a short time.

RAILWAY NOTES.

Never before have the mountain summer resorts of Georgia and the Carolinas proven so popular as this year, according to the city ticket men in Atlanta.

"I have never seen in all my experience in this territory a greater exodus to the mountains during the summer," remarked a passenger man yesterday. "We are selling dozens of tickets to nearby resorts every day, although it is now really past midsummer. I am informed that many of the hotels at a short distance from Atlanta are full to the limit and that almost the same conditions exist all over the big and beautiful territory where one can find a cool and delightful place to escape the heat right here in the heart of the south."

A party of about forty from Carolina points passed through Atlanta yesterday en route to Portland, where they will take in the exposition and far western points of interest. The party came in over the Seaboard Air Line, by which road the trip was continued as far as Birmingham and from there on over the Frisco.

It is probable that about fifteen or twenty Georgians will leave Atlanta on June 13 to attend the big Eagles' convention in Denver. The Georgia delegation will travel over the Seaboard Air Line from Atlanta to Birmingham and thence via the Frisco and Rock Island.

Arrangements have been perfected for a movement of about fifty to one hundred delegates from Georgia to the convention of the National Negro Business League, which meets in New York about the middle of August. The Georgia delegates will leave over the Southern in special cars on August 14.

W. L. Tracy, master mechanic of the Louisville and Nashville at Louisville, Ky., is a visitor in the city. He formerly held a similar position with the Southern in Atlanta and has any number of friends in the city who have been giving him the "glad hand."

The Southern and Southwestern Railway Club will provide a fine barbecue for its members at the next regular meeting of that body to be held in Atlanta on August 17. The club is composed of men from the mechanical department of all southern roads and of representatives of the big supply houses. The club meets every three months and discusses matters pertinent to the business of the members. W. A. Love, of Atlanta, is secretary of the club.

The estimated earnings of the Nashville, Chattanooga and St. Louis for the month of July 1905, are $785,457.30, against the actual earnings of the same road for the corresponding month last year of $802,693.73. During the month of July last year, however, the exposition at St. Louis was in full blast.

R. E. Tate, of the New Orleans and Northeastern, with headquarters at New Orleans, is spending a few days in Atlanta. He has been on a short business trip to the east and as soon as his seven days away from fever-infected districts have elapsed he will start home. Mr. Tate was formerly with the Seaboard Air Line and still earlier with the East Tennessee, Virginia and Georgia with headquarters in Atlanta, and all his many friends are glad to have him in the city for a visit.

...the very first inning Smith was ...terlooed. Four safe hits, one of ...m a home run, was sufficient to give ...ttle Rock a lead of three runs and ...rn for the Georgia Peach a retire... ...to the bench.

...Bender, the first man to face the Fire...acker twirler, sent a long one to cen... ...or a bag. Gear followed with an... ...her safety. McCann bunted, but Smith ...obbled up the ball and tossed it to ...hird, where Bender was caught by the ...arrowest possible margin. With two ...en on the bases, Blake duplicated Staf...ord's feat of the first game, sending one ...own the third base line, which got ...ost in the grass, while three men ...cored. DeArmond followed with a sin... ...but the other men were retired.

...Burnum now took a hand in the fight ...and while he was somewhat wilder than ...sual, due in large part to his injured ...and, he easily held Little Rock down ...ntil the last inning, when, for a time, ...t seemed as if the score would be tied, ...t nothing more.

...Hurley singled to center, and Shie... ...ck and Accorsini both walked. Garvin ...was substituted for Chinn at the bat and ...ent a cutter toward third, which Mc... ...ay handled to second in time to dump ...ccorsini into the out column, Hurley ...coring on the play. Burnum now came ...o earth once more and fanned Bender ...nd Gear.

...Atlanta started to make up for lost ...round in the fourth inning, when, with ...ne out on a pop to catcher, Crozier ...oubled to right. Jordan hit to third ...nd on his error was safe at first, with ...n advance for Dick. Morse sent one ...o Third Baseman DeArmond, who toss...d to first to catch Whitetop. Crozier ...continued on his way, passing third ...and cutting for home. Hurley threw ...adly to the plate, and Crozier was ...afe at home.

...Atlanta tied the score and forged one ...n the good in the lucky seventh. Mc... ...Cay led off with a single past third ...base and went to second on a wild pitch, ...Fox going out on a pop to shortstop. ...Burnum fanned, and things looked ...black. Rickert was patient and walked. ...Then George Winters came into the ...arena with a safe hit which brought ...in a score. Stafford smashed a hot one ...through third base, and Rickert and ...Winters scored. Crozier singled to cen... ...ter and Stafford came in.

...In the eighth the game was cinched ...when Jordan walked and went to second, ...when Morse singled. Jordan did not ...stop, but made an effort to make third ...base. Gear picked the ball up on the ...run and tossed wild to third base, Jor... ...dan scoring, Morse going to third base, ...from which point he scored on a long ...fly out by McCay to center field.

...Fox, the new catcher for Atlanta, ...showed up in nice form. He looks a fair ...hitter, and is good at throwing to the ...bases. He caught two or three men ...trying to go the distance yesterday, but ...no man succeeding in the attempt.

SKATING RINK TO CLOSE.

Popular Amusement Place Will Be Dark Until September 15.

The skating rink on Peachtree street will close tonight at 10:30 o'clock for the remainder of the summer. The auditorium will be reopened September 15 after a number of important improvements and alterations have been made in the building.

It is the purpose of the Atlanta Skating Rink Company to keep the auditorium open during the entire winter until early summer, and the indications are that skating will be as popular when the rink reopens as it is now. A number of new features will be introduced during the winter months, and attractive programmes will be arranged.

The auditorium will be inclosed in brick, and will be properly heated during the winter. The building was so constructed that it can easily be inclosed. The manner in which it is ventilated has made it one of the coolest places in the city. The races on skates that have been conducted at the auditorium have created no end of interest. The last race of the present season will be run tonight, and will be a fast affair.

Fat Men Win Game.

Smithville, Ga., August 4.—(Special.)—An interesting game of ball was played here today between the fat and the lean men, the former winning, score 23 to 22. None of the participants had ever played before.

Covington 3, McDonough 2.

Covington, Ga., August 4.—(Special.)—Covington 3, McDonough 2, was the result of a 10-inning game here today, the second of the series. Batteries: Covington, King and Franklin; McDonough, Merrell and Wilson. Both pitchers pitched a fine game and were well supported. Umpire, Scoggins. Attendance, 400.

Good Games at Barnesville.

Barnesville, Ga., August 4.—(Special.)—Barnesville and Jenkinsburg are playing a series of three games of ball here this week. The series has proved interesting. The first, played Tuesday afternoon, resulted in a score of 7 to 3 in favor of the home team. The second, which occurred Wednesday afternoon, was won by the visitors by a score of 4 to 2. Good crowds have been attending.

Winder 6, Commerce 4.

Commerce, Ga., August 4.—(Special.)—Inability to connect with Segars couple4 with good batting by the visitors lost the game for Commerce today. Score, Winder 6, Commerce 4. Edwards, of the home team, was not in his best form and was batted for 11 hits. For Commerce, Ison played brilliant ball at second, accepting the most difficult chances. Coker for Winder, again played sensational ball in centerfield. The biggest crowd on record witnessed the game. Batteries: Winder, Segars and Delaprierre; Commerce, Edwards and Barber. Hits, off Segars 6, off Edwards, 11. Struck out, by Segars 5, by Edwards 5. Bases on balls, by Segars 2, by Edwards 1. Umpire, A. Smith. Attendance, 1,026.

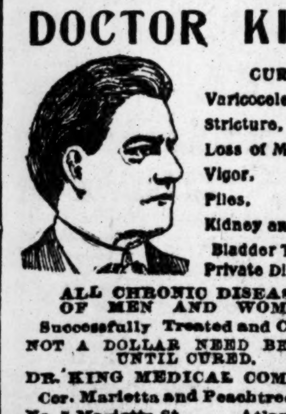

Durand Saw Cricket Match.

New York, August 4.—The British ambassador, Sir Henry Mortimer Durant, and Lord Harris, a famous English cricketer, were spectators at a two-day cricket match which began today between elevens of the Marylebone Cricket League at the grounds of the old Staten Island Cricket Club on Staten Island. Lord Harris was formerly under secretary for India and governor of Bombay.

Horseman Fatally Hurt.

Huntington, W. Va., August 4.—Captain William Croker, prominent hotel keeper and horseman, was fatally cut in an encounter today with E. H. Jergan, of this city; W. R. Ingram, and Walter Mayhew, of Ohio, all well known horsemen and an unknown jockey, who escaped into Kentucky. Eight others were arrested.

SCHEDULE COMMITTEE MEETS

Committee Will Decide on Future Residences of Montgomery, New Orleans and Shreveport.

Birmingham, Ala., August 4.—The schedule committee of the Southern League will meet in this city tomorrow morning to decide on places to which the home games of New Orleans, Shreveport and Montgomery shall be transferred. Because of the quarantine these teams will have to play all games away from home.

Meridian, Miss.; Mobile and Chattanooga have all asked to have games played there.

The committees will also take up the action of the Memphis team in leaving Montgomery when they were scheduled to play there Thursday, Friday and Saturday.

President Kavanaugh left Little Rock for Birmingham yesterday.

CLUB SWIMMING AT EAST LAKE

Athletic Club Will Give Water Sports This Afternoon.

Good water sport will be witnessed this afternoon at East Lake, when the Atlanta Athletic Club swimmers compete for the championship of the club.

This swimming contest was booked for last Saturday afternoon, but was postponed on account of a death in the family of one of the members of the club.

The first car for East Lake will leave Atlanta from the corner of Peachtree and Decatur streets at 3:15 o'clock. All the participants in the contest will leave on this car, so that the first event can be pulled off promptly at 4 o'clock.

The events will take place in this order: The mile swim, 50 yards on back, 100 yard swim, and 440 yard swim. Exhibitions of fancy diving will also be given.

Refreshments will be served about 7 o'clock to the members of the club and their friends. There is a good deal of interest in this contest and a big crowd is expected to be present.

The list of entries in the different events follows:

One Hundred Yard Swim—R. M. Freeman, Jr., B. J. Butts, Harvey Hill, Howard H. Arnold, T. J. Lyon, H. W. Brown, J. C. Maddox, H. F. Prescott, H. E. Moore, W. E. Ormond, R. H. Timmons, George Boynton II.

Four Hundred and Forty-Yard Swim—R. M. Freeman, Jr., H. E. Moore, William F. Parkhurst, J. V. H. Nash, P. B. Reed, H. F. Prescott, Paul Fleming, G. W. Adair, J. R. Compton, T. J. Lyon.

One Mile Swim—William F. Parkhurst, J. R. Compton, J. V. H. Nash, H. F. Scott, Jr., Charles R. Andrews, George Boynton II, H. E. Moore, A. F. Fitzsimmons.

Fifty-Yard Swim on Back—H. W. Brown, H. F. Prescott, Logan Clarke, T. J. Lyon, Paul Fleming, R. H. Timmons, G. P. Haynes.

PURCHASE MONEY WAS PAID.

Report That Money Has Not Been Paid for Raymond's Release Was Unfounded.

The report from Jackson, Miss., to the effect that the purchase money for Pitcher Raymond, of the local club, has not been paid, is denied by the local owners.

Raymond was purchased from Jackson for $500, the Atlanta club requesting Jackson to furnish him with a ticket to Atlanta. This was done and a draft from the Jackson owners for the entire sum due them for purchase and ticket has been paid by the Atlanta club owners.

Charlie Frank has paid Al Whitridge his salary, and notified him that his services are no longer needed. Whitridge has been in Atlanta for several days.

AIR SHIP RACE AT THE FAIR.

Management Is Now in Correspondence with Such End in View.

The people of Georgia will probably witness a big air ship race during the state fair.

Secretary Frank Weldon is now making arrangements for a race between the famous "California Arrow," operated by Leo Stevens, and the Knabshue air ship of Toledo, Ohio. The race will take place in Atlanta during the fair, and will be for a purse of several thousand dollars.

It has not been definitely settled that the race is to take place, but as both of the noted aeronauts have great confidence in their machines and their merits it is considered quite likely that the overtures of the fair management will be accepted by both parties, and that the race will be run or rather flown.

Secretary Frank Weldon is now in correspondence with the two principals, and is hopeful that within a very short time he can definitely announce that the race will take place for the benefit of the fair visitors.

The "California Arrow" is too well known to need comment. It was at the St. Louis exposition and is now one of the main features of Coney Island. Mr. Knabshue was also at St. Louis, but since then he has made a new air ship with which he recently flew three miles to the top of a designated building in his home city, Toledo, Ohio, and then flew babck again, lighting within thirty feet of the point where he started.

If the invitation to race in Atlanta is accepted, there is no doubt that the event will prove one of the most interesting of the kind that the state has ever witnessed.

ONO DEFEATS TOM FRISBIE.

Japanese Relied Solely on Jiu-Jitsu Against Strength.

Asheville, N. C., August 4.—In the presence of 2,000 people, Professor Ono, Japanese instructor of jiu-jitsu at the Annapolis Naval academy, defeated "Big Tom" Frisbie, of Madison county, N. C., in a mixed wrestling match at the auditorium tonight. The men were matched for the best two out of three falls, Ono securing the first fall in 1 hour and 12 minutes and the second in 35 minutes. Both falls were obtained with a strangle hold, Frisbie falling to the mat exhausted at the end of the second bout. It was brute strength against science.

The Jap weighed 207 pounds and is 5 feet 6 1-2 inches high, while Frisbie tipped the scales at 305 pounds and is 6 feet 5 1-2 inches high. The American used catch as catch can tactics, while the Japanese expert relied solely on jiu jitsu.

CONDITIONS BECOME WORSE.

Northern Pacific and Great Northern Are Badly Tied Up.

St. Paul, Minn., August 4.—Although conditions approaching a tie up have not yet developed as a result of the strike of the telegraphers on the Great Northern and Northern Pacific railroad, increasingly serious delays are being caused in the movement of traffic. The Northern Pacific Coast Limited, due at 6:20 this evening will arrive tomorrow at 7:40, more than fifteen hours late. The Twin City Express, on the same road, was nearly nine hours late. The Great Northern Flyer was three hours late.

What the outcome of the freight situation will be is problematical. Perishable freight was received today in many cases without prepayment and refrigerator cars started in an attempt to make local deliveries where possible. No guarantees are being made to deliver at points where stations have been closed.

SELLING PLATERS MADE UP EVENTS

Overnight Card Provided for Saratoga Sports.

Though There Were Several Close Finishes, the Class of Racing Was Nothing Above the Ordinary—The Track Was Fast.

Saratoga, N. Y., August 4.—A card of overnight events, three of which involved the efforts of selling platers, was provided for the public at this track today.

While there were several close finishes the class of racing was not of an exceptionally high order. The track was the fastest of the meeting. Lady Amelia covering six furlongs in the first race within three-fifths of a second of the track record.

August Belmont's Lord of the Vale won the All-age handicap handily, beating Au Revoir, the odds-on favorite, by three lengths. Three favorites won. Summaries:

FIRST RACE—Handicap, six furlongs: Lady Amelia, 124 (Lyne), 2 to 1, won; Rose of Dawn, 107 (O'Neill), 5 to 1, second; Incantation 102 (Knapp), 13 to 5, third. Time, 1:12 4-5. Ascension, Schulamite, Sly Bride and Kittie Platt ran.

AT READVILLE.

STRAIGHT HEATS WON BY THREE WINNERS

Readville, Mass., August 4.—Straight heats were the rule in the three events on the racing card at the Breeders' track today, and in each instance the winners outclassed their fields. A noteworthy feature was Gracie Keller entering the 2:10 list of trotters by gaining a record of 2:09¼, making four to enter the class at this meeting.

In the first heat of the 2:21 trot King Rock fell dead on the track at the head of the home stretch. He was leading at the half when he commenced to get bad gaited, falling back to third place when he dropped. He was owned by C. C. Abbott, of Keene, N. H.

Summaries:

2:10 trot—Gracie Keller won in straight heats. Time 2:10½; 2:09¼. Bonnie Russell, second; Promise third. Three starters.

2:12 pacers—Garrina, won, in straight heats. Time 2:11¾; 2:10½; 2:13½. Lizzie McChord, second; Katherine, third.

2:11 trot—Lizzie won in straight heats. Time 2:15; 2:16; 2:16½. Mysetta second; Bud third.

AT ERIE.

GOOD CROWD WITNESSED GET-AWAY DAY RACES

Erie, Pa., August 4.—Erie closed the Lake Erie circuit trotting meeting today with good weather and a good crowd. Summaries:

2:24 TROT—Jim Byard won first, second and fourth heats and the race. Time 2:22 1-2, 2:22 1-2, 2:22 1-4. Add took third heat and second place in 2:20 1-4. Hortense third.

2:19 TROT—Alvin won in straignt heats. Time 2:21 1-4, 2:18 1-4, 2:20 3-4. Chanito second; Fannie Reilly third.

2:20 PACE—Melva R. won last three heats in 2:18 1-2, 2:20 1-2 and 2:22. Ruby took second and third heats in 2:19 1-4 and 2:16 1-4. Claribel took first heat in 2:21 1-4.

SCOTT BEATEN IN TENNIS.

Cowan Rogers Won the Championship of Tennessee in Singles Yesterday.

Nashville, Tenn., August 4. —This morning on the courts of the Nashville Tennis Club Cowan Rogers, of Knoxville, Tenn., won the state championship over L. D. Scott, of Atlanta, Ga. The score was 6-2, 7-5 and 6-3.

Child Poisoned by Weed.

Buchanan, Ga., August 4.—(Special.)—The infant child of G. A. Shelnutt, sheriff of this county, was poisoned this afternoon by eating Jamestown or "jinpsum," weeds, and is very sick. Dr. F. R. Smith, who was immediately called to see the child, says that it is very sick, but that it may recover.

White Star Buggy.

About Wheel Tires.

In making the White Star Buggy we spend $900 more on the tires in the course of a year, than do other manufacturers in the same relative time. But it pays.

We use 1-4-inch tires, whereas, most makers use the 7-32-inch tires. You'll find that the 1-4-inch gives long life to the tire. And they'll run a long time before requiring re-setting.

Perhaps you will be interested in the dozens of other points which make the White Star a buggy worth owning.

COTTON MARKET WAS LESS ACTIVE

Continued Nervous and Irregular, Net Changes Trifling.

Spot Offerings Small, but Prices Are Reported Slightly Lower—Close Was Steady, at a Net Decline of Only 3 to 5 Points.

CHRONICLE'S CROP AND WEATHER REPORT.

Following is the New York Financial Chronicle's weekly crop and weather report, received over private leased wire by Messrs. Ware & Leland: Our telegraphic reports from the south tonight indicate that the weather has been favorable quite generally during the week. Improvement in conditions is reported from Arkansas, Mississippi and Tennessee and on the whole the crop is doing fairly well. Picking is actively in progress in the earlier sections and a number of bales of new cotton are appearing.

New York, August 4.—The cotton market was less active than yesterday, sales being estimated at about 560,000 bales, but showed continued nervousness and irregularity with the net changes trifling. The opening was steady, unchanged to 6 points lower in response to lower cables, good weather and a renewal of the bear pressure noted late yesterday. There were a good many overnight buying orders in the hands of wire and commission houses that had been attracted by the August bureau, and shortly after the opening prices advanced to about 2@4 points above last night's finals on the active months. On this trifling bulge leading bear traders sold very aggressively and soon filled up the demand, after which prices broke severely catching stop orders on a scale down. Around 10.39 for October, or about 20@24 points net lower, covering and persistent buying for the account of powerful longs rallied the market, and the close was very steady at a net decline of only 3@5 points. Private wires from the south reported very small spot offerings, but according to official reports the markets were about 1/8 @5-16 lower. Liverpool cables stated that Lancashire spinners were yielding to demands of operatives and no strike was probable.

New Orleans Cotton Market.

New Orleans, August 4.—Spot cotton quiet and offerings light. The transactions made today were at board figures. Sales 1,975 bales including 1,275 to arrive and 600 f. o. b. Quotations reduced ⅛c.

Futures opened steady with the active positions down 3 points on lower Liverpool. Immediately after the opening a heavy selling movement commenced. Toward the middle of the morning the selling became stronger than ever and prices were forced down to a level where stop loss orders commenced to be reached on the long side. This cleaned out a considerable weak long following. Toward noon the selling let up and prices soon recovered most of the early losses. The market closed quiet. August lost net 2 points, September up 1, while the other positions lost 4 points.

The Dry Goods Market.

New York, August 4.—Buying in the dry goods market is spotty. Buyers are insistent upon securing spot goods, but are not particularly interested in futures unless for absolute needs. Prices continue to advance and sellers occupy a more independent position daily.

Hubbard Bros. & Co.

COTTON—The market opened fairly steady, but with an absence of business, with Liverpool easier. Selling developed early and was aggressive, resulting in the reaching of stop orders, and the consequent throwing overboard of a good deal of the recent purchases at high figures. At the decline, rumors are circulating of a new bull pool and buying has been undoubtedly good and considerable. These rapid movements may be expected for a time. Whether a following can be found again to advance prices is problematical, though extensive buying would find few sellers as the weak holders have fled. Confidence has been shaken in the permanency of high prices and it will be difficult to restore it if attempted. A forced movement will only work its own destruction. The spot market was quiet at 30 points decline.

The Liverpool Cotton Market.

Liverpool, Aug. 4.—12:15 p. m.—Cotton, spot, quiet, with prices easier; middling uplands 5.87; sales 5,000 bales; American 4,600; speculation and export 1,000; receipts 1,000; American 600.

Futures opened quiet and steady.

The Liverpool Grain Market.

Liverpool, August 4.—Wheat, spot, nominal; futures quiet; September 6s 6 7-8d; December 6s 7 3-4d; Marchh, nominal.

Corn, spot, easy; American, mixed, 5s 1d; futures quiet. September and December 4s 10 3-8d.

OPENING WAS FIRM, CLOSED STRONG

Damage by Rain to Wheat in Shock Bullish Factor.

September at the Close Was 5-8c Up. Heavy Liquidation of Corn Resulted in a Sharp Decline, September Closing 1-8 to 1-4c Lower.

Chicago, August 4.—Decreasing receipts southwest imparted a firm tone to the wheat market here today. Fresh reports of damage northwest added to the strength. At the close wheat for September delivery was up 5-8c. Corn is down 1 1-8@1 1-4c. Oats show a loss of 5-8c. Provisions are up 7 1-2@22 1-2c.

Strength in the wheat market developed early in the session. At the opening sentiment was a trifle bearish, initial quotations on September being off a shade to 1-8@1-4c at 84 3-8@84 1-2c. Liberal shipments from Argentina accounted partially for the easier undertone at the opening. Clear weather northwest was another reason. The weather bureau, however, predicted rain tonight and tomorrow for Minnesota and the Dakotas. The announcement checked selling by pit traders. After touching 84 1-4@84 3-8c, September advanced gradually to 85 1-2c. An influential factor favorable to the bulls was greatly decreased movement of wheat in the southwest. At Kansas City and St. Louis the total receipts today were 287,000 bushels, compared with 520,000 a year ago. Receipts at all primary points showed a marked falling off, arrivals today being 752,000 bushels, against 849,900 bushels a year ago. A report by a St. Louis trade paper regarding conditions of fall sown wheat attracted considerable attention and constituted a bullish influence. The report claimed that rains had interferred with threshing of winter wheat in Kansas, Missouri, Illinois and Indiana and that further damage to wheat in shock was reported. In regard to the conditions south of the Ohio river and in Texas the report stated that the crop was in "poor condition, a considerable portion being unfit for milling." Private advices from the northwest asserted that black rust was spreading in the wheat fields of that section, notwithstanding official reports to the contrary. Throughout the greater part of the session the commission houses were active buyers. The market closed firm with September at 85 1-8@85 1-4c. Clearances of wheat and flour were equal to 72,000 bushels. Exports for the week, as shown by Bradstreet's, were equal to 1,041,000 bushels. Minneapolis, Duluth and Chicagor reported receipts of 370 cars, against 426 last week and 222 cars a year ago.

Heavy liquidation by a prominent long caused weakness in the corn market. Total sales by this one trader were said to be in the neighborhood of 1,000,000 bushels. Smaller holders, influenced by this selling, took profits freely. Weather favorable for the new crop was an influential bearish factor. Large shipments from Argentina contributed to the weakness. The market closed weak with prices practically at the lowest point of the session. September opened 1-4@1-2c lower at 54 1-2@54 3-4c, sold off to 53 3-4c and closed at 53 3-4@53 7-8c. Local receipts were 162 cars with 31 of contract grade.

Offerings by cash houses who sold on the strength of heavy receipts and better quality shown in arrivals for the new crop, aided by liquidating longs, caused weakness in the oats market. The break in corn gave added impulse to the downward cause of prices. The market closed at the lowest point of the day. September opened 1-8@3-8c lower at 27 3-4@28c, sold off to 27 1-2c and closed at 27 1-2c. Receipts were 373 cars.

Provisions made a sharp advance late in the session on active demand from leading packers. An advance of 5@10c in the price of live hogs aided the upturn. At the close September pork was up 22 1-2c at $13.62 1-2. Lard was up 12 1-2@15c at $7.52 1-2. Ribs were 7 1-2c higher at $8.17 1-2.

Estimated receipts tomorrow: Wheat 182 cars; corn 151 cars; oats 253 cars; hogs 25,000 head.

Mr. Manufacturer!

The closer you get to the consumer, the firmer your grip on his trade becomes. If the consumer knows your goods by name and reputation and is satisfied with them after a trial, he will demand them of his dealer.

When the consumer learns to demand your goods and refuse substitutes, you have become independent of the jobbers' whims and the dealers' fancies. They are forced to handle your goods or lose their business.

Teach the consumer the name or the trade-mark that distinguishes your goods—advertise the virtues of your wares through the newspapers and magazines and you'll reach thousands of the best consumers in this country. Get the Massengale Advertising Agency, of Atlanta, Ga., to plan and prepare for you an advertising campaign that will make every consumer know and call for your goods. Their advice will cost you nothing. Send for free booklet and literature or ask for a representative to call.

Adler & Leers
ATLANTA, GA.

Aug. 2, 1905.

Constitution Publishing Co.

Gentlemen: We have always regarded The Atlanta Constitution as an advertising medium of the highest standing. We patronize it and get most satisfactory returns. We find that it has the confidence of the people and in a large measure transmits that confidence to us, thus enabling us to sell our goods.

Your Want Columns are result bringers. Our porter lost twenty dollars day before yesterday. We immediately put a Want Advertisement in your paper and got the twenty dollar bill back the morning the advertisement appeared.

We expect to patronize your advertising columns more and more each year.

Respectfully,
ADLER & LEERS.

These people are talking right out in meeting, and they are saying something, too.

APPLICATION FOR CHARTER

STATE OF GEIRGIA—County of Fulton.
To the Hon. Phillip Cook, Secretary of State of Georgia:
The petition of A. F. Herndon, J. H. Crew, M. W. Woodall, W. A. Aderhold and W. H. Jackson, all of said state and county, respectively shows:

First.
They desire that they, their associates, successors and assigns become a body corporate under the laws of the State of Georgia, for a period of fifty (50) years with the privilege of renewal at the expiration of said period.

Second.
They desire that the corporate name of said body corporate be "THE ATLANTA MUTUAL INSURANCE ASSOCIATION."

Third.
The principal office of the said Association shall be in the city of Atlanta, said state and county, but petitioners desire the right to establish branch offices in any part of said state or of the United States.

Fourth.
The object and aim of the said Association is to engage in and carry on the business of mutual or cooperative life, accident and health insurance under the laws of the State of Georgia and such by-laws as the said Association may enact not in conflict with the constitution and laws of said state or of the United States.

Fifth.
Petitioners desire the right to sue and be sued, to contract and be contracted with, to have and to use a common seal, to buy, sell and mortgage such real and personal property as may be necessary for the prosecution of its business. They desire to have the right and power to adopt such constitution and to enact such by-laws, rules and regulations, as are consistent with the laws of said state or the United States, as may be necessary for the safe conduct of its business and the government of its members. They desire the right to issue policies of insurance against accident to its members, upon the health and life of its members, provided, however, that no one life shall be insured in a single policy in a sum exceeding Five Hundred ($500) Dollars, and in terms allowed by law.

Sixth.
There is to be no capital stock of said Association; the plan of operation being purely mutual or cooperative.

Seventh.
The said corporation is petitioned for in good faith, and petitioners intend to organize said Association and to begin business when incorporated without delay.

Eight.
Petitioners have given thirty days' notice of their intention to apply for said charter by the publication of this petition once a week for four weeks in The Atlanta Constitution, the newspaper publishing the legal advertisement of said county where the principal office of said Association is to be located.

Ninth.
Wherefore petitioners pray that they be made a body corporate under the laws of said state, with all the rights, powers, privileges and franchises usually conferred upon corporations of like character.

A. F. HERNDON,
J. H. CREW,
M. W. WOODALL,
W. A. ADERHOLD,
W. H. JACKSON.

GEORGIA—Fulton County.
In person came before the undersigned, an officer authorized under the laws of Georgia to administer oaths, A. F. Herndon and J. H. Crew, two of petitioners signing the foregoing petition, and each, upon oath, deposes and says: That the signatures and names subscribed above are the genuine signatures of the persons named therein, and that the facts stated therein are true.
A. F. HERNDON,
J. H. CREW.
Sworn to and subscribed before me, August 4, 1905.
MARCELLUS M. ANDERSON,
Clerk Court; Ordinary Fulton County, Georgia.

STATE OF GEORGIA, FULTON COUNTY.—Fulton Superior Court.—Fall Term, 1905.—No. 12703.—Mrs. Ida L. Tinsley v. Edwin E. Tinsley.—To Edwin E. Tinsley, Greeting: By order of court, you are hereby notified that on June 13, 1905, Mrs. Ida L. Tinsley filed suit against you for injunction and receiver, and for judgment, returnable to the fall term, 1905, of said court. You are hereby required to be and apear at the fall term, 1905, of said court, to be held in and for said county on the first Monday in September, 1905, then and there to answer petitioners' complaint, as in default thereof the court will proceed as to justice shall appertain.
Witness, the Honorable J. T. Pendleton, judge of said court, this the 7th day of July, 1905. ARNOLD BROYLES,
Clerk Superior Court, Fulton County, Ga.

STATE OF GEORGIA, FULTON COUNTY.—Fulton Superior Court.—No. 12754.—Spring Term, 1905.—Mrs. Sallie Cox Stanton, Ex Parte.—Petition to sell for the purpose of reinvestment certain real estate located in the town of College Park, Fulton county, Georgia.—To Frank Cox Stanton, Corinne Louise Stanton and William Lewis Stanton, Jr., Greeting: You are hereby commanded to be and appear at the September term, 1905, of Fulton superior court, then and there to show cause, if any you have, why an order should not be granted to sell for the purpose of reinvesting the proceeds in other real estate in the city of Los Angeles, Cal., certain real estate in the town of Collge Park, Fulton county, Georgia, which is more fully described in a deed from W. L. Stanton to Sallie Cox Stanton, dated November 9, 1892, and recorded in deed book P4, page 306, of Fulton county records.
This 30th day of June, 1905.
Witness: The Hon. J. T. PENDLETON,
Judge Superior Court, Atlanta Circuit.
ARNOLD BROYLES,
Clerk of Said Court.

Notice to Debtors and Creditors.

All creditors of the estate of Edward White, Sr., late of Fulton county, deceased, are hereby notified to render in their demands to the undersigned according to law, and all persons indebted to said estate are required to make immediate payment.

OPENED HIGHER ON GOOD BUYING

Fluctuations Narrow, But Drooping Tendency Observable.

In Final Hour Prices Stiffened, Some Rising to Best of Day, While Others Remained Steady. Close Was Irregular and Very Dull.

New York, August 4.—The stock exchange had quite a lively hour following the opening today and the market showed more consistency and strength during that period than at any time during the week. With the subsidence of the early active demand, a drooping tendency in the standard stocks became observable. The heaviness had no more news to explain it than did the early strength. The active buying of the first hour was professedly based on growing confidence in the grain crops, and it was sought to convey the impression that information was available to the buyers on this subject through the arrangements for securing supplies by the great cereal producing companies. Record prices for Central Railroad of New Jersey and for Northern Pacific, with the exception of prices touched during the corner in the later stock, were the consequence. American smelting was another stock to touch a new high record price. A number of minor stocks made their first appearance on the tape for months, to be moved upward with a dash on light transactions. The coalers and the southern group rested after their previous advance. The early strength in Union Pacific was explainable by the reports of net earnings for that system and for Southern Pacific for une, showing an increase over the preceeding June which reached nearly a million dollars for the two systems. The check to the buying which showed in the latter market may have been due to the consideration of the bank statement forecast. It was notable, however, that an easier tone was reported in the market for time loans, and for call loans there was hardly demand for what was offered. The irregular tone of the later market continued up to the closing.

Bonds were steady. Total sales, par value, $3,028,000.

United States bonds were unchanged on call.

Money on call easy; highest 2; lowest 1¾; ruling rate and last loan 2; closing bid 1¾; offered at 2; time loans slightly easier; sixty days 3 per cent; 90 days and four months 3¼@3½ per cent; six months 3¾@4; prime mercantile paper 4@4¼.

Sterling exchange firmer with actual business in bankers' bills at $4.86.55@4.86.50 for demand and at $4.84.75@4.84.80 for sixty days; posted rates $4.85½@4.87½; commercial bills $4.84¼.

Bar silver 55 1-8c.

Mexican dollars 45½c.

Government and railroad bonds steady.

Liverpool Weekly Cotton Statistics.

Liverpool, August 4.—Following are the weekly statistics: Total sales, all kinds, 27,000 bales; sales, American, 21,000 bales; English spinners' takings 61,000 bales; total exports 6,000 bales; imports, all kinds, 40,000 bales; imports, American, 22,000 bales; stock, all kinds, 766,000 bales; stock, American, 689,000 bales; quantity afloat, all kinds, 111,000 bales; quantity afloat, American, 90,000 bales; total sales on speculation 800 bales; sales to exporters 800 bales.

Ware & Leland.

WHEAT—There was a little selling early on the favorable spring wheat reports and large Argentine shipments, but the Russian news was again a bullish feature. There was talk of a light movement in the southwest, and all in all, enough bullish news filtered out to drive in the shorts, especially less favorable crop news from the northwest. Shorts were disposed to cover pretty generally, as Liverpool will be closed until Tuesday, and they were fearful that some bullish Russian news may appear then. It looks to us as if further advances will materially increase winter wheat offerings, and we favor sales on the hard spots.

CORN—Missouri crop figures 260,000 bushels. Large cash sales were made yesterday, but country acceptances show an increase. There was selling at the start by the crowd, also by Patten's brokers, and there was a suspicion that the Armour houses were partly responsible for the break. Offerings were quite free, a great deal of long corn coming out on a sale, but there was a belief that possibly the break was engineered not only to shake out holders, but to create a short interest.

OATS—There was a good buying of May around 30c. Iowa threshing reports were rather poor, and should further dips appear, we would favor purchases.

PROVISIONS — Commission houses bought lard and the Swift brokers bought pork, that is slated for a higher figure for the purpose of driving in shorts. It is a packers' market altogether.

STOCKS—American stocks were generally higher in London, and accordingly, the local market opened strong. In the early trading Union Pacific, St. Paul and Smelters all made good gains. During the morning the reports of earnings for June of the Union and Southern Pacific roads were published. There reports were favorable, but the price of the stocks was not affected very much. In the afternoon there was a great deal of discussion of tomorrow's bank statement, and it is generally expected that it will be favorable. The floor traders sold stocks on this theory. The market closed firm at a recession from the top prices. The action of the United States Steel stocks for some time past seems to foreshadow another advance in these issues. The preferred closed today at the top fraction, and it is very probable that it will be advanced tomorrow. In case the bank statement is as bad as it is generally expected it will be a further reaction may occur tomorrow. In the event of such a reaction, we unhesitatingly advise the purchase of the coalers, northwestern stocks, the tractions and any of the steels.

Southern Exchange.

COTTON speculative interests working for a depression in the option list regulated the course of our market today, which was slightly encouraged by the government report and the favorable weather reports. Foreign cables were not depressed until after the opening of our market, after which the prices acted in sympathy with our quotations. Our market at one time was 9 points under the high level of last month, which occasioned considerable short covering, and to a certain degree was influential in the market regaining a somewhat better tone. There was, however, evidences of good buying by some of larger interests who, it is believed, unloaded their holdings above 11 1-4c. The weather for the day and forecast were of generally fair weather and showery throughout the belt, and the map was regarded favorable for the development of the crop. We do not anticipate a further decline of any importance, and in the event of increased outside interests or any signs of further disaster a quick and active rise is quite likely to follow the recent decline.

Dun's Review.

New York, August 4.—R. G. Dun & Company's Weekly Review of Trade tomorrow will say:

"Business continues to expand in a wholesome manner that promises well for the future. Reports from the leading branches of manufacture are unanimous in telling of an increasing volume of orders, and the percentage of idle machinery is steadily diminishing. Textile plants make the best returns, closely followed by footwear factories and some divisions of the steel industry are engaged so far ahead that capacity is extended. Better prospects for the crops removes the only handicap that impeded the revival of trade, and favorable weather for a few weeks will assure unprecedented production in the aggregate, although the yield of cotton will fall considerably behind last year's. The month of July made a most encouraging exhibit insofar as statistics are available, liabilities of failures being smaller than in any month since April, 1901, and railway earnings surpassing last year's by 9.1 per cent. Foreign trade at this port for the last week shows gains of $1,776,184 in exports and $1,608,654 in imports as compared with the same period of 1904.

"Quiet conditions in the leading iron and steel markets do not prevent activity at the mills, which operate freely on old contracts and are preparing for a vigorous fall campaign. Prices of metals have risen still further, they selling 6c higher than this day a year ago. Output of cok eis moderate, but the market is quiet and prices are steady.

"Recent advances in hides are fully maintained and in some varieties further strength has appeared and importers are actively bringing supplies from Europe. It is estimated that this foreign business has already aggregated over 100,000 hides. Leather is more active, especially hmelock sole and oak backs, with prices sustained. Prospect of still higher prices for materials necessitates conservative action by manufacturers of boots and shoes. New England producers of footwear are fully occupied on current deliveries.

"Failures this week in the United States are 232, against 214 last week, 193 the preceding week and 230 the corresponding week last year and in Canada 26, against 27 last week, 23 the preceding week and 18 last year."

THE TRADE SITUATION.

New York, August 4.—Bradstreets' tomorrow will say:

"Trade and industry improve as crops mature. Fall business, while not yet in full swing, shows signs of expansion and western trade opens a week earlier than last year. Weather conditions have favored crop growth and harvesting, fear of rust damage to spring wheat has disappeared, corn promises a record yield, and both demand and collections have improved as the result of early wheat crop movement in the southwest. Midsummer quiet, so-called, is less than ordinary manifested year in trade, industry and financial operations. Bank clearings for July break all records for that month, failures are strikingly few for a normally dull period, and railway earnings show progressive gains on the best summers of previous years, with an increase of 8 per cent over July, 1904, the fiscal year showing 5 per cent advance in gross and 4 per cent gain in net over the preceding year. The textile markets all display notable strength.

"Best trade reports come from the southwestern sections, where the new winter wheat crop has been good and is moving freely. Demand and collections in that sections embracing Oklahoma, Kansas, Missouri, and Nebraska have all improved. In the northwest trade sentiment is stronger, now that rust damage is no longer feared. Trade in the south is irregular. Mississippi valley shotgun quarantines affect demand and shipment, but in the South Atlantic states and in the industrial centers the feeling is quite cheerful and fall business is looking up.

"New buying of pig iron is quieter than of late, but small individual sales make up a good total. Finished lines show increasing demands from the country reflected in continued active operations in most parts. Rail sales have been numerous, and all that can be delivered this year are already booked. The lake ore traffic in July was in advance of any preceding month in the country's history.

"Eastern she factories are busy on fall orders, and shipments weekly exceed last year's at this time. Leather is strong and active, and hides have again advanced.

"The City of Mexico correspondent wires that excellent crops of all kinds are anticipated in the republic. Everything points to continued prosperity in that country.

"Wheat, including flour, exports for the week ending August 3, are 1,047,696 bushels, against 723,314, corrected, last week and 1,379,198 last year. From July 1st to date the exports, corrected, are 4,373,643, against 6,565,372 last year.

"Corn exports for the week are 1,013,675 bushels, against 773,621 last week and 273,365 a year ago. From July 1 to date the exports of corn are 4,747,763 bushels, against 2,583,909 in 1904.

Business failures in the United States for the week ending August 3, number 178, against 197 last week, 179 in the like week of 1904, 161 in 1903 and 169 in 1902 and 185 in 1901. In Canada failures for the week number 25, against 28 last week, and 25 in this week a year ago."

World's Visible Supply of Cotton.

New Orleans, August 4.—Secretary Hester's statement of the world's visible supply of cotton, made up from special cable advices, compares the figures of this week with last week, last year and the year before.

It shows a decrease for the week just closed of 77,339, against a decrease of 96,120 last year and a decrease of 119,980 year before last.

The total visible is 2,907,462, against 2,984,801 last week, 1,494,215 last year and 1,567,843 year before last.

Of this the total of American cotton is 1,805,462, against 1,827,801 last week, 659,215 last year and 742,843 year before last, and of all other kinds, including Egypt, Brazil, India, etc., 1,102,000, against 1,112,000 last week, 835,000 last year and 825,000 year before last.

The total world's visible supply of cotton as above shows a decrease compared with last week of 77,339, an increase compared with last year of 1,413,247, and an increase compared with year before last of 1,339,619.

Of the world's visible supply of cotton, as above, there is now afloat and held in Great Britain and continental Europe, 1,576,000, against 863,000 last year and 833,000 year before last; in Egypt 73,0000 against 75,000 last year and 12,000 year before last; in India 73,000, against 401,000 last year and 493,000 year before last; and in the United States 528,000, against 155,000 last year and 230,000 year before last.

The Metal Market.

New York, August 4.—A further reaction was reported in the London tin market with spot closing at £149 15s and futures at £148 10s. Locally quiet and easy; spot 32.62½@32.87½.
